|---------------------------------------------------------------------------|-----|
| 1. Introduction . . . . .                                                 | 9   |
| 1.1 Living and laboring for scientific research . . . . .                 | 9   |
| 1.1.1 A women’s and gender history<br>of the Max Planck Society . . . . . | 10  |
| 1.1.2 Science as a way of life . . . . .                                  | 11  |
| 1.2 The book’s structure and key issues . . . . .                         | 15  |
| 1.2.1 State of research . . . . .                                         | 18  |
| 1.2.2 Sources . . . . .                                                   | 26  |
| 1.2.3 Language . . . . .                                                  | 29  |
| 2. In the front office: girls, machines, and methods . . . . .            | 31  |
| 2.1 Hierarchy in the front office . . . . .                               | 33  |
| 2.1.1 Gender hierarchies . . . . .                                        | 33  |
| 2.1.2 The typewriter—approaching a job title . . . . .                    | 36  |
| 2.2 Monotony, no glamour attached . . . . .                               | 40  |
| 2.2.1 The rise of office work . . . . .                                   | 40  |
| 2.2.2 Feminization and deprofessionalization . . . . .                    | 49  |
| 2.3 Programmed Inequality? When computers were still women . . . . .      | 57  |
| 2.3.1 Automation and digital revolution . . . . .                         | 57  |
| 2.3.2 “When Computers Were Women” . . . . .                               | 58  |
| 2.3.3 Gendering the Computer . . . . .                                    | 62  |
| 2.4 Doing Office . . . . .                                                | 67  |
| 2.4.1 Material practices in the front office . . . . .                    | 68  |
| 2.4.2 On resistance to monotony and dexterity . . . . .                   | 72  |
| 2.5 Imaginaries of the front office . . . . .                             | 76  |
| 2.5.1 Requirements . . . . .                                              | 77  |
| 2.5.2 In the shadow . . . . .                                             | 85  |
| 2.6 In the front office of the Max Planck Society . . . . .               | 94  |
| 2.6.1 In the front office . . . . .                                       | 94  |
| 2.6.2 In the President’s Office . . . . .                                 | 106 |
| 2.6.3 Job advertisements at the MPG . . . . .                             | 114 |
| 2.6.4 Follow the money . . . . .                                          | 130 |
| 2.6.5 Managing rather than supporting science . . . . .                   | 140 |

|        |                                                                                            |     |
|--------|--------------------------------------------------------------------------------------------|-----|
| 2.7    | Interim conclusion and a look at how things stand . . . . .                                | 142 |
| 2.7.1  | A family business . . . . .                                                                | 142 |
| 2.7.2  | “Third Space” . . . . .                                                                    | 143 |
| 2.7.3  | Metamorphosis . . . . .                                                                    | 146 |
| 3.     | From the “brotherhood of scholars” to the “sisterhood of science.”                         |     |
|        | Continuities and ruptures . . . . .                                                        | 149 |
| 3.1    | Introduction . . . . .                                                                     | 149 |
| 3.1.1  | Key issues and structure of the chapter . . . . .                                          | 149 |
| 3.1.2  | Intersectionality—criteria of exclusion and<br>influencing factors . . . . .               | 151 |
| 3.2    | Continuities and ruptures . . . . .                                                        | 159 |
| 3.2.1  | From restoration to transformation:<br>no scientific miracle for women academics . . . . . | 159 |
| 3.2.2  | Structure and hierarchy . . . . .                                                          | 167 |
| 3.3    | Scientific biography . . . . .                                                             | 175 |
| 3.3.1  | At the fraught interstices of factuality<br>and fictionality . . . . .                     | 175 |
| 3.3.2  | Amazons or Ornaments? . . . . .                                                            | 182 |
| 3.3.3  | Scientific Members of the Max Planck Society . . . . .                                     | 188 |
| 3.4    | Women Scientific Members of the MPG—<br>a biographical dossier . . . . .                   | 192 |
| 3.4.1  | Isolde Hausser, physicist . . . . .                                                        | 193 |
| 3.4.2  | Lise Meitner, physicist . . . . .                                                          | 200 |
| 3.4.3  | Elisabeth Schiemann, geneticist . . . . .                                                  | 209 |
| 3.4.4  | Anneliese Maier, historian of science . . . . .                                            | 220 |
| 3.4.5  | Anne-Marie Staub, biochemist . . . . .                                                     | 225 |
| 3.4.6  | Else Knake, physician and cell researcher . . . . .                                        | 229 |
| 3.4.7  | Birgit Vennesland, biochemist . . . . .                                                    | 243 |
| 3.4.8  | Margot Becke-Goehring, chemist . . . . .                                                   | 251 |
| 3.4.9  | Eleonore Trefftz, mathematician and physicist . . . . .                                    | 257 |
| 3.4.10 | Renate Mayntz, sociologist . . . . .                                                       | 263 |
| 3.4.11 | Christiane Nüsslein-Volhard,<br>biologist and biochemist . . . . .                         | 269 |
| 3.4.12 | Anne Cutler, psycholinguist . . . . .                                                      | 282 |
| 3.4.13 | Angela D. Friederici, neuropsychologist . . . . .                                          | 286 |
| 3.4.14 | Lorraine Daston, historian of science . . . . .                                            | 289 |
| 3.4.15 | Interview with Angela Friederici and<br>Lorraine Daston . . . . .                          | 292 |

|       |                                                                                       |     |
|-------|---------------------------------------------------------------------------------------|-----|
| 3.5   | From the “Brotherhood of Scholars”<br>to the “Sisterhood of Science”?                 | 294 |
| 3.5.1 | Opportunity missed:<br>The awarding of the Nobel Prize in 1945                        | 294 |
| 3.5.2 | The Harnack Principle in gender trouble                                               | 303 |
| 3.6   | Twilight of the gods?                                                                 | 323 |
| 3.6.1 | Epistemic hierarchies: gender, knowledge, and power                                   | 323 |
| 3.6.2 | “Sisterhood of Science”?                                                              | 327 |
| 3.6.3 | Ragnarök                                                                              | 335 |
| 4.    | Toward equal opportunities at the Max Planck Society.                                 |     |
|       | A bumpy start                                                                         | 337 |
| 4.1   | Introduction                                                                          | 337 |
| 4.2   | Social historical and science policy context                                          | 340 |
| 4.2.1 | Abandon all hope?                                                                     | 340 |
| 4.2.2 | The legal-historical background                                                       | 341 |
| 4.2.3 | Strategic-conceptual contextualization                                                | 344 |
| 4.2.4 | Socio-historical change                                                               | 347 |
| 4.2.5 | The science policy context of West German<br>gender equality policies                 | 348 |
| 4.2.6 | The impact on the Max Planck Society                                                  | 351 |
| 4.3   | Toward equal opportunities (1988–1998)                                                | 355 |
| 4.3.1 | The context of actor levels                                                           | 355 |
| 4.3.2 | Facts and figures: “The situation of women<br>at the MPG”                             | 358 |
| 4.3.3 | Taking stock: the General Works Council,<br>the Women’s Committee, and the Munz study | 364 |
| 4.3.4 | Evaluation                                                                            | 371 |
