

CONTENTS

Preface	v
List of Contributors	xi
Introduction	1
Section I: Background	
1. Physiography and Forest Types R. K. Olson	7
2. Climate M. R. Rose, M. Böhm, and R. K. Olson	41
3. Air Quality and Deposition M. Böhm	63
4. Sensitivity of Forest Soils in the Western U.S. to Acidic Deposition D. Binkley	153
5. Physiological Effects of Air Pollutants on Western Trees A. Bytnerowicz and N. E. Grulke	183
6. Pollution Impacts at the Stand and Ecosystem Levels D. Binkley, T. D. Droessler, and J. Miller	235
7. Methods of Assessing Responses of Trees, Stands and Ecosystems to Air Pollution K. W. Stolte, D. M. Duriscoe, E. R. Cook, and S. P. Cline	259

Section II: Regional Studies of Forest Growth and Condition

- | | |
|--|------------|
| 8. Old-Growth Douglas-Fir in Western Washington | 333 |
| L. B. Brubaker, S. Vega-Gonzalez, E. D. Ford,
C. A. Ribic, C. J. Earle, and G. Segura | |
| 9. Coniferous Forests of the Colorado Front Range | 365 |
| Part A: Mixed Species In Unmanaged Old-Growth Stands | 370 |
| D. A. Graybill | |
| Part B: Ponderosa Pine Second-Growth Stands | 385 |
| D. L. Peterson and M. J. Arbaugh | |
| 10. Coniferous Forests of Arizona and New Mexico | 403 |
| D. A. Graybill and M. R. Rose | |
| 11. Mixed Conifer Forests of the Sierra Nevada | 433 |
| D. L. Peterson and M. J. Arbaugh | |
| 12. Mixed Conifer Forests of the San Bernardino
Mountains, California | 461 |
| P. R. Miller | |

Section III: Summary and Projections

- | | |
|--|------------|
| 13. Summary, Projections, and Recommendations | 501 |
| R. K. Olson, D. L. Peterson, and M. Böhm | |

- | | |
|--------------|------------|
| Index | 523 |
|--------------|------------|

- | | |
|--|-------------------|
| Appendix I: Map of Western Forest Types | map pocket |
|--|-------------------|
