Part I General Considerations

1 Introduction	3
Pierre Lascombes	
2 Experimental Studies	9
Dimitri Popkov and Pierre Lascombes	
3 Biomechanics of FIN	19
Jean-Noël Ligier	
4 Stainless Steel or Titanium?	25
Jean-Michel Clavert, Philippe Gicquel, and Marie-Christine Giacomelli	
5 Surgical Technique: Basic Principles	29
Pierre Lascombes and Jean-Damien Métaizeau	
6 FIN Without Image Intensification	49
Pierre Lascombes	
7 Hardware Removal	53
Pierre Lascombes	
8 Pediatric Anesthesia and Postoperative Pain Management	59
Anne Terrier	
9 FIN and Imaging	63
Laurence Mainard-Simard, Alain Noel, Luc Guillaume, and Michel Claudon	
10 Rehabilitation After FIN	69
Claude Gavillot and Francine Rumeau	

11 Professional Caregivers' Perspective	75
Marie-Christine Mirouf	
 Part II Technique	
12 Fracture of the Proximal Humerus	81
Pierre Journeau and Pierre Lascombes	
13 Humeral Shaft Fracture	99
Pierre Journeau	
14 Supracondylar Humeral Fracture	115
Pierre Journeau and Fabrizio Annocarò	
15 Radial Neck Fracture	137
Pierre Journeau and Nicolas Moh-Ello	
16 Both-Bone Forearm Fracture	159
Pierre Lascombes and Thierry Haumont	
17 Metacarpal and Phalangeal Fractures	187
Stéphane Barbary and Gilles Dautel	
18 Femoral Fracture	197
Pierre Lascombes and Jean-Damien Métaizeau	
19 Tibial Fracture	231
Pierre Lascombes	
20 Ipsilateral Long Bone Fractures and Polytrauma	253
Pierre Lascombes	
 Part III Other Indications	
21 FIN and Bone Weakness	263
Jean-Marc Laville	
22 FIN in Ilizarov Bone Lengthening	279
Dimitri Popkov	
23 Use of FIN for Correction of Deformities in Children with Familial Hypophosphatemic Rickets	291
Dimitri Popkov	

24 FIN and Osteotomies	301
Tim Theologis, James Hui, and Pierre Lascombes	
25 Conclusion	309
Pierre Lascombes	
Appendix	311
Index	313
