Kurzfassung	VII
Abstract	IX
Abbreviations	XI
1 Introduction	1
2 Fundamentals	3
2.1 Josephson effects	3
2.1.1 Josephson junction and equations	3
2.1.2 RCSJ model	5
2.2 Josephson voltage standards	8
2.2.1 DC Josephson voltage standard	8
2.2.2 Programmable Josephson voltage standard	9
2.2.3 Pulse-driven Josephson voltage standard	10
2.3 Quantum Hall effect	12
2.4 Quantum Hall resistance standards	15
2.4.1 Graphene vs GaAs for QHR	15
2.4.2 Measurement and double-shielding techniques for QHR	20
2.5 Impedance bridges	22
2.5.1 Electrical impedance	22
2.5.2 Concepts of two-terminal-pair impedance bridge . . .	24
2.5.3 Concepts of four-terminal-pair impedance bridge . . .	26
3 Experimental setups and toolkits	29
3.1 Pulse-driven Josephson voltage standard	29
3.1.1 Voltage generation process using JAWS	29
3.1.2 AC-coupled bias method	29
3.1.3 JAWS arrays	32
3.1.4 JAWS cryoprobe	34
3.1.5 JAWS hardware components	35
3.1.6 Generation of digital code patterns for the PPG . . .	40
3.2 Graphene quantum Hall resistance standard	43
3.2.1 Graphene sample	43
3.2.2 Graphene QHR hardware components	45
3.2.3 Graphene sample characterizations	47
3.3 4TP Josephson impedance bridge setup	51
3.3.1 Bridge for ratio and quadrature measurements	52
3.3.2 Bridge for linking impedance to AC graphene QHR .	56
3.3.3 Measurement and balancing procedures	58
3.3.4 Isolated coaxial transformers	60
3.3.5 Current equalization	61

3.4	Impedance standards	70
4	Uncertainties	71
4.1	Mathematical models	71
4.2	Uncertainty components	72
4.3	Combined uncertainties	79
4.3.1	Combined uncertainties for ratio measurements by the 4TP Josephson impedance bridge AutoA	79
4.3.2	Combined uncertainties for ratio measurements by the 4TP Josephson impedance bridge SemiB	80
4.3.3	Combined uncertainties for comparing impedance stan- dard to AC graphene QHR by the 4TP Josephson im- pedance bridge SemiB	81
5	Measurement results	83
5.1	Capacitance ratio measurements	83
5.2	Resistance ratio measurements	86
5.3	Quadrature measurements	89
5.4	Impedances linked to AC graphene QHR measurements . . .	89
5.4.1	Preliminary performance tests	89
5.4.2	Consistency tests	90
5.4.3	Capacitance standards to AC graphene QHR	92
5.4.4	Resistance standards to AC graphene QHR	93
6	Conclusions and outlooks	95
	References	99
	Publications	110
	Appendices	112
A	Equations for ratio and quadrature measurements	112
B	Equations for measurements with QHR	115
	Acknowledgement	117
