Hermann Kühn – In Memoriam By P.A. Hargrave and M. Chabre (With 4 Figures)	1
--	---

Plenary Lecture

The Eyes of Halobacteria By D. Oesterhelt	13
---	----

Part I Rhodopsin – Structure and Function

Mutagenesis Studies of Rhodopsin Phototransduction By T.P. Sakmar, R.R. Franke, and H.G. Khorana (With 5 Figures)	21
--	----

Structural Stability of Rhodopsin and Opsin Studied by Differential Scanning Calorimetry By J.H. McDowell, S.M.A. Khan, D.W. Bolen, M.M. Santoro, and P.A. Hargrave (With 2 Figures)	31
---	----

Molecular Analysis of Photoreceptor Protein Function By W.J. de Grip, J.J.M. Janssen, R.G. Foster, H.-W. Korf, K.J. Rothschild, E. Nevo, and G.L.J. de Caluwé (With 7 Figures)	42
--	----

Octopus Rhodopsin By N.G. Abdulaev, I.D. Artamonov, and D.V. Zubov (With 1 Figure)	60
---	----

Part II Transducin and Phosphodiesterase

The Activation of Transducin: Studies on its Mechanism and Modulation By K.P. Hofmann and M. Kahlert (With 10 Figures)	71
--	----

The Transitory Complexes Between Photoexcited Rhodopsin and Transducin. Biochemical and Spectroscopic Studies By F. Bornancin and C. Pfister (With 8 Figures)	103
The Rate of GTP Hydrolysis by Transducin and the Termination of the cGMP Cascade in Retinal Rods By T.M. Vuong, F. Pages, P. Deterre, and M. Chabre (With 5 Figures)	119
The Molecular Biology of the Rod Photoreceptor cGMP Phosphodiesterase α - and β -Subunits By W. Baehr and S.J. Pittler (With 7 Figures)	132
<hr/>	
Part III Deactivation Mechanisms	
The Phosphorylation of Rhodopsin By K. Palczewski and P.A. Hargrave	151
Mechanisms of β -Adrenergic Receptor Desensitization By M.J. Lohse	160
<hr/>	
Part IV The cGMP-gated Channel	
Gating Kinetics of the cGMP-Activated Conductance of Retinal Cones By K.-W. Yau and L.W. Haynes	175
Molecular Properties of the cGMP-gated Cation Channel of Rod Photoreceptor Cells as Probed with Monoclonal Antibodies By R.S. Molday, D.M. Reid, G. Connell, and L.L. Molday (With 7 Figures)	180
Cyclic Nucleotide-gated Channels – A Family of Proteins Involved in Vertebrate Photoreception and Olfaction By U.B. Kaupp, M. Vingron, W. Altenhofen, W. Bönigk, E. Eismann, and J. Ludwig (With 5 Figures)	195
<hr/>	
Part V Ca^{2+} Metabolism and Light Adaptation	
Interactions Between Calcium and cGMP in Dialyzed Detached Retinal Rod Outer Segments By G. Rispoli and P.B. Detwiler (With 5 Figures)	217

The Role of Cytoplasmic Calcium Concentration in Photoreceptor Light Adaptation By T.D. Lamb (With 8 Figures)	236
Photoreceptor Guanylate Cyclase and Its Regulation by Calcium By K.-W. Koch and H.-G. Lambrecht (With 5 Figures)	259
<hr/>	
Part VI Transduction in Invertebrates	
<hr/>	
Cyclic-GMP Phosphodiesterase in Photoreceptor Cells in <i>Limulus</i> Ventral Eye By M. Inoue, K. Ackermann, and J.E. Brown (With 2 Figures)	271
The Molecular Mechanism of Retinal Degeneration in the Retinal Degeneration B (rdgB) Mutant of <i>Drosophila</i> By B. Minke, C.T. Rubinstein, I. Sahly, S. Bar-Nachum, E. Suss, J. Kleiman, T. Byk, and Z. Selinger (With 6 Figures)	281
Glycosylation of Dipteron Opsins During Membrane Biogenesis By A. Huber and R. Paulsen (With 5 Figures)	299
Molecular Genetics of Visual Transduction in <i>Drosophila</i> By B.-H. Shieh and C.S. Zuker	308
Index of Contributors	315
Subject Index	317
