

Table of Contents

Session I: Testing Theory and Foundations

Symbolic Execution Techniques for Test Purpose Definition <i>Christophe Gaston, Pascale Le Gall, Nicolas Rapin, Assia Touil</i>	1
Controllable Combinatorial Coverage in Grammar-Based Testing <i>Ralf Lämmel, Wolfram Schulte</i>	19
A Logic for Assessing Sets of Heterogeneous Testing Hypotheses <i>Ismael Rodríguez, Mercedes G. Merayo, Manuel Núñez</i>	39

Session II: Testing Non-deterministic and Probabilistic Systems

Bounded Sequence Testing from Non-deterministic Finite State Machines <i>Florentin Ipate</i>	55
LaTe, a Non-fully Deterministic Testing Language <i>Emmanuel Donin de Rosière, Claude Jard, Benoît Parreaux</i>	71
Customized Testing for Probabilistic Systems <i>Luis F. Llana-Díaz, Manuel Núñez, Ismael Rodríguez</i>	87

Session III: Testing Internet and Industrial Systems

Generating Test Cases for Web Services Using Extended Finite State Machine <i>ChangSup Keum, Sungwon Kang, In-Young Ko, Jongmoon Baik, Young-Il Choi</i>	103
Towards the Testing of Composed Web Services in 3 rd Generation Networks <i>Abdelghani Benharref, Rachida Dssouli, Roch Glitho, Mohamed Adel Serhani</i>	118
Application of Two Test Generation Tools to an Industrial Case Study <i>Ana Cavalli, Stéphane Maag, Wissam Mallouli, Mikael Marche, Yves-Marie Quemener</i>	134

Session IV: TTCN-3

Performance Analysis of Concurrent PCOs in TTCN-3 <i>Máté J. Csorba, Sándor Palugyai, Sarolta Dibuz, Gyula Csopaki</i>	149
Use of TTCN-3 for Software Module Testing <i>Andreas Johan Nyberg</i>	161
Distributed Load Tests with TTCN-3 <i>George Din, Sorin Tolea, Ina Schieferdecker</i>	177

Session V: Compositional and Distributed Testing

Analyzing the Impact of Protocol Changes on Tests <i>Mahadevan Subramaniam, Zoltán Pap</i>	197
Detecting Observability Problems in Distributed Testing <i>Jessica Chen, Hasan Ural</i>	213
Compositional Testing of Communication Systems <i>Reinhard Gotzheim, Ferhat Khendek</i>	227

Session VI: FSM-Based Testing and Diagnosis

FSM Test Translation Through Context <i>Khaled El-Fakih, Alexandre Petrenko, Nina Yevtushenko</i>	245
Using Distinguishing and UIO Sequences Together in a Checking Sequence <i>M. Cihan Yalcin, Husnu Yenigun</i>	259
Reducing the Lengths of Checking Sequences by Overlapping <i>Hasan Ural, Fan Zhang</i>	274

Session VII: Timed Systems

Test Case Minimization for Real-Time Systems Using Timed Bound Traces <i>Ismail Berrada, Richard Castanet, Patrick Félix, Aziz Salah</i>	289
Symbolic and on the Fly Testing with Real-Time Observers <i>Rachid Bouaziz, Ousmane Koné</i>	306

Using *TIMED*TTCN-3 in Interoperability Testing for Real-Time
Communication Systems

Zhiliang Wang, Jianping Wu, Xia Yin, Xingang Shi,
Beihang Tian 324

Session VIII: Testing for Security

Test Generation for Network Security Rules

Vianney Darmaillacq, Jean-Claude Fernandez, Roland Groz,
Laurent Mounier, Jean-Luc Richier 341

Message Confidentiality Testing of Security Protocols – Passive
Monitoring and Active Checking

Guoqiang Shu, David Lee 357

Author Index 373
