

Contents

Somatic Cell Gene Therapy <i>I. M. Verma, R. N. Naviaux and Y. Dai</i>	1
Delivery of Nerve Growth Factor Within the Rat Brain Using Genetically Modified Cells <i>M. D. Kawaja and F. H. Gage</i>	10
A Potential Approach to Gene Therapy of Cancer <i>Th. Friedmann</i>	20
Phenotypic Plasticity and Neural Grafting <i>P. H. Patterson</i>	28
The Sympathoadrenal Progenitor of the Neural Crest: Basic Biology and Therapeutic Potential <i>D. J. Anderson</i>	40
Lineage, Migration, and Phenotype in Avian Optic Tectum: Analysis with Recombinant Retroviral Vectors <i>J. R. Sanes, D. S. Galileo, I. R. Ghattas, G. E. Gray and J. E. Majors</i>	59
Immortal Mammalian Neuronal Stem Cells Differentiate after Implantation into the Developing Brain <i>R. D. G. McKay</i>	76
Establishment of Clonal Cell Lines for the Study of Neural Function and Dysfunction <i>B. H. Wainer, D. N. Hammond, H. J. Lee, J. D. Roback, H. K. Choi, L. Won and A. Heller</i>	86
Resistance of SOD-Transgenic Mice to Oxidative Stress <i>C. J. Epstein, P. H. Chan, J. L. Cadet, E. Carlson, S. Chen, L. Chu, S. Fahn, V. Jackson-Lewis, H. Kinouchi, V. Kostic, K. Kujirai, T. Mizui, A. Naini, S. Przedborski and G. Yang</i>	106

Gene Transfer into the Nervous System using Recombinant Herpes Virus Vectors <i>X. O. Breakefield, Q. Huang, J. K. Andersen, M. F. Kramer, W. R. Bebrin, G. Davar, B. Vos, D. A. Garber, M. DiFiglia and D. M. Coen</i>	118
Development of Herpes Simplex Virus as a Gene Transfer Vector for the Central Nervous System <i>J. C. Glorioso, L. R. Sternberg, W. F. Groins and D. J. Fink</i>	133
Dystrophin mRNA Processing in the Canine Homologue of Duchenne Muscular Dystrophy: An Authentic Model for Gene Therapy <i>N. J. H. Sharp, J. N. Kornegay, S. D. van Camp, M. H. Herbstreith, S. L. Secore, S. Kettle, M. J. Dykstra, C. D. Constantinou, A. D. Roses, and R. J. Bartlett</i>	146
Gene Transfer of a Murine Dystrophin Minigene Construct <i>P. R. Clemens, C. C. Lee, and C. T. Caskey</i>	158
Gene Therapy in Animal Models of Neurological Disorders <i>J. Mallet, P. Horellou, C. Lundberg, P. Brundin, P. Kalen, P. Colin, and A. Björklund</i>	167
Neurotrophins and their Receptors <i>H. Persson, P. Ernfors, C. F. Ibanez, F. Hallböök, W. J. Friedman, J.-P. Merlio, O. Lindvall, J. Bengzon, N. Lindefors, T. Ebendal, and L. Olson</i>	180
Regulation of the Human Neurofilament Light and Heavy Genes in Transgenic Mice <i>G. Charron, L. Beaudet, F. Côté, D. Houle, and J.-P. Julien</i>	201
Subject Index	209
