

I Cardiovascular Consequences of Cerebral Damage

The Visceral Nervous System as a Link Between the Heart and the Brain: An Approach Employing Spectral Analysis of R–R and Systolic Arterial Pressure Variabilities
M. Pagani, P. Pizzinelli, D. Lucini, and A. Malliani 3

Electrocardiographic Changes Following Acute Ischemic or Hemorrhagic Stroke
S. Sen, T. Stober, W. Thönnies, and A. Heisel 13

Cardiac Arrhythmias Following Acute Brain Injuries
G. Di Pasquale, S. Urbinati, and G. Pinelli 19

Clinical Evidence of Myocardial Damage in Patients with Acute Subarachnoid Hemorrhage
M. Emdin, G. Di Pasquale, C. Boni, S. Urbinati, G. Buzzigoli, A.M. Lusa, G. Pinelli, and A. L'Abbate 31

Pathologic Evidence of Myocardial Damage Following Acute Brain Injuries
G. Baroldi 43

Prevention of Myocardial Damage Following Acute Brain Injuries by Beta-Blockade
J.M. Cruickshank 49

II Cardiogenic Cerebral Ischemia: Diagnostic and Therapeutic Aspects

Cardiogenic Focal Cerebral Ischemia in Patients Under 45 Years
C. Fieschi, M. Frontoni, F. Orzi, A. Carolei, and the CNR Study Group. 59

Diagnostic-Therapeutic Protocol of Syncope E. Piccolo, A. Raviele, and G. Gasparini	65
Cardioembolic Stroke: Prevalence, Diagnosis, and Treatment D.G. Sherman	73
Thromboembolism in Nonrheumatic Atrial Fibrillation: What Have We Learned? R.G. Hart	83
Usefulness of Transthoracic, Transesophageal, and Contrast Ecocardiography in Patients with Suspected Cardioembolic Stroke J.R.T.C. Roelandt, and M. Pozzoli	87
Two-Dimensional Echocardiography in Young Adults with Cerebral Ischemia: Emerging Issues S. Urbinati, G. Di Pasquale, A. Andreoli, and G. Pinelli	95
 III Cerebrovascular and Coronary Artery Disease	
<i>1 Risk Factors</i>	
Arterial Hypertension and Risk of Stroke and Myocardial Infarction E. Ambrosioni, and C. Borghi	111
Hyperlipidemia and Risk of Stroke M. Mancini, A. Postiglione, and L.A. Ferrara	117
 <i>2 Detection of Association</i>	
Noninvasive Investigation for the Detection of Asymptomatic Ischemic Heart Disease in Cerebrovascular Patients A.M. Lusa, S. Urbinati, G. Di Pasquale, and G. Pinelli	121
Multifocal Atherosclerotic Noninvasive Findings in Patients with Coronary Artery Disease E. Borgatti, A. De Fabritiis, G. Scondotto, A. Marzocchi, A. Amato, E. Conti, M. Filippini, C. Pili, and I. Emiliani	139
 <i>3 Medical Treatment</i>	
Pharmacological Approaches to the Regression of Atherosclerotic Lesions of the Carotid or Coronary Arteries W. Schneider	149

Antiplatelet Therapy and Prevention of Myocardial Ischemia	
E. Geraci.	159
Antiplatelet Therapy in Stroke Prevention	
V.C. Hachinski, R. Ivey and B. Ivey	165
Heparin in the Treatment of Cerebral and Myocardial Ischemia	
G.G. Neri Serneri, and P.A. Modesti	171
Thrombolytic Therapy in Acute Myocardial Infarction	
B. Magnani, G. Melandri, F. Semprini, G. Labanti, and D. Pantoli	187
Thrombolytic Treatment of Patients with Acute Ischemic Stroke	
T. Brott	193
Management of Acute Ischemic Stroke	
H. P. Adams	199
 <i>4 Surgical Treatment</i>	
Carotid Endarterectomy: Wider Indications or Better Selection?	
A. Andreoli, G. Lanzino, P. Limoni, E. Pozzati, and F. Tognetti	209
Surgical Strategy in Patients with Associated Carotid and Coronary Artery Lesions: Staged or Combined Operations?	
G. Marinelli, B. Turinetti, M. Cazzato, and A. Pierangeli.	221
