Preface	v
Participants	ix
 SECTION I: MENSTRUATION	
1 Synthesis and Metabolism of Uterine Prostaglandins	
<i>R. W. Kelly, L. Cheng, J. Thong, E. L. Yong and D. T. Baird</i>	3
2 Prostaglandins and Menstruation	
<i>I. T. Cameron</i>	17
Discussion	28
3 Prostanoids and Menorrhagia	
<i>C. M. P. Rees</i>	33
4 Prostaglandins in Dysmenorrhoea and Endometriosis	
<i>M. A. Lumsden</i>	45
Discussion	60
5 Treatment of Menorrhagia	
<i>I. S. Fraser</i>	67
Discussion	83
 SECTION II: EARLY PREGNANCY	
6 Prostaglandins and Implantation	
<i>S. K. Smith</i>	91

7 Menstrual Induction	
<i>J. E. Norman</i>	101
Discussion	114
8 Prostaglandins and Midtrimester Abortion	
<i>I. Z. MacKenzie</i>	119
9 Cervical Softening in Early Pregnancy	
<i>A. Rådestad</i>	135
Discussion	144

SECTION III: PARTURITION

10 A Pathway for the Regulation of Prostaglandins and Parturition	
<i>D. M. Olson, T. Zakar, Z. Smieja, E. A. MacLeod and S. L. Brown</i>	149
11 Myometrial Function	
<i>P. W. N. Nathanielsz and M. B. O. M. Honnebier</i>	161
Discussion	176
12 Prostaglandins for Induction of Labour	
<i>P. Husslein</i>	181
13 Cervical Ripening	
<i>I. A. Greer</i>	191
Discussion	205

SECTION IV: PRETERM LABOUR

14 Cellular Endocrinology	
<i>A. López Bernal and S. P. Watson</i>	213
15 Infection and Preterm Labour	
<i>M. G. Elder</i>	237
Discussion	252
16 Prevention of Preterm Labour	
<i>J.-J. Amy and H. Cammu</i>	257
17 Inhibitors of Prostaglandin Synthesis for Treatment of Preterm Labour	
<i>M. J. N. C. Keirse</i>	277
Discussion	293
Subject Index	297
