

Ullmann's Encyclopedia of Industrial Chemistry

Fifth, Completely Revised Edition

Volume A 25:

Starch and Other Polysaccharides to Surfactants

Editors: Barbara Elvers, Stephen Hawkins,
William Russey

Contents

Starch and Other Polysaccharides	1	Sulfites, Thiosulfates, and Dithionites ...	477
Steel	63	Sulfones and Sulfoxides	487
Steroids	309	Sulfonic Acids, Aliphatic	503
Strontium and Strontium Compounds ..	321	Sulfur	507
Styrene	329	Sulfur Dioxide	569
Sugar	345	Sulfur Dyes	613
Sugar Alcohols	413	Sulfur Halides	623
Sulfamic Acid	439	Sulfuric Acid and Sulfur Trioxide	635
Sulfides, Polysulfides, and Sulfanes	443	Superconductors	705
Sulfinic Acids and Derivatives	461	Surfactants	747

Cross References

- Starch Syrups → Glucose and Glucose-Containing Syrups
 Stearic Acid → Fatty Acids
 Stearyl Alcohol → Fatty Alcohols
 Stilbene Dyes → Optical Brighteners
 Stimulants → Psychopharmacological Agents
 Stirring → 25. Stirring, **B2**
 Stoneware → Construction Ceramics; → Whitewares
 Styrene Copolymers → Polystyrene and Styrene Copolymers
 Styrene Polymers → Polystyrene and Styrene Copolymers
 Styrene-Butadiene Rubber → Rubber, 3. Synthetic
 Suberic Acid → Dicarboxylic Acids, Aliphatic
 Sublimation → 5. Sublimation, **B3**
 Substitute Natural Gas → Gas Production
 Succinic Acid → Dicarboxylic Acids, Aliphatic
 Sulfation → Sulfonic Acids, Aliphatic
 Sulfochlorination → Sulfonic Acids, Aliphatic; → Surfactants
 Sulfolane → Sulfones and Sulfoxides
 Sulfonamides → Chemotherapeutics
 Sulfonation → Sulfonic Acids, Aliphatic
 Sulfoxidation → Sulfonic Acids, Aliphatic
 Sulfoxides → Sulfones and Sulfoxides
 Sulfur-Containing Polymers → Polymers, Electrically Conducting; → Polymers, High-Temperature; → Sealing Materials
 Sulfur Hexafluoride → Fluorine Compounds, Inorganic
 Sulfur Tetrafluoride → Fluorine Compounds, Inorganic
 Sulfur Trioxide → Sulfuric Acid and Sulfur Trioxide
 Sulfuryl Chloride → Sulfur Halides
 Sunflower Oil → Fats and Fatty Oils
 Sunscreens → Skin Cosmetics
 Suntan Preparations → Skin Cosmetics
 Superalloys → Cobalt and Cobalt Compounds; → High-Temperature Materials; → Nickel Alloys
 Supercritical Extraction → 7. Liquid-Solid Extraction, **B3**
 Superoxides → Peroxo Compounds, Inorganic
 Superphosphate → Phosphate Fertilizers
 Supraconductors → Superconductors
