

Table of Contents

I Face, Gesture and Nonverbal Communication

Visual Focus of Attention in Dynamic Meeting Scenarios	1
<i>Michael Voit and Rainer Stiefelwagen</i>	
Fast and Robust Face Tracking for Analyzing Multiparty Face-to-Face Meetings	14
<i>Kazuhiro Otsuka and Junji Yamato</i>	
What Does the Face-Turning Action Imply in Consensus Building Communication?	26
<i>Tetsuro Onishi, Takatsugu Hirayama, and Takashi Matsuyama</i>	
Distinguishing the Communicative Functions of Gestures: An Experiment with Annotated Gesture Data	38
<i>Kristiina Jokinen, Costanza Navarretta, and Patrizia Paggio</i>	
Optimised Meeting Recording and Annotation Using Real-Time Video Analysis	50
<i>Paul Chippendale and Oswald Lanz</i>	
Ambiguity Modeling in Latent Spaces	62
<i>Carl Henrik Ek, Jon Rihan, Philip H.S. Torr, Grégory Rogez, and Neil D. Lawrence</i>	

II Audio-Visual Scene Analysis and Speech Processing

Inclusion of Video Information for Detection of Acoustic Events Using the Fuzzy Integral	74
<i>Taras Butko, Andrey Temko, Climent Nadeu, and Cristian Canton</i>	
Audio-Visual Clustering for 3D Speaker Localization	86
<i>Vasil Khalidov, Florence Forbes, Miles Hansard, Elise Arnaud, and Radu Horaud</i>	
A Hybrid Generative-Discriminative Approach to Speaker Diarization	98
<i>Athanasios K. Noulas, Tim van Kasteren, and Ben J.A. Kröse</i>	

A Neural Network Based Regression Approach for Recognizing Simultaneous Speech	110
<i>Weifeng Li, Kenichi Kumatani, John Dines, Mathew Magimai-Doss, and Hervé Bourlard</i>	
Hilbert Envelope Based Features for Far-Field Speech Recognition	119
<i>Samuel Thomas, Sriram Ganapathy, and Hynek Hermansky</i>	
Multimodal Unit Selection for 2D Audiovisual Text-to-Speech Synthesis	125
<i>Wesley Matthyses, Lukas Latacz, Werner Verhelst, and Hichem Sahli</i>	

III Social Signal Processing

Decision-Level Fusion for Audio-Visual Laughter Detection	137
<i>Boris Reuderink, Mannes Poel, Khiet Truong, Ronald Poppe, and Maja Pantic</i>	
Detection of Laughter-in-Interaction in Multichannel Close-Talk Microphone Recordings of Meetings	149
<i>Kornel Laskowski and Tanja Schultz</i>	
Automatic Recognition of Spontaneous Emotions in Speech Using Acoustic and Lexical Features	161
<i>Khiet P. Truong and Stephan A. Raaijmakers</i>	
Daily Routine Classification from Mobile Phone Data.....	173
<i>Katayoun Farrahi and Daniel Gatica-Perez</i>	

IV Human-Human Spoken Dialogue Processing

Hybrid Multi-step Disfluency Detection	185
<i>Sebastian Germesin, Tilman Becker, and Peter Poller</i>	
Exploring Features and Classifiers for Dialogue Act Segmentation	196
<i>Harm op den Akker and Christian Schulz</i>	
Detecting Action Items in Meetings	208
<i>Gabriel Murray and Steve Renals</i>	
Modeling Topic and Role Information in Meetings Using the Hierarchical Dirichlet Process.....	214
<i>Songfang Huang and Steve Renals</i>	
Time-Compressing Speech: ASR Transcripts Are an Effective Way to Support Gist Extraction	226
<i>Simon Tucker, Nicos Kyprianou, and Steve Whittaker</i>	

Meta Comments for Summarizing Meeting Speech	236
<i>Gabriel Murray and Steve Renals</i>	

V HCI and Applications

A Generic Layout-Tool for Summaries of Meetings in a Constraint-Based Approach	248
<i>Sandro Castronovo, Jochen Frey, and Peter Poller</i>	
A Probabilistic Model for User Relevance Feedback on Image Retrieval	260
<i>Roberto Paredes, Thomas Deselaers, and Enrique Vidal</i>	
The AMIDA Automatic Content Linking Device: Just-in-Time Document Retrieval in Meetings	272
<i>Andrei Popescu-Belis, Erik Boertjes, Jonathan Kilgour, Peter Poller, Sandro Castronovo, Theresa Wilson, Alejandro Jaimes, and Jean Carletta</i>	
Introducing Additional Input Information into Interactive Machine Translation Systems	284
<i>Germán Sanchis-Trilles, Maria-Teresa González, Francisco Casacuberta, Enrique Vidal, and Jorge Civera</i>	
Computer Assisted Transcription of Text Images and Multimodal Interaction	296
<i>Alejandro H. Toselli, Verónica Romero, and Enrique Vidal</i>	

VI User Requirements and Evaluation of Meeting Browsers and Assistants

Designing and Evaluating Meeting Assistants, Keeping Humans in Mind	309
<i>Patrick Ehlen, Raquel Fernandez, and Matthew Frampton</i>	
Making Remote 'Meeting Hopping' Work: Assistance to Initiate, Join and Leave Meetings	315
<i>Anita H.M. Cremers, Maaike Duistermaat, Peter L.M. Groenewegen, and Jacomien G.M. de Jong</i>	
Physicality and Cooperative Design	325
<i>Dhaval Vyas, Dirk Heylen, and Anton Nijholt</i>	
Developing and Evaluating a Meeting Assistant Test Bed	338
<i>Wilfried Post and Mike Lincoln</i>	

XII Table of Contents

Extrinsic Summarization Evaluation: A Decision Audit Task 349
 Gabriel Murray, Thomas Kleinbauer, Peter Poller, Steve Renals,
 Jonathan Kilgour, and Tilman Becker

Author Index 363
