

Table of Contents

We Are All Blind: Cognetics and the Designing of Interfaces for Accessibility	1
<i>J. Raskin</i>	

From the Human Interface to the Humane Interface

The Design Question of Development of Multimedia Educational Software for Aphasia Patients.....	6
<i>C. Sik Lányi, E. Bacsa, R. Mátrai, Z. Kosztyán, and I. Pataky</i>	
Multimedia Programs for Children with Hearing Difficulties	14
<i>C. Sik Lányi, Á. Váry, A. Sik, A. Nemetz, and Z. Geiszt</i>	
Multimedia and Virtual Reality in the Rehabilitation of Autistic Children	22
<i>C. Sik Lányi and Á. Tilinger</i>	
Mobile Phone Based User Interface Concept for Health Data Acquisition at Home	29
<i>G. Schreier, A. Kollmann, M. Kramer, J. Messmer, A. Hochgatterer, and P. Kastner</i>	
Multi-parameter Data Acquisition on Interface Devices for the Development of Adaptive Input Systems	37
<i>S. Mina, A. Hochgatterer, B. Prazak, S. Hanke, and G. Schreier</i>	

Design for All: Awareness, Guidelines and Policy

How Governments Can Use Technology to Promote Employment of People with Disabilities	45
<i>D.F.B. Cohen and I.R. Zeitzer</i>	
Influence of Accessibility Related Activities on the Usability of Business Software	52
<i>R. Jani and M. Schrepp</i>	
Data Entry in Application-Independent Voice Interfaces	60
<i>F. James, J. Roelands, and R. Gurram</i>	
Designing User Interfaces Tailored to the Current User's Requirements in Real Time	69
<i>M. González Rodríguez, J.R. Pérez Pérez, and M.P. Paule Ruíz</i>	

Evaluating Accessibility of Public Information Kiosks	76
<i>S. Lee and J.E. Cho</i>	

Design for All in IST – Co-operation in Europe

European Co-operation Activities Promoting Design for All in Information Society Technologies	80
<i>C. Bühler and C. Stephanidis</i>	

A Special Design Approach for Special People	88
<i>M. Zajicek</i>	

Accessibility from Scratch: How an Open Focus Contributes to Inclusive Design	96
<i>D. Crombie, R. Lenoir, and N. McKenzie</i>	

Design for All: Experience-Based Strategies for User Involvement in IST Research Projects	104
<i>T. Verelst</i>	

IDCnet: Inclusive Design Curriculum Network – First Results	110
<i>C.A. Velasco, J. Engelen, C. Strobbe, J. Darzentas, P. Tahkokallio, C. Nicolle, and R. Romero</i>	

Personalization of Interactive Systems

Personalization of Interactive Systems	117
<i>H. Petrie and G. Weber</i>	

Learning from Internet Requirements of People with Communication Needs	121
<i>C. Nicolle, Z. Osman, K. Black, and A. Lysley</i>	

IPCA: Adaptive Interfaces Based upon Biofeedback Sensors	129
<i>C.A. Velasco, Y. Mohamad, D. Stegemann, H. Gappa, G. Nordbrock, E. Hartsuiker, J. Sánchez-Lacuesta, and J.M. Belda</i>	

Adaptation of Multimedia Browsing Techniques	135
<i>K. Weimann, I. Langer, and G. Weber</i>	

Adapting Presentation and Interaction with XML Documents to User Preferences	143
<i>B. Encelle and N. Baptiste-Jessel</i>	

e-Learning and Accessibility

Living, Teaching and Learning at Any Time and at Any Place. e-Learning – Opportunities and Barriers for Visually Impaired Students . . .	151
<i>J. Klaus</i>	
Accessibility for e-Learning Environments	157
<i>M.L. Guenaga, D. Burger, and J. Oliver</i>	
ECDL-PD: International Co-operation to Keep the Syllabus and MQTB Open for Everybody	164
<i>K. Miesenberger, M. Morandell, A. Petz, and D. Leahy</i>	
Essential Competencies of Special Educator in Integrating Assistive Technology into the Curriculum	171
<i>M.-C. Chen, T.-F. Wu, and C.-N. Chu</i>	
Web Adaptation of Learning Objects for Special Access WALOSA	178
<i>C. Salis, C. Lai, and C. Moulin</i>	
Postgraduate Course on Accessible Web Design	183
<i>D. Ortner, M. Batušić, and K. Miesenberger</i>	
Cognitive Training with Animated Pedagogical Agents (TAPA) in Children with Learning Disabilities	187
<i>Y. Mohamad, C.A. Velasco, S. Damm, and H. Tebarth</i>	
A Concept Map-Based Adaptive Tutoring System Supporting Learning Diagnosis for Students with Learning Disability	194
<i>S.-Y. Choi</i>	
Tutor Informatico: Increasing the Selfteaching in Down Syndrome People .	202
<i>E. Campos, A. Granados, S. Jiménez, and J. Garrido</i>	
The Effect of Assistive Technology on Educational Costs: Two Case Studies	206
<i>A. Gips, P.A. DiMattia, and J. Gips</i>	

Making Music Accessible

Making Music Accessible. Introduction to the Special Thematic Session . . .	214
<i>D. Crombie, R. Lenoir, N. McKenzie, and B. Challis</i>	
The Design of Spoken Music Web Browser for Teaching Learning-Disabled Children: A Chevé System Approach to Music Notation	218
<i>C.-N. Chu and Y.T. Huang</i>	

DaCapo, a Project on Transforming Ink Printed to Braille Notes Semi-automatically. The Project's Current State	224
<i>T. Kahlisch, M. Leopold, and C. Waldvogel</i>	
Using SVG and a Force Feedback Mouse to Enable Blind People to Access "Graphical" Web Based Documents	228
<i>N. Baptiste-Jessel, B. Tornil, and B. Encelle</i>	
Modified Stave Notation – An Approach to Making Stave Notation More Accessible to Users Who Are Partially Sighted	236
<i>S.-A. Zimmermann</i>	

Accessible Games and Entertainment

Entertaining Software for Young Persons with Disabilities	240
<i>M. Tollefsen and M. Lunde</i>	
The TiM Project: Overview of Results	248
<i>D. Archambault</i>	
3D Shooting Games, Multimodal Games, Sound Games and More Working Examples of the Future of Games for the Blind	257
<i>E. Velleman, R. van Tol, S. Huiberts, and H. Verwey</i>	
Choosing Methods for Prototype Testing of Inclusive Computer Games . . .	264
<i>L. van Leeuwen, A. Power, and P. Ellis</i>	

Accessible Tourism

It's Time to Make eTourism Accessible	272
<i>F. Pühretmair</i>	
Tourism Information Systems Promoting Barrier-Free Tourism for People with Disabilities	280
<i>H. Rumetshofer and W. Wöß</i>	
AccesSights – A Multimodal Location-Aware Mobile Tourist Information System	287
<i>P. Klante, J. Krösche, and S. Boll</i>	

Accessibility and the Next Generation of Web Development Tools

Accessibility and the Next Generation of Web Development Tools	295
<i>C.A. Velasco</i>	

Preferences of People with Disabilities to Improve Information Presentation and Information Retrieval Inside Internet Services – Results of a User Study	296
<i>H. Gappa, G. Nordbrock, Y. Mohamad, and C.A. Velasco</i>	
Web Accessibility through Adaptation	302
<i>C. Alexandraki, A. Paramythis, N. Maou, and C. Stephanidis</i>	
imergo: Supporting Accessibility and Web Standards to Meet the Needs of the Industry via Process-Oriented Software Tools	310
<i>Y. Mohamad, D. Stegemann, J. Koch, and C.A. Velasco</i>	
Evaluation Methodology and Quality Mark for Web Accessibility	317
<i>E. Velleman</i>	
A Cost-Benefit Approach for Accessible Web Presence	323
<i>V. Heerdt and C. Strauss</i>	
The Use of Current Content Management Systems for Accessibility	331
<i>L. Burzagli, M. Billi, F. Gabbanini, P. Graziani, and E. Palchetti</i>	
Accessing Documents via Audio: An Extensible Transcoder for HTML to VoiceXML Conversion	339
<i>N. Annamalai, G. Gupta, and B. Prabhakaran</i>	
Listener-Controlled Dynamic Navigation of VoiceXML Documents	347
<i>H. Reddy, N. Annamalai, and G. Gupta</i>	
Toward User-Centered, Scenario-Based Planning and Evaluation Tools	355
<i>P. Bohman and S. Anderson</i>	
Discovering Structure of Web Pages for Non-visual Navigation: Binding Text to Forms	361
<i>E. Pontelli and R. Reddy</i>	

Elderly and Disabled People: Therapy and Care

Virtual Reality Based Therapy Application for Developmental Disordered Children	369
<i>Y. Takahashi, Y. Ito, T. Yamashita, T. Terada, K. Inoue, Y. Ikeda, K. Suzuki, H. Lee, and T. Komeda</i>	
Real-Time Health-Monitoring Network for Disabled and Elderly People	377
<i>Y.B. Kim and J.Y. Kim</i>	
A Computer-Based Self-health Monitoring System for the Elderly Living in a Low Income Housing Environment	385
<i>J.F. Karshmer and A.I. Karshmer</i>	

Investigations to Develop a Fully Adjustable Intelligent Toilet for Supporting Old People and Persons with Disabilities – The Friendly Rest Room (FRR) Project	392
<i>P. Panek, G. Edelmayr, C. Magnusson, P. Mayer, J.F.M. Molenbroek, H. Neveryd, R. Schlathau, and W.L. Zagler</i>	
Tele-surveillance System for Patient at Home: The MEDIVILLE System ..	400
<i>J.-L. Baldinger, J. Boudy, B. Dorizzi, J.-P. Levrey, R. Andreao, C. Perpère, F. Delavault, F. Rocaries, C. Dietrich, and A. Lacombe</i>	
Classification of Infant Crying to Identify Pathologies in Recently Born Babies with ANFIS	408
<i>O.F. Reyes-Galaviz, E. Arch Tirado, and C.A. Reyes-Garcia</i>	
Improving Quality of Life and Well-Being for Children and the Elderly through Vibroacoustic Sound Therapy	416
<i>P. Ellis</i>	
Multimodal Control Centre for Handicapped People	423
<i>A. Granados, V. Tomico, E. Campos, J. Tejedor, and J. Garrido</i>	
Blind and Visually Impaired People:	
Orientation and Mobility	
proXimity: Ad-Hoc Networks for Enhanced Mobility	430
<i>S. Harper, S. Pettitt, and C. Goble</i>	
A Context-Aware Locomotion Assistance Device for the Blind	438
<i>C. Jacquet, Y. Bellik, and Y. Bourda</i>	
Navigator – A Talking GPS Receiver for the Blind	446
<i>R. Kowalik and S. Kwasniewski</i>	
Dynamic Lighting Sign System for Way-Finding by People with Low Vision	450
<i>J. Akita, K. Ito, I. Gyobu, K.-i. Kimura, A. Mihara, R. Mizuno, J.-i. Nakakoji, and K. Yanagihara</i>	
Visual System to Help Blind People to Cross the Street	454
<i>J. Aranda and P. Mares</i>	
CyARM – Interactive Device for Environment Recognition Using a Non-visual Modality	462
<i>M. Okamoto, J. Akita, K. Ito, T. Ono, and T. Takagi</i>	
Walking Support Using Compact Terminals with Infrared Audio Communication	468
<i>S. Oyama, I.E. Yairi, S. Igi, and T. Nishimura</i>	

The Development of Virtual 3D Acoustic Environment for Training ‘Perception of Crossability’	476
<i>T. Shiose, K. Ito, and K. Mamada</i>	

Blind People: Braille Interfaces

Six-In – Braille Input from a QWERTY Keyboard	484
<i>P. Blenkhorn and G. Evans</i>	
A Pair of Wireless Braille-Based Chording Gloves	490
<i>S.S. An, J.W. Jeon, S. Lee, H. Choi, and H.-G. Choi</i>	
OBOE: Oboe-Like Braille Interface for Outdoor Environment	498
<i>T. Amemiya, K. Hirota, and M. Hirose</i>	
Java-Powered Braille Slate Talker	506
<i>A. Arato, Z. Juhasz, P. Blenkhorn, G. Evans, and G. Evreinov</i>	

Blind and Visually Impaired People: Access to Documents and Information

Towards an Integrated Publishing Chain for Accessible Multimodal Documents	514
<i>B. Guillon, J.-L. Monteiro, C. Checoury, D. Archambault, and D. Burger</i>	
Presenting UML Software Engineering Diagrams to Blind People	522
<i>A. King, P. Blenkhorn, D. Crombie, S. Dijkstra, G. Evans, and J. Wood</i>	
Linear Searching in a Non-linear Environment: The Information Seeking Behaviour of Visually Impaired People on the World Wide Web	530
<i>J. Craven</i>	
Text Comprehension by Blind People Using Speech Synthesis Systems	538
<i>L. González García</i>	
Access to Information at Your Own Choice by the Aid of Digital Talking Books	545
<i>T.K. Christensen</i>	
Talking Linux for the Blind – A CD Distribution with Speech	552
<i>D. Butorac</i>	
Accessing Web Based Documents through a Tree Structural Interface	560
<i>E. Walshe and B. McMullin</i>	

Multimedia Medicine Consultant for Visually Impaired People	564
<i>J. Tejedor, D. Bolaños, N. Morales, A. Granados, J. Colás, and S. Aguilera</i>	

Blind and Visually Impaired People: Education and Training

Computer for Persons with Visually Impairment: A Door to Education, Information and Employment	571
<i>A.H.M.N. Khan and S.N. Chowdhury</i>	

Usability of Educational Software for Visual Impairment: A Question of Viewpoint	575
<i>S. Dini, L. Ferlino, and C. Martinoli</i>	

Use of Bar Code and RFID for the Visually Impaired in Educational Environment	583
<i>H. Tatsumi, Y. Murai, M. Miyakawa, and S. Tokumasu</i>	

Virtual Disability: Simulations as an Aid to Lecturers' Understanding of Disability	589
<i>S. Ball and J. Rousell</i>	

Multimedia Software Training Tool (MSTT) for Persons with Visual and Mobile Impairments in Four Languages	597
<i>A. Mousadakou, M. Gemou, and E. Bekiaris</i>	

Designing New Technology Based Services to Support Visually Impaired Computer Workers (VICWs)	601
<i>J.J. Beumer, M. Wiethoff, and J. Attema</i>	

Design and Use of Pseudo-electronic Whiteboard for Low-Vision Education	609
<i>Y. Murai, H. Tatsumi, M. Miyakawa, and S. Tokumasu</i>	

Blind People: Access to Mathematics

Mathematics for Blind People	613
<i>A.I. Karshmer</i>	

The Architecture of a Comprehensive Equation Browser for the Print Impaired	614
<i>A.I. Karshmer, C. Bledsoe, and P.B. Stanley</i>	

Translating between Formats for Mathematics: Current Approach and an Agenda for Future Developments	620
<i>E. Pontelli and B. Palmer</i>	

Utilizing Scalable Vector Graphics in the Instruction of Mathematics to the Print Impaired Student	626
<i>P.B. Stanley, C. Bledsoe, and A.I. Karshmer</i>	
Cognitive Analysis of Equation Reading: Application to the Development of the Math Genie	630
<i>D.J. Gillan, P. Barraza, A.I. Karshmer, and S. Pazuchanics</i>	
Automatic Conversions of Mathematical Braille: A Survey of Main Difficulties in Different Languages	638
<i>V. Moço and D. Archambault</i>	
Multi-modal Mathematics: Conveying Math Using Synthetic Speech and Speech Recognition	644
<i>D. Fitzpatrick and A.I. Karshmer</i>	
An Integrated OCR Software for Mathematical Documents and Its Output with Accessibility	648
<i>M. Suzuki, T. Kanahori, N. Ohtake, and K. Yamaguchi</i>	
Mathematical Working Environment for the Blind Motivation and Basic Ideas	656
<i>B. Stöger, K. Miesenberger, and M. Batušić</i>	
Towards a Universal Maths Conversion Library	664
<i>D. Archambault, D. Fitzpatrick, G. Gupta, A.I. Karshmer, K. Miesenberger, and E. Pontelli</i>	
math2braille: Opening Access to Mathematics	670
<i>D. Crombie, R. Lenoir, N. McKenzie, and A. Barker</i>	
Enhancing the Accessibility of Mathematics for Blind People: The AudioMath Project	678
<i>H. Ferreira and D. Freitas</i>	
Handwriting Input System of Graphs for Barrier-Free Mathematical Communications	686
<i>R. Fukuda, M. Yo, and T. Kawahara</i>	

Blind People: Access to Graphics and Haptic Interfaces

Three Dimensionally Perceived Planar Tactile Illusion Device and Method	690
<i>G.R. Gonzales</i>	
Touching Geometry for Blind Pupils	697
<i>S. Rouzier, B. Hennion, T. Pérez Segovia, and D. Chêne</i>	

An Indicating, Leading Manipulator as a Good Hand at Teaching Strokes: A Mental-Image-Creation Support System	705
<i>Y. Nomura, H. Kakehashi, T. Sugiura, H. Matsui, and N. Kato</i>	
The Bigger Picture: Automated Production Tools for Tactile Graphics	713
<i>D. Crombie, R. Lenoir, N. McKenzie, and G. Ioannidis</i>	
Two Dimension Interactive Voice Browser for the Visually Impaired	721
<i>C.-N. Chu</i>	
Exploring Scalable Vector Graphics for Visually Impaired Users	725
<i>M. Rotard, K. Otte, and T. Ertl</i>	
Communication System for the Blind Using Tactile Displays and Ultrasonic Pens – MIMIZU	731
<i>M. Kobayashi and T. Watanabe</i>	
Directly Accessible Mainstream Graphical Information	739
<i>J.A. Gardner and V. Bulatov</i>	
Simple Pattern Creation Using a Pen Input Guide and Sound Localization for the Visually Impaired	745
<i>M. Sugimoto, K. Itoh, and M. Shimizu</i>	
An Approach for Direct Manipulation by Tactile Modality for Blind Computer Users: Principle and Practice of Detecting Information Generated by Touch Action	753
<i>M. Shimojo, M. Shinohara, M. Tanii, and Y. Shimizu</i>	
Mobility Impaired People: HCI	
Remote Eye Gaze Tracking System as a Computer Interface for Persons with Severe Motor Disability	761
<i>M. Adjouadi, A. Segin, M. Ayala, and M. Cabrerizo</i>	
Controlling a PC by Eye Movements: The MEMREC Project	770
<i>M. Fejtová, J. Fejt, and L. Lhotská</i>	
HeadControl+: A Multi-modal Input Device	774
<i>M. Mühlehner and K. Miesenberger</i>	
Accessibility through Standard Low Cost Pointing Devices	782
<i>B. Prazak, S. Mina, and G. Kronreif</i>	
Optimisation of the Selection Set Features for Scanning Text Input	788
<i>J. Abascal, L. Gardezabal, and N. Garay</i>	
FastScanner: An Accessibility Tool for Motor Impaired Users	796
<i>S. Ntoa, A. Savidis, and C. Stephanidis</i>	

A Real-Time Voice Controlled Human Computer Interface to Help Persons with Motor Disability	804
<i>M. Adjouadi, D. Landestoy, M. Ayala, and W. Tischer</i>	

First User Test Results with the Predictive Typing System FASTY.....	813
<i>C. Beck, G. Seisenbacher, G. Edelmayer, and W.L. Zagler</i>	

Mobility Impaired People: Rehabilitaiton and Health Care

Movement Variability and Speed of Performance Using a Head-Operated Device and Expanded Membrane Cursor Keys....	820
<i>G.J. Capilouto</i>	

An Examination about Walking Posture on Gait Training System for Computer-Aided Rehabilitation.....	827
<i>H. Ikeuchi, F. Kamifukumoto, S. Arakane, K. Ohnishi, K. Imado, H. Miyagawa, and Y. Saito</i>	

Optimizing Menu Selection Process for Single-Switch Manipulation.....	836
<i>G. Evreinov and R. Raisamo</i>	

Designing an Evaluation Method for Computer Accessibility for People with Severe Disabilities.....	845
<i>R. Kadouche, B. Abdulrazak, and M. Mokhtari</i>	

Computerized Assessment Tool for Mouse Operating Proficiency	849
<i>M.-C. Chen, L.-F. Meng, C.-F. Hsieh, T.-F. Wu, C.-N. Chu, and T.-Y. Li</i>	

Applications of Computer Access Approach to Persons with Quadriplegics	857
<i>L.-F. Meng, T.-Y. Li, C.-N. Chu, M.-C. Chen, S.C.-H. Chang, A.-M. Chou, T. Yang, C.C. Hui, K.A. Chiao, Y.L. Lin, P.-t. Weng, Y.-c. Shih, T.-y. Lu, and N.-h. Yeh</i>	

Computer Access for Persons with Spinal Cord Injury	865
<i>T.-F. Wu, H.-P. Wang, M.-C. Chen, and W.-T. Wu</i>	

An Assessment into Touch Screen Input Devices for Cervical Spinal Injured Computer Users	873
<i>R.C.C. Chen, D.T. Tsai, L.-C. Chang, and N. Higgett</i>	

Home-Use Upper Limb Rehabilitation Device for Cervical Spinal Cord Injured Patients	880
<i>K. Ohnishi, E. Goto, F. Sugiki, K. Imado, H. Ikeuchi, N. Kito, H. Miyagawa, and Y. Saito</i>	

Smart Environments for All

Smart Environments for All	889
<i>G. Nussbaum</i>	
The Assistive Home – More than Just Another Approach to Independent Living?	891
<i>G. Nussbaum and K. Miesenberger</i>	
Technology Usage for Dependant People: Towards the Right Balance between User Needs and Technology	898
<i>C. Penaud, M. Mokhtari, and B. Abdulrazak</i>	
Coupling Context Awareness and Multimodality in Smart Homes Concept	906
<i>M.A. Feki, S. Renouard, B. Abdulrazak, G. Chollet, and M. Mokhtari</i>	
On the Design of Ambient Intelligent Systems in the Context of Assistive Technologies	914
<i>J.L. Sevillano, J. Falcó, J. Abascal, A. Civit-Balcells, G. Jiménez, S. Vicente, and R. Casas</i>	
PACS: Communication and Environment Control System for Disabled	922
<i>V. Lauruska</i>	
Performance Analysis of User Interface for the Disabled in Real-Time Ubiquitous Information Network	926
<i>Y.B. Kim and J.Y. Kim</i>	
The HM2PH Project: A Database to Help Prescription of Assistive Technologies.....	930
<i>J. Leloup, P. Gaucher, and S. Pellieux</i>	
Networking and Communication in Smart Home for People with Disabilities	937
<i>M. Ghorbel, M.-T. Segarra, J. Kerdreux, R. Keryell, A. Thepaut, and M. Mokhtari</i>	
SmartX – Enabling Traditional Environmental Control to Use Standard HCI	945
<i>G. Nussbaum and K. Miesenberger</i>	
Indoors Pervasive Computing and Outdoors Mobile Computing for Cognitive Assistance and Telemonitoring.....	953
<i>S. Giroux, H. Pigot, and A. Mayers</i>	

People with Cognitive, Speech and Learning Impairment: Autism

Computer Use for People with Learning Difficulties: Basic Needs 961
P. Tréhin

Using ‘Ambient Intelligence’ for Compensating Intellectual Difficulties
of People with Severe Learning Difficulties
and/or Autistic Spectrum Disorders 969
G. Herrera, A. Plasencia, G. Labajo, R. Jordan, and C. de Pablo

Assessing B.A.Bar Device as a Tool
for Supporting Labour Integration of a Severely Affected Person
with Autism Who Carries Out Classifying Tasks 976
G. Herrera and G. Labajo

People with Cognitive, Speech and Learning Impairment: Software Accessibility

An Adaptive and Predictive Environment
to Support Augmentative and Alternative Communication 983
N. Gatti, M. Matteucci, and L. Sbattella

Intelligent Model for Rating Cognitive Capability for Computer Access
of People with Disabilities 991
T.A. Pushchak and S. Sasi

Automatic Modification of Text for People with Learning Disabilities
Using Internet Services 995
G. Nordbrock, H. Gappa, Y. Mohamad, and C.A. Velasco

Soft Keyboard for the Disabled 999
P. Gnanayutham, C. Bloor, and G. Cockton

A Talking Word Processor and Web Browser 1003
G. Evans, M. Kritikos, A. King, and P. Blenkhorn

Sibyl: AAC System Using NLP Techniques 1009
I. Schadle

People with Cognitive, Speech and Learning Impairment: Education and Training

Mobile Devices Converted into a Speaking Communication Aid 1016
B. Tóth, G. Németh, and G. Kiss

SOCRATES: Barrier Free Communities of Aphasics on the Internet	1024
<i>M. Spaniol, L. Springer, R. Klamma, and M. Jarke</i>	
Evaluations of an Information and Communication Technology (ICT) Training Programme for Persons with Intellectual Disabilities	1032
<i>C.W.P. Li-Tsang, C.C.H. Chan, C.S. Lam, C. Hui-Chan, and S.-s. Yeung</i>	
Effect of Dynamic Features on Diagnostic Testing for Dyspraxia	1039
<i>M.A. Razian, M.C. Fairhurst, and S. Hoque</i>	
Feature Selection Optimisation in an Automated Diagnostic Cancellation Task	1047
<i>S. Chindaro, R.M. Guest, M.C. Fairhurst, M.A. Razian, and J.M. Potter</i>	
Minus-Two: Multimedia, Sound Spatialization and 3D Representation for Cognitively Impaired Children	1054
<i>T. Barbieri, A. Bianchi, and L. Sbattella</i>	
Neuropsychological Function for Accessibility of Computer Program for People with Mental Retardation	1062
<i>A.W.W. Wong, C.C.H. Chan, C.W.P. Li-Tsang, and C.S. Lam</i>	

Deaf People: Sign Language and Digital Media

Accessible Digital Media and Sign Language	1069
<i>D. Fels</i>	
Integration of Signage Information into the Web Environment	1071
<i>R. Aouf and S. Hansen</i>	
Progress in Automated Computer Recognition of Sign Language	1079
<i>B.L. Loeding, S. Sarkar, A. Parashar, and A.I. Karshmer</i>	
Creating Sign Language Web Pages	1088
<i>D.G. Lee, J. Richards, J. Hardman, S. Soudain, and D. Fels</i>	
Sign Language Communication Support at the Class for Hearing Impaired Using a Control Camera	1096
<i>H. Minagawa</i>	
CD-ROM on Austrian Sign Language: Course OEGS 1, Lesson 1–6	1099
<i>M. Hilzensauer</i>	
Developing an e-Learning Platform for the Greek Sign Language	1107
<i>E. Efthimiou, G. Sapountzaki, K. Karpouzis, and S.-E. Fotinea</i>	

Design of Computer Animation of Japanese Sign Language for Hearing-Impaired People in Stomach X-Ray Inspection	1114
<i>K. Morimoto, T. Kurokawa, N. Isobe, and J. Miyashita</i>	

Basic Study of a Communication Device for the Deaf-Blind Using a Finger and a Palm – Measurement of Finger Speed and Pressure	1121
<i>C. Wada and Y. Wada</i>	

A Tactile Display System in the Use of a PC for Individuals Who Are Deaf-Blind	1129
<i>M. Sakajiri, S. Okada, K. Ito, A. Sadakane, N. Sugiyama, H. Tomita, and T. Ifukube</i>	

Deaf and Hearing Impaired People: ICT and AT

Approaches to Using a Wireless Mobile Terminal to Help Severely Hearing Impaired People	1137
<i>S. Moh</i>	

A Preparatory Study for Designing Web-Based Educational Materials for the Hearing-Impaired	1144
<i>M. Namatame, M. Kitajima, T. Nishioka, and F. Fukamauchi</i>	

FLIPPS: Fingertip Stimulation for Improved Speechreading	1152
<i>H.-H. Bothe, A.F. Mohamad, and M.R. Jensen</i>	

A New Mobile Text Telephony System Based on GPRS Communications	1160
<i>S. Aguilera, S. Jiménez, D. Bolaños, M.-S. Torre, and J. Colás</i>	

Head Mounted Display as a Information Guarantee Device for Hearing Impaired Students	1167
<i>T. Nishioka</i>	

Facial and Head Movements of a Sign Interpreter and Their Application to Japanese Sign Animation	1172
<i>S. Kawano and T. Kurokawa</i>	

SYNFACE – A Talking Head Telephone for the Hearing-Impaired	1178
<i>J. Beskow, I. Karlsson, J. Kewley, and G. Salvi</i>	

Author Index	1187
