

1	Introduction to the Kamoro Natural Resources Utilization Study.....	9
	• Conclusions of the Kamoro natural resources study	
	• Land problems	
	• A tremendous natural resource variety and access by ' <i>kapiri kame</i> '	
	• A most useful comparison	
	• Who are the Kamoro and where do they live?	
	• Freeport and drastic changes	
	• Three essential eco-systems, then seven	
	• A new lifestyle	
	• Methodology and focus of this resource utilization study	
	• Research techniques: Illustrated books and on-ground truthing	
2	Iwaka and Its ' <i>Kapiri Kame</i> ' (Temporary Camps).....	39
	• Iwaka: The main problem is land rights; overview points	
	• ' <i>Kapiri Kame</i> ' at Iwaka Village	
	• Drinking water at Iwaka	
	• A bit of history: Logging and cash economy	
	• Programs to help the Iwaka Kamoro	
	• The ' <i>kapiri kame</i> '	
	• Timing and length of stay	
	• What is taken and what is brought back	
	• Two river systems and their camps	
	• The physical ' <i>kapiri kame</i> '	
	• Appendix I: The Garbage Road	
	• Appendix II: Logging and its economics	

	• Appendix III: The camps • Appendix IV: Land rights, leadership and resentment • Appendix V: The IBF foundation: a private endeavor in Iwaka	
3	Atuka Village.....	73
	• A summary (2002) • Atuka: A village with a difference • Buying and selling in Atuka • ‘<i>Kapiri kame</i>’ in Atuka • Appendix I: What Domi buys and sells • Appendix II: The One Percent Program	
4	Pigapu Village, Feb. 12 to 15, 2000.....	89
	• Paopao (Kali Kopi Bawah) • Positive aspects • Negative aspects (as per the local Kamoro leaders of the hamlet) • Negative aspects (as per author) • Suggestions	
5	Kamoro Vegetation Use.....	103
	• Canoes & paddles • Construction of dwellings • Pandanus and the ‘<i>kapiri kame</i>’ • Tools, hunting, fishing • Forest Fruits Leaves and Nuts • Planted fruit and vegetables • Plants of various uses • Decorations • Appendix I: Mangrove Flora use by Kekwa Village • Appendix II: timber species taken by lumber companies • Kamoro Medicinal Plants	

6	Mangroves: A Fascinating Eco-System.....	139
	• Mangrove adaptations • Ecological tragedy • Animals in the mangrove supermarket • Mollusks • Crustaceans • Birds • Fish • Insects • Mammals • Reptiles • A most useful family • A true pioneer • The big apple • The cannonball mangrove • Patience: A few more mangroves, landward • A herb and a fern • Camp followers: Mangrove associates • The nypa palm: Untapped potential • The useful pandanus	
7	A Visit to the Mangroves.....	163
	• The sago palm: A staple tree of life • The rich mangrove environment	
8	Birds in Kamoroland: A Unique Flock.....	171
	• A unique flock of birds • Birdwatchers, take note • The cassowary: A bad-tempered beast • Mound-builders • Sea, swamp, river: Water birds • Birds of prey • Of pigeons and doves • The brightest flock: Lories, lorikeets, parrots, and cockatoos	

- Hornbills: The most obvious
- Showy headdresses: The Greater Bird-of-Paradise
- Appendix I
- Appendix II
- Appendix III
- Appendix IV
- Appendix V

9 Fishes and Fishing209

- What’s in a name?
- Appendix I
- Appendix II
- Appendix III
- Appendix IV
- Appendix V
- Appendix VI
- Appendix VII
- Appendix VIII

10 Crustacea: Shrimp and Crabs Species253

- A bit of background and fun facts
- Kamoro area crustaceans

11 The Mollusks of Kamoroland.....261

- Mollusk background
- Appendix I
- Appendix II
- Appendix III
- Appendix IV
- Bibliography

12 Reptiles in the Kamoro Area: Snakes, Lizards, Crocodiles, and Turtles.....281

- Turtles
- Crocodiles
- Lizards

- Snakes
- Appendix I
- Appendix II
- Appendix III

13 Mammal.....313

- Introduced species
- The weirdest mammals: monotremes
- The marsupials
- The Dasyurids
- The bandicoots
- Wallabies and tree kangaroos
- The cuddly cuscus
- Other marsupials: Sugar gliders and possums
- Rats and bats
- Appendix I
- Appendix II
- Appendix III

14 Insects Used by the Kamoro319

- Kamoro hors d'oeuvres: Sago grubs, and lists of insects in this area
- Other grubs for future taste-tests
- Appendix I
- Appendix II
- Appendix III

15 Appendix333
