Acknowledgments — VII

Abbreviations — XIII

List of Tables — XV

List of Figures — XVIII

1 Introduction — 1

- 1.1 Aims of the investigation and state of the art — **1**
- 1.2 Basic properties of coordination structures — **6**
- 1.3 Methodological and theoretical framework — **13**
 - 1.3.1 Data base — **13**
 - 1.3.2 Methods — **22**
 - 1.3.3 Theoretical Framework — **24**
- 1.4 Structure of the study — **35**

2 Syntactic properties and classification of coordination structures — 37

- 2.1 Properties of coordination structures in MSG — **37**
 - 2.1.1 Symmetries: Coordinate Feature Matching, Coordinate Structure Constraint and ellipsis — **39**
 - 2.1.2 Symmetries and asymmetries in non-verbal coordination: agreement and Extraposition — **48**
 - 2.1.3 Subject Gap Coordination and verbal asymmetries — **55**
- 2.2 Size of conjuncts and syntactic classification of coordination structures — **66**
- 2.3 Syntactic structure of coordination in MSG — **74**
 - 2.3.1 ‘Symmetric’ structures — **75**
 - 2.3.2 ‘Asymmetric’ structures — **76**
 - 2.3.3 Syntax of agreement with conjoined NPs — **83**
- 2.4 Syntactic properties and classification of coordination structures: summary — **91**

3 Coordinators and coordination structures in Old and Middle High German — 93

- 3.1 The coordinators *inti* and *joh*: state of the art — **93**
 - 3.1.1 Etymology — **95**

3.1.2	The coordinators <i>inti</i> and <i>joh</i> in OHG — 99
3.2	Coordinators and coordination structures in OHG and MHG: corpus analysis — 103
3.2.1	A preliminary frequency analysis: the coordinators <i>inti</i> and <i>joh</i> in the ReA and the ReM — 103
3.2.2	Coordinators and coordination structures in the OHG/Early MHG sub-corpus — 109
3.2.3	Coordinators and coordination structures in the MHG sub-corpus — 133
3.3	Syntactic structure of coordination in OHG and MHG: analysis — 149
3.4	Coordinators and coordination structures in OHG and MHG: summary — 151
4	Subject-coordination and agreement in Old and Middle High German — 154
4.1	Number agreement with conjoined subjects in the history of German: state of the art — 155
4.2	Person agreement with conjoined subjects in the history of German — 165
4.3	Subject-coordination and agreement in OHG and MHG: corpus analysis — 168
4.3.1	Number agreement in the OHG/Early MHG sub-corpus — 173
4.3.2	Number agreement in the MHG sub-corpus — 183
4.3.3	Person agreement in the OHG and MHG corpus — 198
4.3.4	A note on Extraposition in OHG and MHG — 202
4.3.5	Subject-coordination and agreement: overview of results — 205
4.4	Number agreement in the history of German: analysis — 208
4.5	Subject-coordination and agreement: summary — 215
5	Subject Gap Coordination in the history of German — 218
5.1	Types of SGC in the history of German — 218
5.2	SGC in OHG and MHG: corpus analysis — 227
5.2.1	SGC in the OHG/Early MHG sub-corpus — 227
5.2.2	SGC in the MHG sub-corpus — 245
5.2.3	SGC: overview and outlook on ENHG — 265
5.3	SGC in the history of German: analysis — 271
5.4	SGC in the history of German: summary — 291

6	Inversion after <i>und</i> in Old High German and Middle High German — 293
6.1	Inversion after <i>und</i> in the history of German: state of the art — 293
6.1.1	Syntactic, semantic and pragmatic properties of inversion after <i>und</i> — 296
6.1.2	Frequency of inversion after <i>und</i> in the history of German — 302
6.2	Inversion after <i>und</i> in OHG and MHG: corpus analysis — 306
6.2.1	Inversion after <i>und</i> in Early OHG — 309
6.2.2	Inversion after <i>und</i> in Late OHG — 313
6.2.3	Inversion after <i>und</i> in MHG — 318
6.2.4	Inversion after <i>und</i> in Late MHG — 323
6.2.5	Inversion after <i>und</i> : overview of results — 331
6.3	Inversion after <i>und</i> in OHG and MHG: analysis — 333
6.4	Inversion after <i>und</i> : summary — 339
7	Conclusion: coordination structures in Old High German and Middle High German — 341
	Bibliography — 353
	Index — 371
