

Contents

<i>Preface</i>	<i>IX</i>
<i>Contributors</i>	<i>XI</i>
Taxonomy and phylogeny of the <i>Glomales</i> <i>S. Rosendahl, J. C. Dodd and C. Walker</i>	<i>1</i>
Biodiversity and characterization of arbuscular mycorrhizal fungi at the molecular level <i>D. van Tuinen, H. Dulieu, A. Zézé and V. Gianinazzi-Pearson</i>	<i>13</i>
Characterization of arbuscular mycorrhizal fungi by immunochemical methods <i>A. Hahn, V. Gianinazzi-Pearson and B. Hock</i>	<i>25</i>
European Bank of <i>Glomales</i> – An essential tool for efficient international and interdisciplinary collaboration <i>J. C. Dodd, V. Gianinazzi-Pearson, S. Rosendahl and C. Walker</i>	<i>41</i>
Physiological characteristics of the host plant promoting an undisturbed functioning of the mycorrhizal symbiosis <i>C. Azcón-Aguilar and B. Bago</i>	<i>47</i>
Recognition and infection process, basis for host specificity of arbuscular mycorrhizal fungi <i>M. Giovannetti, C. Sbrana, A. S. Citerinesi, L. Avio, A. Gollotte, V. Gianinazzi-Pearson and S. Gianinazzi</i>	<i>61</i>
Ultrastructural analysis reveals the complex interactions between root cells and arbuscular mycorrhizal fungi <i>P. Bonfante</i>	<i>73</i>
Impact of mycorrhizal colonisation on root architecture, root longevity and the formation of growth regulators <i>D. Atkinson, G. Berta and J. E. Hooker</i>	<i>89</i>
Biogeochemical cycling and arbuscular mycorrhizas in the sustainability of plant-soil systems <i>P. Jeffries and J. M. Barea</i>	<i>101</i>
Arbuscular mycorrhizas and agrosystem stability <i>G. J. Bethlenfalvay and H. Schüepp</i>	<i>117</i>
Hyphal phosphorus transport, a keystone to mycorrhizal enhancement of plant growth <i>I. Jakobsen, E. J. Jøner and J. Larsen</i>	<i>133</i>
Approaches to the study of the extraradical mycelium of arbuscular mycorrhizal fungi <i>J. C. Dodd</i>	<i>147</i>

Water relations and alleviation of drought stress in mycorrhizal plants <i>M. Sánchez-Díaz and M. Honrubia</i>	167
Impact of arbuscular mycorrhizal fungi on plant uptake of heavy metals and radionuclides from soil <i>K. Haselwandter, C. Leyval and F. E. Sanders</i>	179
Biocontrol of plant pathogens using arbuscular mycorrhizal fungi <i>J. E. Hooker, M. Jaizme-Vega and D. Atkinson</i>	191
Management of positive interactions of arbuscular mycorrhizal fungi with essential groups of soil microorganisms <i>G. Puppi, R. Azcón and G. Höflich</i>	201
Micropropagated plants, an opportunity to positively manage mycorrhizal activities <i>M. Vestberg and V. Estain</i>	217
