Contents

Preface vii
Stefan Strecker and Jürgen Jung

Birthday Greetings xi
Alan Kay

1 **Theorieverständnisse in Wirtschaftsinformatik und Betriebswirtschaftslehre** 1
Stephan Zelewski, Naciye Akca und Malte L. Peters

2 **Academic Publishing and Academic Ethos – Looking Back to the Future** 57
Stefan Klein

3 **Moral Responsibility in Conceptual Modeling** 81
Alexander C. Bock and Jens Gulden

4 **Conceptual Modeling: A Still Unfinished Saga** 103
Heinrich C. Mayr and Bernhard Thalheim

5 **On Views, Diagrams, Programs, Animations, and Other Models** 123
Henderik A. Proper and Giancarlo Guizzardi

6 **State Consistency – A Matter of Conceptual Modeling?** 139
Elmar J. Sinz

7 **Epistemologically Motivated Modeling of Computer-Integrated Systems** 149
Peter Fettke and Wolfgang Reisig

8 **Executable Multi-Level Modelling: Foundations, Methods and Tools** 157
Tony Clark

9 **Projective Multi-Level Enterprise Architecture Modeling with MEMO** 173
Colin Atkinson, Christian Tunjic and Arne Lange

10 **The Product Perspective in Multi-Perspective Enterprise Modelling: What Information about Products is Relevant for Enterprise Models?** 187
Kurt Sandkuhl

Bibliografische Informationen
https://d-nb.info/1323634177

digitalisiert durch DEUTSCHE NATIONAL BIBLIOTHEK

11 Bridging the Mental and the Physical World: Conceptual Modeling and Augmented Reality 197
Hans-Georg Fill and Fabian Muff

12 Towards Tailored Support for Design Practices in Collaborative Modeling Sessions 213
Tobias Kautz and Robert Winter

13 Omnichannel Processes in Retailing SMEs: Digitalisation in a Furniture Company 233
Jörg Becker, Paul Kruse, and Andreas Hermann

14 Towards Reference Models with Conformance Relations for Structure 247
Marco Konersmann, Judith Michael and Bernhard Rumpe

15 Enterprise Use Cases Combining Knowledge Graphs and Natural Language Processing 271
Phillip Schneider, Tim Schopf, Juraj Vladika and Florian Matthes

16 AdoScript: A DSL for Developing Conceptual Modeling Methods 287
Dimitris Karagiannis

17 Model-Driven Development: From Strategy to Code 309
Oscar Pastor, Rene Noel, Rosa Velasquez and José Ignacio Panach

18 Die Entdeckung des Plurals für die Programmierung 325
Friedrich Steimann

19 Steps Toward Articulating a Work System Perspective that Addresses a Grand Challenge for the IS Discipline 343
Steven Alter

20 What a Wonderful Modeling World! Tackling Conceptual Diversity in Enterprise & Information Systems Modeling 369
Marc Frerichs and Markus Nüttgens

21 The Process of Detecting Suspicious Communication with Psycholinguistics and Text Mining Techniques 407
Ewelina Księżniak and Witold Abramowicz

22 The Next Generation of ERP Systems: Problems of Traditional ERP-Systems and the Next Wave of Really Standardized ERP Systems 427
Reinhard Schütte

23 Process Management: A Reflection from a Practical Perspective 453
Stefan Jablonski and Stefan Schönig

List of Contributors 465
