

TABLE OF CONTENTS

<i>Preface</i>	<i>IX</i>
<i>Acknowledgements</i>	<i>XI</i>
<i>List of Contributors</i>	<i>XIII</i>

Part 1. Structure, Immunology, Metabolism and Genetics of Polysialic Acid

Conformations of group B and C polysaccharides of <i>Neisseria meningitidis</i> and their epitope expression <i>R. Yamasaki</i>	<i>1</i>
Influence of bacterial polysialic capsules on host defense: Masquerade and mimikry <i>D. Bitter-Suermann</i>	<i>11</i>
Polysialic acid vaccines against meningitis caused by <i>Neisseria meningitidis</i> and <i>Escherichia coli</i> <i>H. J. Jennings, J.-R. Brisson, M. Kulakowska and F. Michon</i>	<i>25</i>
Detection of antibodies to <i>Neisseria meningitidis</i> group B capsular polysaccharides by a liquid-phase elisa <i>J. Diaz-Romero and I. M. Outschoorn</i>	<i>39</i>
Molecular mechanisms of capsule expression in <i>Neisseria meningitidis</i> serogroup B <i>M. Frosch and U. Edwards</i>	<i>49</i>
Genetic and molecular analyses of the polysialic acid gene cluster of <i>Escherichia coli</i> K1 <i>R. P. Silver, P. Annunziato, M. S. Pavelka, R. P. Pigeon, L. F. Wright and D. E. Wunder</i>	<i>59</i>
Mechanisms of polysialic acid assembly in <i>Escherichia coli</i> K1: A paradigm for microbes and mammals <i>E. R. Vimr and S. M. Steenbergen</i>	<i>73</i>
Polysialic acid capsule synthesis and chain translocation in neuroinvasive <i>Escherichia coli</i> K1: "Activated" intermediates and a possible functional role for undecaprenol <i>F. A. Troy, II, J.-W. Cho and J. Ye</i>	<i>93</i>
The export of capsular polysaccharides by <i>Escherichia coli</i> <i>C. Pazzani, A. Smith, K. Jann, G. J. Boulnois and I. S. Roberts</i>	<i>113</i>
Structure and function of enzymes in sialic acid metabolism in polysialic acid producing bacteria <i>W. F. Vann, G. Zapata, I. S. Roberts, G. J. Boulnois and R. P. Silver</i>	<i>125</i>

Characterization of bacteriophage E endo-sialidase specific for alpha-2,8-linked polysialic acid <i>G. S. Long, P. W. Taylor and J. P. Luzio</i>	137
Affinity labeling reagents for the characterization and analysis of sialidases and sialic acid metabolic processes <i>T. G. Warner</i>	145
Studies of the O-acetylation and (in)stability of polysialic acid <i>A. Varki and H. Higa</i>	165
Glycobiology of fish egg polysialoglycoproteins (PSGP) and deaminated neu-raminic acid-rich glycoproteins (KDN-gp) <i>Y. Inoue</i>	171
Analytical methods for identifying and quantitating poly(α 2-8Sia) structures containing Neu5Ac, Neu5Gc, and KDN <i>S. Inoue, M. Iwasaki, K. Kitajima, A. Kanamori, S. Kitazume and Y. Inoue</i>	183
CMP-3-deoxynonulosonate synthase which catalyzes the transfer of CMP to KDN from CTP <i>T. Terada, S. Kitazume, K. Kitajima, S. Inoue, F. Ito, F. A. Troy II and Y. Inoue</i>	191
Structural and biosynthetic aspects of <i>N</i> -glycolyl-8- <i>O</i> -methylneuraminic – acid – oligomers, linked through their <i>N</i> -glycolyl groups, isolated from the starfish <i>Asterias rubens</i> <i>A. A. Bergwerff, S. H. D. Hulleman, J. P. Kamerling, J. F. G. Vliegenhart, L. Shaw, G. Reuter and R. Schauer</i>	201

Part 2. Developmental and Cell Biology, Diseased States and Tumors

Regulation of cell-cell interactions by NCAM and its polysialic acid moiety <i>U. Rutishauser</i>	215
The effects of <i>in-vivo</i> alteration of polysialic acid on avian nerve-muscle development <i>L. Landmesser</i>	229
Polysialic acid as a specific and positive modulator of NCAM dependent axonal growth <i>P. Doherty and F. S. Walsh</i>	241
Internalization and neurotrophic activity of an homeobox peptide <i>A. Joliot, I. LeRoux, M. Volovitch, E. Bloch-Gallego and A. Prochaintz</i>	257
Expression patterns of polysialic acid during vertebrate organogenesis <i>P. M. Lackie, C. Zuber and J. Roth</i>	263
Developmental expression of gangliosides <i>in vivo</i> and <i>in vitro</i> <i>H. Rösner</i>	279

Polysialic acid in adult rat brain: Its presence on the neural cell adhesion molecule and Na ⁺ channels <i>C. Zuber, P. M. Lackie and J. Roth</i>	299
Regulation of NCAM polysialylation state during information processing in the adult rodent <i>C. M. Regan</i>	313
Is PSA-NCAM a marker for cell plasticity? <i>G. Rougon, S. Olive and D. Figarella-Branger</i>	323
Expression of polysialic acid in human tumors and its significance for tumor growth <i>J. Roth, C. Zuber, E. P. Scheidegger, P. Komminoth, M. J. Warhol, D. Bitter-Suermann and P. U. Heitz</i>	335
Index	349
