Preface M.-L. Chanin

Basic Processes in the Stratosphere

The Stratosphere: An Introduction	G. P. Brasseur, A. K. Smith, C. F. Granier	1
Tropospheric Forcing of the Middle Atmosphere	M. A. Geller	29
Processes associated with Stratospheric Ozone Decrease: Homogeneous Chemistry	E. E. Ferguson	47
Heterogeneous Chemistry of Polar Stratospheric Clouds and Volcanic Aerosols	R. P. Turco, K. Drdla, A. Tabazadeh, P. Hamill	65
Mixing Processes in the Extra Tropical Stratosphere	M.R. Schoeberl, J. T. Bacmeister	135
The Methane Atmospheric Cycle	I. L. Karol	153

Modelling of the Troposphere - Stratosphere System

Three Dimensional Transport-Chemistry studies of the Stratosphere using Satellite Data together with Data Assimilation	M. A. Geller, Y. Chi, R. B. Rood, A. R. Douglass, D. J. Allen, M. Cerniglia, J. W. Waters	179
The Stratosphere in General Circulation Models	B. A. Boville	199
The role of Radiation in the Stratosphere and its Representation in Models	S. Pawson	215
Influence of the Stratospheric Circulation Change on the Troposphere in the Northern Hemisphere Winter	K. Kodera	227

Natural and Anthropogenic forcing of the Middle Atmosphere: Detection of Trends

Troposphere-Stratosphere coupling in the Tropics: the Role of El Nino and the QBO	G. C. Reid, K. S. Gage	245
--	------------------------	-----

Some Influences responsible for the Interannual Variations in the Stratosphere of the Northern Hemisphere	K. Labitzke, H. van Loon	267
The Greenhouse Effect and Stratospheric change	K. P. Shine	285
Long term Trend in the Middle Atmosphere Temperature	M.-L. Chanin	301
Monitoring Stratospheric Ozone from Space	R. S. Stolarski	319
Monitoring of Stratospheric Changes at the Jungfraujoch Station by HR-IR Solar Observations in support of the NDSC	R. Zander, E. Mahieu, Ph. Demoulin	347

Recent Observational Results

Preliminary Results of the European Arctic Campaign	J.-P. Pommereau	365
Major Results from SAGE II	L. R. Poole, M. P. McCormick	377
An overview of the Relevant Results from the ATMOS Missions of 1985 and 1992	M. R. Gunson, R. Zander	387

Monitoring and Modeling of UV changes in the Troposphere and at the Surface.

Atmospheric Changes and UV-B Monitoring	P. C. Simon	403
Modeling of UV Penetration through the Atmosphere and Ocean	K. Stamnes	425
Tropospheric Photochemistry and its Response to UV Changes	S. Madronich	437
Trends in Surface UV Radiation	S. Madronich	463

Biospheric Effects and Feedbacks resulting from Solar UV-B changes

Implications of increased Solar UVB for Aquatic Ecosystems.	R. C. Smith	473
Implications of increased Solar UVB for Terrestrial Vegetation.	M. M. Caldwell, S. D. Flint	495
Implications of increased Solar UVB for Cancer Incidence	B. K. Armstrong	517
Ultraviolet-Induced immune suppression and its relationship to stratospheric ozone depletion	E. C. De Fabo, F. P. Noonan	541
