

Contents

Introduction	1
Chapter 1. The first internal boundary value problem	3
1.1. An example of nonuniqueness	5
1.2. The first internal boundary value problem in a disk	18
1.3. The first internal boundary value problem in a half-strip	26
1.4. The first internal boundary value problem in the half-plane	36
1.5. The first internal boundary value problem in rectangles	40
1.6. The first internal boundary value problem for star-like domains	46
Chapter 2. The second internal boundary value problem	51
2.1. The second internal boundary value problem in a convex domain	52
2.2. The second internal boundary value problem in the half-plane	66
2.3. The second internal boundary value problem in a rectangle	80

Chapter 3. The third internal boundary value problem	123
3.1. IBVP 3 in a convex domain	124
3.2. IBVP 3 in a rectangle	125
 Chapter 4. Internal boundary value problems and the Cauchy problem for the abstract biharmonic equation	 135
4.1. Internal boundary value problems	135
4.2. The Cauchy problem	142
 Chapter 5. Appendices	 147
5.1. Appendix A	147
5.2. Appendix B	150
5.3. Appendix C	153
 Bibliography	 157
