

Contents

Dedication	v
Foreword.....	ix
Preface.....	xi
Acknowledgments	xi
1. Setup and Ergonomics of Endoscopic Sinus Surgery.....	1
2. The Surgical Field in Endoscopic Sinus Surgery.....	7
3. Radiology	13
4. Powered Inferior Turbinectomy and Endoscopic Septoplasty	19
5. Uncinectomy and Middle Meatal Antrostomy, Including Canine Fossa Puncture.....	25
6. The Anatomy of the Frontal Recess and Frontal Sinus with Three- Dimensional Reconstruction	35
7. Approach to the Frontal Sinus and Frontal Recess	55
8. Surgery of the Bulla Ethmoidalis, Posterior Ethmoids, and Sphenoidotomy, Including Three-Dimensional Reconstruction of the Posterior Ethmoids	65
9. Extended Approaches to the Frontal Sinus: The Modified Endoscopic Lothrop Procedure	75
10. Sphenopalatine Artery Ligation and Vidian Neurectomy	91
11. Powered Endoscopic Dacryocystorhinostomy.....	97
12. Cerebrospinal Fluid Leak Closure	109
13. Endoscopic Pituitary Tumor Surgery	119
14. Endoscopic Medial Maxillectomy for Maxillary and Pterygopalatine Fossa Tumors	125
15. Endoscopic Orbital Decompression for Exophthalmos, Acute Orbital Hemorrhage, and Orbital Subperiosteal Abscess	135
16. Endoscopic Optic Nerve Decompression	141
Index	149
