Part I Foundation

1	Introduction	3
1.1	Motivation and Definitions	4
1.2	Business Process Lifecycle	11
1.3	Classifying Business Processes	17
1.4	Structure and Organization	21
2	Evolution of Enterprise Systems Architectures	25
2.1	Traditional Application Development	26
2.2	Enterprise Applications and their Integration	28
2.3	Enterprise Modelling and Process Orientation	39
2.4	Workflow Management	49
2.5	Robotic Process Automation	57
2.6	Enterprise Services Computing	60
2.7	Summary	68
	Bibliographical Notes	71

Part II Business Process Modelling

3	Business Process Modelling Foundation	77
3.1	Conceptual Model and Terminology	77
3.2	Abstraction Concepts	79
3.3	From Business Functions to Business Processes	82
3.4	Models and Instances	87
3.5	Interacting Business Processes	100
3.6	Further Modelling Dimensions	102
3.7	Business Process Flexibility	115
3.8	Architecture of Process Execution Environments	123
	Bibliographical Notes	127

4	Process Modelling Languages	129
4.1	Control Flow Patterns	130
4.2	Petri Nets	153
4.3	Event-driven Process Chains	163
4.4	Workflow Nets	173
4.5	Yet Another Workflow Language	186
4.6	Graph-Based Process Modelling Language	204
4.7	Business Process Model and Notation	210
4.8	Directly Follows Graphs	242
4.9	Declarative Process Modelling	259
	Bibliographical Notes	264
5	Data and Decisions	267
5.1	Data in Business Processes	267
5.2	Decisions in Business Processes	277
5.3	Decision Tables	285
5.4	Hit Policies	288
	Bibliographical Notes	292
6	Process Choreographies	295
6.1	Motivation and Terminology	296
6.2	Development Phases	299
6.3	Process Choreography Design	301
6.4	Process Choreography Implementation	312
6.5	Service Interaction Patterns	319
6.6	Let's Dance	327
6.7	Choreography Modelling in BPMN	331
	Bibliographical Notes	341
7	Properties of Business Processes	343
7.1	Data Dependencies	344
7.2	Object Lifecycle Conformance	346
7.3	Structural Soundness	349
7.4	Soundness	350
7.5	Relaxed Soundness	358
7.6	Further Soundness Criteria	363
7.7	Decision Soundness	378
	Bibliographical Notes	383

Part III Architectures and Methodologies

8	Business Process Management Architectures	387
8.1	Workflow Management Architectures.....	387
8.2	Web Services and their Composition	392
8.3	Advanced Service Composition	401
8.4	Data-Driven Processes: Case Handling	410
	Bibliographical Notes	418
9	Business Process Management Methodology	421
9.1	Dependencies between Processes.....	421
9.2	Methodology Overview	424
9.3	Phases in Detail	426
	Bibliographical Notes	435
	References	437
	Index	451
