1	Introduction	1
	References.....	9
2	A Brief History of Agriculture	11
2.1	To the Beginnings of Agriculture and Animal Husbandry.....	11
2.2	Subsistence Farming.....	16
2.3	From Subsistence to Market Economy.....	20
2.4	Modern Agriculture.....	27
2.5	Globalized Agriculture.....	36
	References.....	43
3	Communities, Commons, and Common Good	47
3.1	The Cement of Communities.....	47
3.2	Markets Create Needs.....	50
3.3	Dilemma of the Commons.....	53
3.4	Dealing with Limited Common Goods.....	58
3.5	Agriculture and the Dilemma of the Commons.....	61
3.6	Common Good.....	63
3.6.1	The Common Good in Historical Retrospect.....	63
3.6.2	Agriculture and Common Good.....	70
3.6.3	Agronomic Perspective on the Common Good.....	74
	References.....	79
4	Utilization of Livestock	81
4.1	Biological Developments.....	82
4.1.1	Dairy Cows.....	83
4.1.2	Beef Cattle.....	90
4.1.3	Pigs.....	92
4.1.4	Poultry.....	94
4.2	Technical Developments.....	98
4.2.1	Cattle Farming.....	98

4.2.2	Pig and Poultry Farming	99
4.3	Economic Developments	104
4.3.1	Cattle Farming	105
4.3.2	Pig Farming	106
4.3.3	Poultry Farming	107
4.4	Winners and Losers of the Increase in Productivity	108
	References	117
5	Beneficial and Harmful Effects of Agricultural Industrialization	121
5.1	Intensification of Production Processes	122
5.1.1	Land Use	122
5.1.2	Increased Use of External Resources	125
5.1.3	Specialization	129
5.1.4	Technification in Agriculture	131
5.2	Marginal Utility	135
5.2.1	Utility Functions in Crop Production	138
5.2.2	Utility Functions in Animal Production	140
5.2.3	Efficiency in the Use of Food	146
5.3	Extent of Harmful Effects Caused by Agriculture	151
5.3.1	Loss of Biodiversity in the Biosphere	154
5.3.2	Pollutants in the Atmosphere	156
5.3.3	Pollutants in the Hydrosphere	160
5.3.4	Changes in the Lithosphere	161
	References	164
6	Stakeholders	167
6.1	Primary Producer	169
6.2	Agricultural Policy	178
6.3	Processing Industry	186
6.4	Food Retailers	193
6.5	Consumers	203
6.6	Non-governmental Organizations	210
6.6.1	Animal Rights Activists	211
6.6.2	Environmentalists	215
6.7	How Do We Balance Particular and Public Interests?	219
	References	225
7	Scientific Approach to Reality	229
7.1	Scientific Knowledge	231
7.1.1	Causal Explanation	232
7.1.2	Functional Explanation	233
7.1.3	Teleological Explanation	234

7.2 Branches of Science..... 234

7.2.1 Natural Sciences..... 234

7.2.2 Social and Economic Sciences..... 236

7.2.3 Humanities..... 237

7.3 Forms of Knowledge..... 238

7.3.1 Dispositional Knowledge..... 239

7.3.2 Orientation Knowledge..... 240

7.3.3 Action-Guiding Knowledge..... 241

7.3.4 Values, Standards, and Goals in the Sciences..... 243

7.4 Agricultural Sciences as Applied Sciences..... 246

7.4.1 Agricultural Sciences as an Isolated Branch of Science..... 246

7.4.2 Agricultural Science Lost in Details and Over-Generalization... 248

7.4.3 Agricultural Sciences in the Service of the
Agricultural Economy..... 252

7.4.4 Comparison of Natural, Technical
and Agricultural Sciences..... 256

References..... 266

8 Economic and Ecological (Thinking) Approaches..... 269

8.1 Economic Access to the Agricultural Economy..... 270

8.2 Eco-Systemic Approach to Agriculture..... 277

8.3 “What Matters is on the Court”..... 282

8.4 Lack of Orientation and Orientation Knowledge..... 285

8.5 Forms of Complexity Reduction..... 290

8.5.1 Agroeconomic Approach..... 291

8.5.2 Agroecological Approach..... 299

References..... 307

9 Quality Production—The Most Promising Approach for the
Realization of Public Welfare Interests..... 309

9.1 Quality Assessment..... 320

9.1.1 Assessment of Quality Characteristics..... 321

9.1.2 Assessment of the Value..... 321

9.1.3 Quality Assessment Based on External Benchmarks
and Targets..... 328

9.2 Differentiation and Contextualization of Product Quality..... 331

9.2.1 Nutritional Value..... 332

9.2.2 Utility Value..... 334

9.2.3 Enjoyment Value..... 335

9.2.4 Evidence-Based Assessment of Product Quality..... 342

9.3 Environmental Protection Services..... 347

9.3.1 Misguiding Sweeping Statements..... 348

9.3.2 Context-Dependent Assessments..... 352

9.4	System Services of an Agroecosystem	365
9.4.1	Prerequisites for the Provision of System Services	366
9.4.2	Health and Life Value of Food	371
9.4.3	Barriers.	374
9.4.4	Characteristics of System Services	382
9.4.5	Political Challenges	384
