

Contents

Theoretical Foundations

On Recursive Free Types in Z <i>A. Smith</i>	3
On Free Type Definitions in Z <i>R.D. Arthan</i>	40
Z and Hoare Logics <i>A. Diller</i>	59
$\mathcal{W}$: A Logic for Z <i>J.C.P. Woodcock and S.M. Brien</i>	77

Scope of Use

The Use of Z <i>R. Barden, S. Stepney and D. Cooper</i>	99
Extending the Useful Application Domain for Formal Methods <i>P.A. Swatman, D. Fowler and C.Y.M. Gan</i>	125
Domains of Application for Formal Methods <i>J.E. Nicholls</i>	145
Z--, an Executable Subset of Z <i>S.H. Valentine</i>	157

Special Applications

Engineering Human-Error Tolerant Software <i>M. Harrison, Invited Speaker</i>	191
Techniques for Partial Specification and Specification of Switching Systems <i>P. Zave and M. Jackson</i> <i>Presented by M. Jackson, Invited Speaker</i>	205

Tools

Z and Eves
M. Saaltink, Invited Speaker 223

zedB: A Proof Tool for Z Built on B
D. Neilson and D. Prasad 243

Structured Methods and Object-Oriented Approaches

A Method for the Specification of Relational Database Applications
R.S.M. de Barros and D.J. Harper 261

Structured Analysis – A Draft Method for Writing Z Specifications
F. Polack, M. Whiston and P. Hitchcock 287

Enhancing the Structure of Z Specifications
D. Duke 329

ZOOM Workshop Report
D. Carrington 352

Bibliography etc

Select Z Bibliography and Frequently Asked Questions
J. Bowen 367
