HPLC Methods on Drug Analysis

Springer-Verlag

Berlin Heidelberg New York

London Paris Tokyo

Hong Kong Barcelona Budapest

Contents

1	Preface	ix
2	Abbreviations	xi
3	List of the Described Drugs	xiii
4	Explanatory Notes	1
5	Drug Monographs	5
6	Conversion of Imperial and SI Unit Equivalents of other Units	570
7	Atomic Mass of the Elements	573
8	Miscibility of Solvents	576
9	Characteristics of the Solvents	578
10	Characteristics of the Common HPLC Separation Systems (columns)	580
11	Sorbent Selection Guides	584
