

1	Introduction and Structure of the Thesis	1
2	Motivation	5
2.1	Museum Visits in Germany	7
2.2	Digital Transformation	13
2.3	Mobile Technologies	16
2.4	Tourism	17
2.5	Summary: External Influence and Impacts	19
3	The Problem Domain	21
3.1	Inside View: “The Museum Identity”	22
3.1.1	Inherent Domain Processes	23
3.1.2	Role of the Museum Professional	31
3.2	Outside View: “Visitor Integration”	33
3.2.1	Educational Role and Learning Environment	36
3.2.2	Technology and Bring Your Own Device	40
3.3	Challenges for Smaller Institutions	45
3.4	Summary: Internal Conflict and Challenges	51
4	Research Design and Goals	53
4.1	Problem Areas	54
4.2	Research Problems	59
4.3	Research Paradigm	62
5	Conceptual Foundation	69
5.1	Important Terms	71
5.1.1	Framework	71
5.1.2	Data and Content in the Context of Museums	75

5.1.3	Human-Centered Design	81
5.2	Breakdown and Integration of the ‘User’	87
5.2.1	Psychology in UX Design	89
5.2.2	‘Consumer’ Expectation and Content Selection	96
5.2.3	‘Creator’ Tasks and Data Entry	99
5.3	Setup for Design and Development	101
6	Framework Design	109
6.1	Domain-Driven Design	114
6.2	Fundamental Design Iterations	118
6.2.1	Text Selection	119
6.2.2	WYSIWYG Components	121
6.2.3	App Pages	123
6.2.4	Conceptual Core of the Framework	126
6.3	Detailed Framework Scope	130
6.4	Technological Scaffold	142
6.4.1	Architectural Concepts	143
6.4.2	The MV* Design Pattern	150
6.5	Engineering of the Framework Components	156
6.5.1	The Model	156
6.5.2	The View	167
6.5.3	The ViewModel	178
7	Prototype Development	189
7.1	Tasks and Roles in App Development	191
7.2	Web and App Technologies	194
7.3	Implementation of the Prototype	206
7.3.1	Tools and Services	209
7.3.2	App Structure, Workflow, and Interaction	212
7.3.3	Models and Data Structure	217
7.3.4	Views and Graphical User Interface	231
7.3.5	ViewModel and Data Transformation	250
8	Evaluation	267
8.1	Evaluation Episodes and Processes	276
8.2	Review of the Framework Concept	290
9	Conclusion	303
