

2705-0101

Medical Toxicology

Proceedings of the
1991 EUROTOX Congress
Meeting Held in Maastricht, September 1 – 4, 1991

Edited by the Publication Committee
H. M. Bolt, F. A. de Wolff and P. Th. Henderson

With 54 Figures and 29 Tables

Springer-Verlag
Berlin Heidelberg New York
London Paris Tokyo
Hongkong Barcelona
Budapest

Contents

Medical Toxicology

Medical Toxicology in Europe: Present and Future
D. KELLO 3

Medical Toxicology – Clinical Aspects
J. A. VALE 12

Research Aspects in Clinical Toxicology
D. JACOBSEN 20

Clinical Toxicology

Diagnosis in Clinical Toxicology
A. JAEGER, J. KOPFERSCHMITT, Ph. SAUDER, F. FLESCHE, and C. TOURNOUD 29

Haemoperfusion, Indications and Side-Effects
J. H. ROMMES 40

Accidental Poisoning with Hydrocarbon Products in Children during Six Months 1989
B. LUNDHOLM and C. KARLSON-STIBER 50

Clinical Neuropsychological Assessment of Patients Chronically Exposed to Organic Solvents
P. G. J. GANZEVLES, B. W. J. de GEUS 54

Risk Assessment

Risk Assessment – Scientific Aspects
A. D. DAYAN 61

Industrial Aspects of Risk Assessment
H. P. GELBKE 73

Risk Assessment – Governmental Aspects	
G. PASCAL	75

Communicating about Toxicological Risks	
R. M. MEERTENS, G. KOK, and T. B. LENDERINK	83

Chronic Toxicity

Health Risk Assessment of Long Term Exposure to Chemicals: Application to Cadmium and Manganese	
R. R. LAUWERYS, A. BERNARD, H. ROELS, J. P. BUCHET, A. CARDENAS, and J. Ph. GENNART	97

Animal Studies for Prediction of Chronic Toxicity	
G. H. PIGOTT	103

Toxicological Evaluation of Dimethomorph: Basis for Assessment of Risks from Dietary Exposure	
G. E. VEENSTRA and D. E. OWEN	113

Chronic Exposure to Vanadate as Factor of Arterial Hypertension in the Rat: Toxicodynamic Mechanisms	
M. CARMIGNANI, A. R. VOLPE, G. PORCELLI, P. BOSCOLO, and P. PREZIOSI	117

Organ Toxicity

Dermal Toxicology	
P. E. J. KULLING	123

Cycads, Designer Drugs, Free Radicals and Neurodegenerative Disease	
J. D. MITCHELL	130

Electrophysiological and Flow Cytometric Studies on Mechanism of Gentamicin Nephrotoxicity in cultured Renal Cells	
H. MCGLYNN, N. HEALY, and M. P. RYAN	140

Selective Cellular Toxicity After Exposure to 4-Ipomeanol, Bromobenzene (BrBz) and 4-(Methylnitrosamino)-1-(3-Pyridyl)-1-Butanone (NNK) in Rat Lungs	
R. BECHER, G. BRUNBORG, M. LAG, J. A. HOLME, E. J. SØDERLUND, E. DYBING, and P. E. SCHWARZE	144

Mechanisms of Toxicity and Disease

Decreased Hepatic Phosphoenolpyruvate Carboxikinase Gene Expression after 2,3,7,8-Tetrachlorodibenzo-p-dioxin Treatment: Implications for the Acute Toxicity of Chlorinated Dibenzo-p-dioxins in the Rat
B. U. STAHL, D. G. BEER, L. W. D. WEBER, M. LEBOSKY, and K. ROZMAN 151

Co-Cultures of Rat Hepatocytes in the Study of Valporate Toxicity
V. ROGIER, M. AKRAWI, Y. VANDENBERGHE, E. SHEPARD, I. PHILIP, and A. VERCUYSE 156

Selenium – Silver Interaction in Mice
V. EYBL, M. KOUTENSKÁ, J. KOUTENSKÝ, J. SÝKORA, R. BLÁHOVÁ, and V. SMOLIKOVÁ 160

Environmental Impact

Environmental Impact on Domestic and Wild Animals: Field Data from a Veterinary Anti-Poison Center
G. KECK 167

Blood Mercury and Serum Selenium Concentrations in Reindeer Herders in the Arctic Area of Northern Finland
P. V. LUOMA, S. NÄYHÄ, L. PYY, H. KORPELA, and J. HASSI 172

Toxicopathology: Natural and Induced Syndromes in Laboratory Animals

Natural Syndromes in Dogs
A. POSPISCHIL 179

Inducible Thyroid Lesions in the Rat with Special Reference to Mediation or Interactions with Other Organ Systems
C. GOPINATH 187

Mesulergine Induced Leydig Cell Tumours, a Syndrome Involving the Pituitary-Testicular Axis of the Rat
D. E. PRENTICE, R. A. SIEGEL, P. DONATSCH, S. QURESHI, and R. A. ETTLIN 197

Variations in Prevalence of Endocrine Tumors among Different Colonies of Rats?
A Retrospective Study in the Hannover Registry Data Base
G. MORAWIETZ, and S. RITTLINGHAUSEN 205

Modelling

Biologically Based Modelling in Toxicology Research M. E. ANDERSEN, K. KRISHNAN, R. B. CONOLLY, and R. O. MCCLELLAN	217
QSAR Studies in Genetic Toxicology: Congeneric and Non Congeneric Chemicals R. BENIGNI and A. GIULIANI	228
Quantitative and Qualitative Structure Activity Relationships in Developmental Toxicity J. E. RIDINGS	238
Multi-Compartment Model to Study the Effect of Air-Blood and Blood-Tissue Partition Coefficients on Concentration-Time-Effect Relationships A. ZWART, J. G. J. LOMMEN, and V. J. FERON	249
Concepts for Toxicokinetic-Toxicodynamic Modelling in Clinical Toxicology: Application to Acute Cardiac Glycoside Intoxications M. URTIZBEREA, A. SABOURAUD, F. BAUD, M. ROCHDI, M. DEBRAY, C. BISMUTH, and J. M. SCHERRMANN	253

Bioanalysis in Toxicology

Analytical Forensic Toxicology M. D. OSSELTON	259
Biological Effect Monitoring C. T. A. EVELO and P. Th. HENDERSON	268
Biological Monitoring of Exposure to Bitumen Fumes during Road Paving Operations S. BURGAZ, P. J. A. BORM, and F. J. JONGENELEN	278
Toxicological Investigations on Unusual Materials (Hair and Vitreous Humor): Interest and Limitations P. KINTZ, A. TRACQUI, and P. MANGIN	282

Young Scientists Poster Award

Ethylene Oxide: Metabolism in Human Blood and its Implication to Biological Monitoring M. LEUTBECHER, Th. LANGHOF, H. PETER, and U. FÖST	289
Subject Index	291
