

1 Einführung: Wie Fab Cities zu einer nachhaltigen Entwicklung beitragen	1
Manuel Moritz, Tobias Redlich und Sonja Buxbaum-Conradi	

Teil I Frameworks and Theoretical Concepts

2 The Fab City Full Stack	13
Tomas Diez Ladera, Vasilis Niaros and Carolina Ferro	
3 What Kind of City is the Fab City?	27
Sonja Buxbaum-Conradi	
4 Lokale Produktion als Beitrag zu einer nachhaltigen Wertschöpfung	43
Pascal Krenz, Lisa Stoltenberg, Dominik Saubke und Julia Markert	

Teil II Governance, Economics, and Enabling Technologies

5 Creative Flows	61
Denis Roio, Micol Salomone and Stefano Lucarelli	
6 Transitioning to a Fab City: A Governance Perspective	71
Anna Wildhack, Jana Koppe and Jörg Knieling	
7 Decentralized Autonomous Organizations (DAOs) as Innovative Means to Supplement Transition Governance	89
Alex M. Pawlowski	
8 Implementing a Digital Product Passport to Support the Open-Source Hardware Community	101
Denis Roio, Adam Burns and Stefano Bocconi	
9 The Fab City Index	115
Niels Boeing	

10	Intellectual Property Rights in a Fab City/Open-Source Hardware Context	135
	Dana Beldiman, Fabian Flüchter and Felix Tann	
11	Haftungsrisiken im Kontext von Open Source Hardware	149
	Linda Kuschel und Lisa Haller	
 Teil III Distributed Innovation, Design, and Product Development		
12	Citizen Innovation in Fab Cities	165
	Johanna Schnier, David Pacuku, Christina Raasch and Manuel Moritz	
13	Barriers to Widespread Adoption of Fab City Products	175
	Marvin Klein and Christian Lühje	
14	Exploring Open-Source Software Ecosystems for Hardware Development	187
	J. C. Mariscal-Melgar, Pieter Hijma, Martin Häuer, Martin Schott, Julian Stirling, Timm Wille, Manuel Moritz and Tobias Redlich	
15	Circular und Distributed Design im Kontext der Fab City	201
	Wolf Kühr, Michael Ziehl und Ursula Tischner	
16	Co-kreative Produktentwicklung für eine lokale und unternehmensübergreifende Produktion	215
	Dominik Saubke und Pascal Krenz	
 Teil IV Local Production		
17	The Roles of Makerspaces for Facilitating Open-Source Hardware Development	231
	Margit Hofer, Mehera Hassan and Robert Mies	
18	On the Usability of Open-Source Machine Tools	247
	Luisa Lange, Sonja Buxbaum-Conradi, Manuel Moritz, Jacqueline Bertlich, Tobias Redlich and Jens P. Wulfsberg	
19	Enabling Technology Diffusion with the Open Lab Starter Kit	257
	Mohammed Omer, Melina Kaiser, Manuel Moritz, Tobias Redlich and Daniele Ingrassia	
20	Open and Circular Value Creation in the Open Microfactory	265
	Michel Langhammer, Lennart Hildebrandt, Henrik Seeber, Manuel Moritz and Tobias Redlich	
21	Local Production Networks of SMEs: The Future of Producing Locally?	281
	Julia Christina Markert and Pascal Krenz
