

Contents

Basic Abbreviations and Symbols Used in the Book	ix
1 Introduction	1
2 Public Data Network Principles	11
2.1 Basic Terms	11
2.2 Data Transmission in PDNs	16
2.3 Data Transmission in the ISDN	20
3 Switching in Networks	23
3.1 Network Capacity Sharing	23
3.2 Circuit Switching	30
3.3 Packet Switching	34
3.4 Network Management	40
4 Network Architectures	43
4.1 Functions and Services	43
4.2 Methods of Some Functions	46
4.2.1 Error Control	47
4.2.2 Flow Control	50
4.2.3 Routing Control	52
4.2.4 Addressing	54
4.2.5 Exceptional State Recovery Control	56
4.3 Principles of the Layered Architecture	57
4.4 Layered Models of Networks	64
4.5 Physical Layer	74
4.5.1 General	74
4.5.2 Interfacing	76
4.5.3 Multiplexing	81
4.6 Link Layer	91
4.6.1 Development of Link Protocols	91
4.6.2 Character-Oriented ISO/BSC Protocols	92
4.6.3 Bit-Oriented HDLC Protocols	95
4.7 Network Layer	103
4.7.1 General Considerations	103
4.7.2 Circuit Switching Protocols	106
4.7.3 Packet Switching Protocols	110
4.8 Higher Layers	120

5	PDN Supported Services and Facilities	125
5.1	Basic Means and Basic Classification	125
5.2	Data Transmission Services	127
5.3	User Facilities	129
5.4	Support of Complete Telecommunication Services	134
5.5	Support of PDN-Type Services and Facilities by the ISDN	135
6	DTE Access to Public Services and Networks	137
6.1	Significance of Access Specifications	137
6.2	Access through PADs	138
6.3	Access Via TAs	144
6.4	Direct Access	144
6.5	Switched Access	145
6.6	Numbering Plans and Directory Services	146
7	Network Performance	149
7.1	Two Approaches to Network Performance Assessment	149
7.2	General Parameters	152
7.3	Tariff Policies	157
7.4	Network Security	165
8	Network Standards	173
8.1	The Importance of Standardization for PDNs	173
8.2	Worldwide Standardization Organizations	174
8.3	Regional Standardization Organizations	179
9	Trends in Networks and Services	183
Appendix 1.	Basic Terms	185
Appendix 2.	Network Identification Codes	191
Appendix 3.	CCITT Recommendations	195
Appendix 4.	ISO Standards	207
Appendix 5.	Abbreviations	217
References	231
Subject Index	235
