

Contents

Role of Free Radical Reactions in Liver Diseases J. FEHÉR, G. CSOMÓS, and A. VERECKEI	1
Oxidative Stress in Chemical Toxicity H. KAPPUS	13
Relationships Between Free Radical Reactions and the Function of the Cytochrome P-450 System V.E. KAGAN, L. PACKER, and E.A. SERBINOVA	21
Regulation Mechanisms of Xenobiotics Metabolizing Liver Cytochrome P-450 and Toxicological Implications H. REIN, O. RISTAU, J. BLANCK, and K. RUCKPAUL	29
Lipid Peroxidation and Hepatocyte Damage in the Animal Model and in Human Patients G. POLI, E. CHIARPOTTO, F. BIASI, E. ALBANO, O. DANNI, and M.U. DIANZANI	36
Calcium, Phospholipase A ₂ , and Eicosanoids in Toxicogenic Liver Cell Injury R.O. RECKNAGEL† and E.A. GLENDE JR.	43
Lipid Peroxidation and Associated Hepatic Organelle Dysfunction in Iron Overload B.R. BACON, R.S. BRITTON, and R. O'NEILL	63
Structural Principles of Flavonoid Antioxidants W. BORS, W. HELLER, C. MICHEL, and M. SARAN	77

Role of Free Radical Reactions in Experimental Hyperlipidemia in the Pathomechanism of Fatty Liver	
A. BLÁZOVICS, E. FEHÉR, and J. FEHÉR	96
 Free Radical Reactions in the Pathomechanism of Amiodarone Liver Toxicity	
A. VERECKEI, E. FEHÉR, A. BLÁZOVICS, J. GYÖRGI, H. TONCSER, and J. FEHÉR	124
