IMMUNOLOGY

Polyendocrine autoimmunity in thyroid disease (a preliminary report)

M. Gryczyńska, A. Baumann-Antczak, J. Kosowicz 1

The effect of anti-microsomal antibodies on thyroid peroxidase activity

E. Mezösi, S. Szücs, S. Sárközi, E. Fórizs,
J. Szabó 8

Antithyroid antibodies in the synovial fluid in thyroiditis

K. Zacka, M. Gembicki 18

Immunological and genetical aspects in T₃- predominant Graves' disease

Sabine Gerlach, H.F. Deckart, Eva Deckart,
Annemarie Blottner 23

Unexpected course in immunological pattern in Graves' Basedow's disease - Marine-Lenhart Syndrome?

H.F. Deckart, Eva Deckart, Annemarie Blottner,
E. Strehlau, G. Mühr 32

Comparative investigations of sonography and TRAK - follow up of Graves' disease

Angelika Wünsche, Dietlind Sorger, G. Neumann,
Susanne Schenk, L. Otto, G. Schneider 38

Guanyl nucleotide regulatory proteins and GTPase activity in normal and hyperthyroid human thyroid tissue and human polymorphonuclear granulocytes

E. Fórizs, A. Panyige, Zs. Jenei, T. Fülöp Jr.,
J. Szabó, E. Mezösi, I. Seres, A. Leövey 46

PERIPHERAL THYROID HORMONE METABOLISM

Peripheral thyroid hormone metabolism

H. Meinhold 54

Value of the estimation of peripheral serum T₃ and rT₃ for prognosis assessment in patients with liver cirrhosis - a prospective study	
Chr. Rink, U. Siersleben, J. Haerting, T. Mende, R. Nilius	73
Thyroid hormones and TSH in acute myocardial infarction	
J. Pechán, I. Vereš, J. Murín	83
Deiodination of thyroxine and reverse triiodo-thyronine in cells of human adipose tissue	
Ch.-F. Wolf, J. Wieberneit, L. Duntas, F.S. Keck	89
Comparison of natural killer activity with thyroid function in Graves' disease	
A. Sztankay, Gy. Bakó, E. Fórizs, E. Mezösi, A. Leövey	96
The influence of the calcium antagonist nitrendipine on thyroid hormone status in the baboon	
J. Wieberneit, F.S. Keck, U. Loos, Ch.-F. Wolf	101
Effect of thyroid hormones on lipoprotein (a) level in hypothyroidism	
S. Oravec	111
THYROIDITIS	
Thyrotoxicosis due to thyroiditis	
A. Leövey	118
Thyroiditis - a histopathological review	
H.G. Peschel	127
Clinical and cytological classification of lymphocytic thyroiditis	
Z. Limanová	134
The role of ultrasound investigation in the diagnosis and treatment of thyroiditis	
Z. Novák, V. Zamrazil, J. Němec, P. Vlček	142
Subacute thyroiditis de Quervain in male subjects	
P. Hnilica, J. Podoba, V. Štrbák, S. Nyulassy	145

Thyroid function in postpartum thyroiditis and its follow up

Nina Simova 152

Riedel's thyroiditis - positive therapeutic response to glucocorticoids

M. Ventz, G. Knappe, D. Ziegelitz 161

Management of chronic lymphocytic thyroiditis in children and adolescents

I. Hniková, J. Zikmund, M. Finková 165

Thyroiditis and thyroid hyperfunction

V. Zamrazil, J. Němec 172

Clinical and laboratory evaluations of patients with different types of thyroiditis

I. Sztojka, Zs. Karányi, A. Leövey 177

Hashimoto-thyroiditis with long-term negative auto-antibody determination: a case report

Marie-Luise Weiss, A. Blottner, H.F. Deckart 184

Combination of Hashimoto- and de Quervain thyroiditis

K.P. Schmidt, Eva Deckart, R. Pilz, E. Strehlau 193

Occurrence of goitre and diffuse lymphoid thyroiditis (DLT) in secondary school adolescents in Bratislava

J. Podoba, P. Hnilica, M. Srbecký 205

Spontaneous course of Graves' Basedow's disease into hypothyroidism (case report)

Eva Deckart 210

MEDULLARY CANCER

Epidemiology, clinical syndrome, follow up, and prognostic factors in medullary carcinoma

F. Raue 216

Neue Entwicklungen in der chirurgischen Therapie des Sipple-Syndroms: die Kompartiment-orientierte systematische Mikrodissektion der Lymphknoten beim medullären Schilddrüsenkarzinom

H. Dralle, I. Damm, G.F.W. Scheumann 228

Medullary cancer in histopathological view	
H.G. Peschel, T. Decker	241
Cytological view of medullary cancer	
Marie-Luise Weiss	246
Imaging techniques in detection and follow up of MTC	
H.F. Deckart, Katharina Djakowa, H. Marciniak, E. Strehlau, Marie-Luise Weiss	253
Positive scintigraphy in medullary thyroid cancer	
V. Holub, M. Neradilová, J. Němec, M. Benová, T. Blažek, P. Vlček	265
I-131-uptake in medullary thyroid carcinoma	
G. Riccabona, A. Stöger, D. Ladurner, K. Schmid	272
Our experiences with medullary carcinoma and MEN-syndrome	
H.F. Deckart, S. Birke, E. Deckart, Ch. Koloc, W. Lobers, R. Pilz, E. Strehlau, C. Wardius, M.L. Weiss	280
Possibilities and limitations of tumor-scintigraphy for follow up of medullary thyroid cancer	
Chr. Reiners	291
Thyroid cancer - differentiated and medullary: the aftercare system	
J. Němec, M. Neradilová, V. Zamrazil	302
Medullary carcinoma of the thyroid - own experience	
M. Neradilová, J. Němec, P. Vlček, V. Holub, J. Bednář, M. Soutorová	309
Prevalence of medullary thyroid cancer in the endemic goiter area	
Z. Szybiński, E. Mazurek	316
Family screening in medullary thyroid carcinoma (MTC)	
P. Groth, Ursula Zarmstorf, Irmtraud Stoll, R. Reincke	324

Results of therapy in patients with medullary carcinoma of thyroid gland

(Poster)

D. Gottschild, Gabriele Zinner, Carmen Luck,
N.M. Granzow

330

The place of ultrasonography in the evaluation of medullary thyroid cancer

P. Vlček, M. Neradilová, J. Němec, J. Bednář,
Z. Novák

333

Medullary thyroid carcinoma - results of some diagnostic procedures used at our institute

D. Bergant, M. Auersperg, M. Us-Krasovec,
F. Pompe, J. Petric, T. Movrin, Z. Zemva, N. Bešič

337

FREE PAPERS

Tumor markers in thyroid disease

J. Bednář, J. Němec, M. Neradilová, M. Soutorová

345

Effects of Propranolol enantiomers in hyperthyroidism (Poster)

B. Obermayer-Pietsch, C. Stiegler, H. Warnkroß,
G. Obermayer, S. Sager, W. Lindner, G. Leb

354

Thyroglobulin pattern in hyperthyroidism factitia (Case report)

Eva Deckart

355

Parameters of bone-metabolism in patients with hyperthyrosis (Poster)

P. Dietel, H.J. Heberling, D. Lohmann

360

PARATHYROID

Clinical experience in parathyroid carcinoma

G. Knappe, Helga Gerl, M. Ventz

362

Unusual course of primary hyperparathyroidism

R. Hehrmann

370

Long-term results operated hyperparathyroidism

U. Krause, Ch. Jeziorowski, Th. Olbricht

373

**Diagnostik problems of primary hyperparathyroidism
(pHPT) - own experiences**

H.J. Heberling, B. Bierwolf, P. Dietel,
E. Kuhlmann, D. Lohmann

380

**X-ray-morphologic and radiomorphometric results in
patients with primary hyperparathyroidism
(Poster)**

K.P. Schröder, P. Dietel, H.J. Heberling,
D. Lohmann
