

Contents

About the author — IX

1 Introduction and a brief history of plastic additives — 1

2 Overview of additives and the global additives market — 4

3 Additives to maintain properties of polymers — 9

- 3.1 Antioxidants — 9
- 3.2 UV/light stabilizers — 19
- 3.3 Heat stabilizers — 27
- 3.4 Metal deactivators — 32
- 3.5 Acid scavengers — 34
- 3.6 Antiozonants — 34
- 3.7 Recycling additives — 36

4 Additives to adjust mechanical properties of polymers — 40

- 4.1 Fillers — 40
- 4.2 Fibers — 42
- 4.3 Nucleating agents — 45
- 4.4 Plasticizers — 48
- 4.5 Impact modifiers — 51
- 4.6 Compatibilizers/coupling agents — 53
- 4.7 Dispersants — 55

5 Additives to adjust rheological properties of plastics — 57

- 5.1 Lubricants — 57
- 5.2 Processing aids — 58
- 5.3 Chain extenders — 60
- 5.4 Additives for controlled degradation of polymers — 63
- 5.5 Additives for branching/grafting/cross-linking — 65

6 Additives to extend plastic properties — 69

- 6.1 Flame retardants — 69
- 6.2 Pigments — 75
- 6.3 Optical brighteners — 78

7 Additives to adjust surface properties of polymers — 80

- 7.1 Hydrophobization/hydrophilization — **80**
- 7.2 Antifogging agents — **82**
- 7.3 Antiblock/slip agents — **83**
- 7.4 Antistatic agents — **84**
- 7.5 Matting and gloss agents — **85**
- 7.6 Antiscratch additives — **86**

8 Specialty additives — 88

- 8.1 Acetaldehyde scavengers — **88**
- 8.2 Formaldehyde scavengers — **89**
- 8.3 Odor scavenging and reduction of volatiles — **90**
- 8.4 Thermally conductive additives — **91**
- 8.5 Color-changing additives — **92**
- 8.6 Biocides/antimicrobials — **93**
- 8.7 Infrared-active additives — **94**
- 8.8 Adhesion promoters — **95**
- 8.9 Blowing/foaming/antifoaming agents — **95**
- 8.10 Animal repellents — **97**
- 8.11 Electrically conductive additives — **98**
- 8.12 Thixotropic agents — **99**
- 8.13 Oxygen scavengers — **99**
- 8.14 Smart food packaging additives (content protection) — **100**
- 8.15 Smart additives to enhance productivity of plants — **101**
- 8.16 Markers — **102**
