

Contents

| | |
|---|------------|
| Preface | v |
| Acknowledgments | vii |
| Contributors | xi |
| Section I. Characterization of the Condition of Eastern U.S. Spruce-Fir Forests | |
| 1. Spruce-Fir Forests of Eastern North America | 3 |
| Peter S. White and Charles V. Cogbill | |
| 2. Characterization of Eastern U.S. Spruce-Fir Soils | 40 |
| Ivan J. Fernandez | |
| 3. Atmospheric Deposition and Pollutant Exposure of Eastern U.S. Forests | 64 |
| Volker A. Mohnen | |
| 4. Condition and Recent Trends in High-Elevation Red Spruce Populations | 125 |
| David R. Peart, N.S. Nicholas, Shephard M. Zedaker, Margaret M. Miller-Weeks, and Thomas G. Siccama | |
| 5. The Dendroecology of Red Spruce Decline | 192 |
| Edward R. Cook and Shephard M. Zedaker | |

Section II. Air Pollution and Atmospheric Deposition Effects on Red Spruce: Evaluation of Mechanisms

- | | |
|---|-----|
| 6. Soil Mediated Effects of Atmospheric Deposition on Eastern U.S. Spruce-Fir Forests | 235 |
| Dale W. Johnson and Ivan J. Fernandez | |
| 7. Atmospheric Deposition Effects on Foliar Injury and Foliar Leaching in Red Spruce | 271 |
| George A. Schier and Keith F. Jensen | |
| 8. Winter Injury and Developmental Cold Tolerance of Red Spruce | 295 |
| Donald H. DeHayes | |
| 9. The Effects of Atmospheric Deposition and Ozone on Carbon Allocation and Associated Physiological Processes in Red Spruce | 338 |
| Samuel B. McLaughlin and Robert J. Kohut | |

Section III. Why are Red Spruce Declining at High Elevations? A Synthesis of Epidemiological and Mechanistic Studies

- | | |
|---|-----|
| 10. Synthesis and Conclusions from Epidemiological and Mechanistic Studies of Red Spruce Decline | 385 |
| A.H. Johnson, S.B. McLaughlin, M.B. Adams, E.R. Cook, D.H. DeHayes, C. Eagar, I.J. Fernandez, D.W. Johnson, R.J. Kohut, V.A. Mohnen, N.S. Nicholas, D.R. Peart, G.A. Schier, and P.S. White | |
