

Contents

Session I: Morphometric and Histologic Analysis of the Cell Elements
in the Carotid Body Tissue

Light-Microscopic and Electron-Microscopic Studies on the Morphology of Cat Carotid Body
(E. Seidl, D. Schäfer, K. Zierold, H. Acker, and D.W. Lübbers) 1

Origin of Nerve Terminals on Glomus Cells in Cat Carotid Body: A Study of Axoplasmic
Movement of Labeled Material Along Sensory Neurons of the Petrosal Ganglion
(S. Fidone, P. Zapata, and L. J. Stensaas) 9

Identification of Sensory Axon Terminations in the Carotid Body by Autoradiography
(P. G. Smith and E. Mills) 17

Degenerative Changes in Rabbit Carotid Body Following Systematic Denervation and Pre-
liminary Results about the Morphology of Sinus Nerve Neuromas
(H. Knoche and E.-W. Kienecker) 25

Regeneration of Nerves and Nerve Terminals in Rabbit Carotid Body Following Carotid
Nerve Sectioning and Suturing
(E.-W. Kienecker and H. Knoche) 30

Chemoreceptor Activity in the Rabbit Carotid Sinus Nerve During Regeneration
(D. Bingmann, E.-W. Kienecker, and H. Knoche) 36

Recovery of Chemosensory Function of Regenerating Carotid Nerve Fibers
(P. Zapata, L.J. Stensaas, and C. Eyzaguirre) 44

Studies of Normal and Wobbler Mutant Carotid Bodies
(D.J. Pallot and T.J. Biscoe) 51

Fine Structure of Pressoreceptor Terminals in the Carotid Body (Mouse, Cat, Rat)
(K. Gorgas and P. Böck) 55

Capillary Distances and Oxygen Supply to the Specific Tissue of the Carotid Body
(D.W. Lübbers, L. Teckhaus, and E. Seidl) 62

Session II: Electrophysiological Characteristics of the Cell Elements in the Carotid Body

Effects of Temperature and Stimulating Agents on Carotid Body Cells
(C. Eyzaguirre, M. Baron, and R. Gallego) 71

Are the Conventional Electrophysiological Criteria Sufficient to Give Evidence of an Electro-
genic Sodium Transport Across Neuronal Membranes?
(W. Zidek, E.-J. Speckmann, H. Caspers, and A. Lehmenkühler) 79

Reaction of Cultured Carotid Body Cells to Different Concentrations of Oxygen and Carbon Dioxide (F. Pietruschka, D. Schäfer, and D.W. Lübbers)	86
Meaning of the Type I Cell for the Chemoreceptive Process – An Electrophysiological Study on Cultured Type I Cells of the Carotid Body (H. Acker and F. Pietruschka)	92

Session III: Histochemical and Biochemical Investigation of the Transmitters in the Carotid Body

Dopamine Beta-Hydroxylase Activity in the Cat Carotid Body (C. Belmonte, C. González, and A.G. García)	99
Endogenous Acetylcholine Levels in Cat Carotid Body and the Autoradiographic Localization of a High Affinity Component of Choline Uptake (S. Fidone, S. Weintraub, W. Stavinoha, C. Stirling, and L. Jones)	106
Molecular Biology of Chemoreceptor Function: Induction of Tyrosine Hydroxylase in the Rat Carotid Body Elicited by Hypoxia (I. Hanbauer)	114
Effects of Hypoxia on Carotid Body Type I Cells and Their Catecholamines. A Biochemical and Morphologic Study (S. Hellström)	122
Loss of Histochemically Demonstrable Catecholamines in the Glomus Cells of the Carotid Body After α -Methylparatyrosine Treatment (M. Grönblad and O. Korkala)	130
Enzymes and Inhibitors of the Catecholamine Metabolism in the Cat Carotid Body (H. Starlinger)	136

Session IV: The Afferent and Efferent Chemoreceptive Pathway of the Carotid Body

A Pharmacologic Study on a Possible Inhibitory Role of Dopamine in the Cat Carotid Body Chemoreceptor (K. Nishi)	145
Blockade of Carotid Body Chemosensory Inhibition (P. Zapata and F. Lladós)	152
Variable Influences of the Sympathetic Nervous System Upon Carotid Body Chemoreceptor Activity (R. G. O'Regan)	160
Mechanism of Inhibition of Chemoreceptor Activity by Sinus Nerve Efferents (P. Willshaw)	168
Further Studies on the Fluctuation of Chemoreceptor Discharge in the Cat (M.J. Purves and J. Ponte)	175
Carotid Body Chemoreceptor Afferent Neurons in the Solitary Tract Nucleus Area of the Cat (J. Lipski, R.M. McAllen, and A. Trzebski)	182
Multifactor Influences on the Functional Relationship Between Ventilation and Arterial Oxygen Pressure (H. Kiwull-Schöne and P. Kiwull)	190

Session V: Morphometric Analysis of Ultrastructural Changes in the Carotid Body Tissue

Histofluorescent and Ultrastructural Studies on the Effects of Reserpine and Calcium on Dense-Cored Vesicles in Glomus Cells of the Rat Carotid Body (A. Hess)	201
Ultrastructural Changes in Sensory Nerve Endings Accompanying Increased Chemoreceptor Activity: A Morphometric Study of the Rat Carotid Body (D. McDonald)	207
Dense-Cored Vesicles and Cell Types in the Rabbit Carotid Body (A. Verna)	216
The Carotid Body Chief Cell as a Paraneuron (S. Kobayashi)	221

Session VI: Environmental Conditions for the Chemoreceptive Process in the Carotid Body

Factors Affecting O ₂ Consumption of the Cat Carotid Body (W.J. Whalen and P. Nair)	233
Mathematical Analysis of Oxygen Partial Pressure Distribution of the Carotid Body Tissue (U. Grossmann, R. Wodick, H. Acker, and D.W. Lübbers)	240
Comparative Measurements of Tissue PO ₂ in the Carotid Body (H. Weigelt and H. Acker)	244
A Functional Estimate of the Local PO ₂ at Aortic Chemoreceptors (A.S. Paintal).	250
Role of Calcium Ions in the Mechanism of Arterial Chemoreceptor Excitation (M. Roumy and L.M. Leitner)	257
Tissue PO ₂ in the Cat Carotid Body During Respiratory Arrest After Breathing Pure Oxygen (D. Bingmann, H. Schulze, H. Caspers, H. Acker, H. P. Keller, and D. W. Lübbers)	264
Relationship Between Local Flow, Tissue PO ₂ , and Total Flow of the Cat Carotid Body (H. Acker and D. W. Lübbers)	271
Effects of Temperature on Steady-State Activity and Dynamic Responses of Carotid Baro- and Chemoreceptors (D. Bingmann)	277
Manipulation of Bicarbonate in the Carotid Body (R.W. Torrance)	286
Subject Index	295
