

1	Introduction	1
1.1	Carbon Neutrality	1
1.2	Climate Discourse	3
1.3	Global Emissions	4
1.4	Purpose of the Research	6
1.5	Structure of the Dissertation	7
2	Business Case Description	9
2.1	Industry Sectors	10
2.2	Economic Review	12
2.3	Political Environment	13
2.4	Greenhouse Gas Emissions	14
2.5	Emission Sources	16
2.5.1	Process Emissions	16
2.5.2	Carbon Dioxide	18
2.5.3	Methane	19
2.5.4	Nitrous Oxide	19
2.5.5	Fluorinated Gases	19
2.6	Mitigation Strategies	20
2.6.1	Efficiency Gains	21
2.6.2	Phasedown	22
2.6.3	Renewable Energy	23
2.6.4	Reuse and Recycling	23
2.6.5	Biomass Feedstock	24

2.6.6	Carbon Capture and Utilization	26
2.6.7	Carbon Offset Programs	27
2.7	Performance Indicators	28
2.7.1	GRI Reporting Standard	28
2.7.2	Default Values	29
2.8	Technological Uncertainties	30
3	Review of Determinants for Eco-innovation Adoption	33
3.1	Drivers	33
3.1.1	Innovation Economics	34
3.1.2	Market Pull	35
3.1.3	Technology Push	36
3.1.4	Environmental Policies	38
3.1.4.1	Types of Policy Instruments	40
3.1.4.2	Voluntary Initiatives	40
3.1.4.3	Economic Instruments	40
3.1.4.4	Regulatory Instruments	41
3.1.4.5	Effect of Policy Instruments	41
3.1.4.6	Stringency of Policy Instruments	43
3.1.4.7	Directives of the European Commission	44
3.1.5	Company-specific Factors	44
3.1.6	Customer Expectations	45
3.1.7	Efficiency Gains	46
3.1.8	Innovation Capabilities	47
3.1.8.1	Innovation Culture	47
3.1.8.2	External Knowledge Sourcing	47
3.1.8.3	Innovation Strategy	48
3.1.8.4	Internal R&D Capabilities	48
3.1.9	CSR Strategy	49
3.1.10	Management Advocacy	49
3.1.11	Cooperation	50
3.1.12	Standardization	50
3.1.12.1	Types of Standards	51
3.1.12.2	Eco-labels	51
3.1.12.3	Supply Chain Certifications	53
3.1.12.4	Industry Initiatives	55
3.1.13	Chemical Regulations	56
3.2	Barriers	57
3.2.1	Price Concerns	57

3.2.2	Cost Barriers	58
3.2.3	Financial Constrains	58
3.2.4	Socio-technical Barriers	59
3.2.5	Resource Availability	60
3.3	Research Gaps	61
3.3.1	Technological Option	61
3.3.2	Company-specific Determinants	63
3.3.3	Standards and Regulations	63
3.3.4	Research Method	64
4	Theoretical Framework	65
4.1	Innovation Types	66
4.1.1	Product Innovation	67
4.1.2	Service Innovation	67
4.1.3	Marketing Innovation	67
4.1.4	Process Innovation	68
4.1.5	Organizational Innovation	68
4.2	Innovation in Organizations	68
4.2.1	Individual Level	69
4.2.2	Group Level	69
4.2.3	Organizational Level	70
4.2.4	Environmental Level	71
4.2.5	Innovation Processes	71
4.3	Innovation Scope	72
4.3.1	Social, Environmental and Preventive Innovations	73
4.3.2	Open Innovation	73
4.3.3	Radical Innovation	74
4.3.4	Disruptive Innovation	75
4.4	Ecological Modernization	76
4.4.1	Corporate Social Responsibility	77
4.4.2	Environmental Regulations	78
4.4.3	Lock-out Effects	79
4.5	Multi-level Perspective of Transition	79
4.5.1	Socio-technical Transitions	80
4.5.2	Transitions in Retrospect	85
4.5.3	Socio-institutional Transition	86
4.5.4	Socio-ecological Transition	87
4.6	Technological Innovation Systems	90
4.6.1	Sectoral Innovation Systems	91

4.6.2	Global Innovation Systems	94
4.6.3	Life Cycle of Technology	95
4.6.4	Windows of Opportunities	96
4.6.5	Transition Management	100
4.6.6	Chemical Industry Transition	102
4.7	Innovation Diffusion Studies	103
4.7.1	Elements of the Diffusion	103
4.7.2	Agent-based Models	107
4.7.2.1	Predictor Variables	107
4.7.2.2	Attitude	107
4.7.2.3	Behavioral Intention	109
4.7.2.4	Attitude Measurements	109
4.7.3	Theory of Reasoned Action	111
4.7.4	Theory of Planned Behavior	111
4.7.5	Technology Acceptance Model	114
4.7.6	Later Reasoned Action Framework	115
4.7.7	Reasoned Action Framework for Study	116
4.7.8	Econometric Analyses	118
5	Testable Model	121
5.1	Predictor Variables	122
5.2	Research Questions and Hypotheses	124
5.3	Linking Logic	127
5.4	Alternative Explanations	130
6	Research Methodology	131
6.1	Case Study Design	133
6.2	Data Collection	134
6.2.1	Expert Interviews	135
6.2.2	Data Processing	136
6.2.3	Secondary Source	137
6.3	Data Analysis	138
6.3.1	Codification	138
6.3.2	Codification Example	142
6.3.3	Data Synthesis and Content Analysis	143
6.3.4	Document Analysis	145
6.3.5	Validity of the Research	146

7 Case Study Results	149
7.1 Company's Specific Predictors	149
7.1.1 Attitude	150
7.1.2 Behavioral Intention	153
7.1.3 Cost Position of Renewables	154
7.1.4 Actual Use	155
7.1.5 Sustainability Strategy	156
7.1.6 Management Advocacy	158
7.1.7 Cooperation Activities	159
7.1.8 Standardization	160
7.1.9 Expected Government Policy	161
7.1.10 Summary of Company-specific Predictors	163
7.2 Hypotheses Testing	165
7.2.1 Hypothesis Testing of the Attitude	165
7.2.2 Hypothesis Testing of the Behavioral Intention	166
7.2.3 Hypothesis Testing of the Price Effect	168
7.2.4 Hypotheses Testing of the Actual Use	170
7.2.5 Hypothesis Testing of the Sustainability Strategy	171
7.2.6 Hypothesis Testing of the Management Advocacy	172
7.2.7 Hypothesis Testing of Cooperation Activities	174
7.2.8 Hypothesis Testing of the Industry Standards	175
7.2.9 Hypothesis Texting of Expected Government Regulations	178
7.2.10 Summary of the Hypothesis Testing	181
7.3 Innovation-specific Predictors	183
7.3.1 Reported Origin or Renewable Raw Materials	184
7.3.2 Perceived CO2 Savings	186
7.3.3 Perceived Availability	187
7.3.4 Perceived Price	189
7.3.5 Perceived Transparency	190
7.3.6 Perceived Compatibility	192
7.3.7 Summary of Innovation-specific Predictors	194
7.4 Requirement Engineering	196
7.4.1 Availability Requirements	197
7.4.2 Price Acceptance	198
7.4.3 CO2 Saving Requirements	198

7.4.4	Compatibility Requirements	199
7.4.5	Transparency Requirements	201
7.4.6	Value Proposition Design	201
7.4.7	Business Fit	203
8	Results from Document Analysis	207
8.1	Corporates' Carbon Footprints	207
8.1.1	Corporates' Initiatives	208
8.1.2	Corporates' Emission Data	209
8.1.3	Corporates' Mission Statements	215
8.1.4	Corporates' Reduction Targets	216
8.1.5	Categorization by Scope 1 + 2 Reduction Targets	217
8.1.6	Categorization by Scope 3 Reduction Targets	218
8.1.7	Categorization by Adopter Group	220
8.1.8	Categorization by Industry Sector	221
8.1.9	Summary of GHG Emissions and Reduction Targets	222
8.2	Corporates' Emission Reduction Strategies	223
8.2.1	Strategies for Scope 1 and Scope 2 Emission Reduction	224
8.2.2	Strategies for Scope 3 Emissions Reduction	225
8.2.3	Use of Biobased Feedstocks	227
8.2.4	Use of Plastic Waste	229
8.2.5	Use of CO ₂ as Starting Molecule	231
8.2.6	Drivers and Barriers in Publications	232
8.3	Sector Specific Emission Reduction Strategies	234
8.3.1	Keyword Density Analysis	234
8.3.2	Halogen Sector Strategy	236
8.3.3	Petrochemical Sector Strategy	238
8.3.4	Pharmaceutical Sector Strategy	241
8.3.5	Specialty Chemicals Sector Strategy	243
8.4	Organizational Predictors in Reports	247
8.4.1	Industry's Attitude Towards Renewable Raw Materials	248
8.4.2	Industry's Intention to Use Renewable Raw Materials	248
8.4.3	Industry's Barriers to Adopt Renewable Raw Materials	249
8.4.4	Industry's Actual Use of Renewable Raw Materials	250

8.4.5	Industry's CSR Strategies	252
8.4.6	Industry's Management Advocacy	255
8.4.7	Industry's Cooperation Activities	257
8.4.8	Industry's Application of Industry Standards	260
8.4.9	Industry's Expectation of Government Regulations	262
8.4.10	Summary of Organizational Predictors from Document Analysis	264
9	Discussion	265
9.1	Summary of Results	265
9.1.1	Industry's State of Decarbonization	266
9.1.2	Niche Innovations and Uncertainty	267
9.1.3	Agent-based Research Methodology	268
9.1.4	Organizational Engagement	270
9.1.4.1	Summary on Attitude Towards use of Renewable Raw Materials	270
9.1.4.2	Summary on Intention to use of Renewable Raw Materials	271
9.1.5	Organizational Determinants	272
9.1.5.1	Actual use	273
9.1.5.2	Corporate Sustainability Strategy	273
9.1.5.3	Management Advocacy	274
9.1.5.4	Cooperation Skills	274
9.1.5.5	Implementation of Industry Standards	274
9.1.5.6	Alignment with Governmental Regulations	275
9.1.6	Innovation-Specific Determinants	276
9.2	Conceptualizing Low-Carbon Reorientation	277
9.2.1	Alternative Technologies	278
9.2.2	Possible Transition Pathway	281
9.2.3	Sector Specific Practices	284
9.3	Implications for Practitioners and Research	289
9.3.1	Transition Management for Business	289
9.3.2	Sector Specific Implications	292
9.3.3	Outlook for Further Research	293
	Corporate Publications for Document Analysis	297
