

TABLE OF CONTENTS

Preface	v
Introduction: Historical Remarks	1
Jin Yoshimura and Colin W. Clark	
Fitness in Random Environments	8
Dan Cohen	
Density Dependent Life History Evolution in Fluctuating Environments	26
Éva Kisdi and Géza Meszéna	
Life History Evolution and Population Dynamics in Variable Environments: Some Insights from Stochastic Demography	63
Steven Hecht Orzack	
Plasticity in Fluctuating Environments	105
Jesús Alberto León	
Optimization and ESS Analysis for Populations in Stochastic Environments	122
Colin W. Clark and Jin Yoshimura	
Are Variable Environments Stochastic? A Review of Methods to Quantify Environmental Predictability	132
Steven R. Beissinger and James P. Gibbs	
Modeling Selection on Conditional Strategies in Stochastic Environments	147
Wade N. Hazel and Richard Smock	
Coexistence in Stochastic Environments Through a Life History Trade Off in <i>Drosophila</i>	155
Jan G. Sevenster and Jacques J.M. van Alphen	
The Equilibrium Distribution of Optimal Search and Sampling Effort of Foraging Animals in Patchy Environments	173
Dan Cohen	
List of Contributors	192
