

Table of contents

1 Hand

1.1	Hand—basic techniques	1
1.2	Phalanx, proximal—spiral fracture: lag screws	13
1.3	Phalanx, proximal, head—bicondylar fracture: lag screws or condylar plate	19
1.4	Phalanx, proximal, head—unicondylar fracture: lag screws	23
1.5	Proximal interphalangeal (PIP) joint—fracture dislocation: lag screw or external fixator	27
1.6	Phalanx, proximal—transverse fractures: plates	33
1.7	Phalanx, proximal—unstable fracture: percutaneous K-wire	37
1.8	Phalanx, proximal, base—articular fracture: condylar plate	41
1.9	Phalanx, proximal—avulsion fractures: tension band wiring	45
1.10	Phalanx, proximal—dorsal and palmar multifragmented diaphyseal fracture: bridging plate	49
1.11	Phalanx, middle—open fracture with bone loss: bridging plate plus bone graft	53
1.12	Thumb, phalanx, proximal—complex fracture with bone loss: combined fixation	57
1.13	Phalanx, proximal head—complex dorsal combined injury: lag screws	61
1.14	Metacarpal, head—intraarticular split fracture: lag screws	65
1.15	Metacarpal, shaft—spiral fracture: lag screws	69
1.16	Metacarpal, neck—transverse fracture: intramedullary K-wires and alternative techniques	73
1.17	Metacarpal, shaft—transverse fractures: compression plates	81
1.18	Metacarpals, shaft—multifragmented and oblique fractures: plates	85
1.19	Metacarpals, necks and head—different fracture patterns with soft-tissue damage: plates	89
1.20	Metacarpal, base—impacted articular fracture: plate	93
1.21	Metacarpal (thumb), base—unstable extraarticular fracture: condylar plate	97
1.22	Metacarpal (thumb), base—Bennett fracture (two-part): screw and alternatives	101
1.23	Metacarpal (thumb), base—Rolando fracture (three-part): plate and alternatives	107
1.24	Metacarpal (thumb), base—comminuted articular fracture: external fixator	113
1.25	Metacarpals II–V—amputation and replantation: plates and K-wires	119
1.26	Metacarpal (thumb), base and phalanx, proximal—atrophic nonunion: condylar plate	125
1.27	Metacarpal (thumb), shaft—infected nonunion: external fixator	129
1.28	Metacarpal—spiral malrotation with cross-over: lag screw	131

- 1.29 Phalanx—nonunion: condylar plate **135**
- 1.30 Phalanx, proximal—malunion: H-plate **139**
- 1.31 Recommended literature **143**

2 Wrist—scaphoid

- 2.1 Scaphoid—basic techniques **145**
- 2.2 Scaphoid—nondisplaced fracture: percutaneous cannulated screw **149**
- 2.3 Scaphoid, waist—displaced fracture: arthroscopic-assisted screw fixation **153**
- 2.4 Scaphoid—multifragmented fracture: ORIF with screws **157**
- 2.5 Perilunate—dislocation: screws and external fixator **161**
- 2.6 Scaphoid fracture and perilunate dislocation: screws **165**
- 2.7 Scaphoid and capitate—naviculocapitate syndrome: screws **169**
- 2.8 Scaphoid and distal radius—both complex fractures: screw and plates **173**
- 2.9 Scaphoid nonunion with deformity and carpal malalignment: bone graft and screw **177**
- 2.10 Scaphoid (proximal pole), nonunion—avascular necrosis: bone graft and K-wire **181**
- 2.11 Pediatric scaphoid, waist—displaced fracture: K-wires **185**
- 2.12 Recommended literature **188**

3 Wrist—distal radius

- 3.1 Distal radius—basic techniques **191**
- 3.2 Simple articular fracture—23-C1: nonbridging external fixator **201**
- 3.3 Dorsal bending extraarticular fracture—23-A3: Norian technique **205**
- 3.4 Simple articular fracture—23-C1: bridging external fixator **209**
- 3.5 Compression fracture, coronal split of lunate facet—23-C1: tension band wiring **213**
- 3.6 Multifragmented palmar shearing (reverse Barton's fracture)—23-B3: palmar plate as "buttress plate" **219**
- 3.7 Isolated palmar lunate facet fracture—23-B1: plate **225**
- 3.8 Complex articular fracture with dorsal shear and rotated palmar lunate facet—23-C3: plates **229**
- 3.9 Compression 4-part fracture—23-C3: plates **233**
- 3.10 Radiocarpal fracture, dislocated—23-C3: π -plate, cannulated screws, and cerclage wire **237**
- 3.11 Comminuted intraarticular fracture—23-C3: distal radius plates **241**
- 3.12 Extraarticular fracture, simple—23-A3: palmar plates LCP 2.4 **245**

3.13	Radial styloid shearing fracture including dorsal rim—23-B1: screws	249
3.14	Complex extraarticular with distal ulnar fracture—23-A3: plates	253
3.15	Complex articular 4-fragment fracture—23-C3: palmar plates	257
3.16	Complex articular fracture with extension into diaphysis—23-C3: plates and cerclage wire	261
3.17	Complex articular fracture with malrotated palmar lunate facet fragment—23-C3: plate, K-wire, and external fixator	265
3.18	Complete articular multifragmentary fracture with metaphyseal comminution—23-C3: plates	269
3.19	Distal radius osteotomy: π -plate and cancellous bone graft	273
3.20	Distal radius osteotomy—malunion: plate and screws	277
3.21	Distal radius osteotomy—intraarticular malunion: distal radius plate	287
3.22	Distal radius—nonunion: plates	291
3.23	Recommended literature	295
4	Instruments and implants	
4.1	Instrument and implant sets for hand, wrist, and distal radius	299
5	Glossary	319
6	Index	333
7	How to use the DVD-ROM	343
