
List of Contents

Winner of the 1996 IFCC-AVL Award

- Biochemical Diagnosis of Acute Aortic Damage – Diagnosis of Aortic Dissection and Traumatic Aortic Rupture Using an Immunoassay of Smooth Muscle Myosin Heavy Chain 3
T. Suzuki

Inflammation – Infection – Stress

Finalists

- Leucocyte Motion During Gravity Sedimentation of Whole Blood 13
L. Bogár, J.A. Horváth, and M. Tekeres
- Is Ventilator-Associated Pneumonia the Result of Exposure to Host-Derived Inflammatory Mediators? 20
T.J.J. Inglis, G.S.H. Lee, and M. Kowolik
- Glucose Metabolism Modifies Experimental Endotoxin Shock 30
M.-R. Losser and D. Payen
- Neutrophil Elastase, C-Reactive Protein and Platelet Count After Severe Multiple Trauma Indicate the Risk for Late Multiple Organ Failure Following Secondary Operations 43
C. Waydhas, D. Nast-Kolb, R. Zettl, A. Trupka, L. Schweiberer, and M. Jochum

National Winners

- Monitoring of Serum Cytokeratin 18 in Patients with Burns 56
G.S. Bayer, S.E. Andert, W.A. Bauer, A.E. Werbal, and G. Meissl

Intermittent Bolus Dosing of Ceftazidime in Critically Ill Patients	58
<i>R. J. Young, J. Lipman, T. Gin, G. D. Gomersall, G. M. Joynt, and T. E. Oh</i>	

Biochemical Prognostic Markers in Critically Ill Patients ...	60
<i>P. Zivny, V. Cerny, L. Zabka, V. Palicka, and L. Pliskova</i>	

Other Abstracts

Decreased L-Selectin Expression on Polymorphonuclear Leucocytes Following Dexamethasone Treatment: Another Possible Anti-Inflammatory Mechanism	62
<i>D. Weisman, A. Tang, S. Granleese, S. F. Van Eeden, J. C. Hogg, and G. P. Bondy</i>	

Thrombocytopaenia Associated with the Systemic Inflammatory Response Syndrome: Involvement of the Haemophagocytosis Process	64
<i>B. Francois, F. Trinoreau, H. Gastinne, and V. Praloran</i>	

Use of Cortisol, Glucagon and Nitrogen Balance Measurements to Assess Stress Levels in Critically Ill Patients	66
<i>C. Pichard, U. Kyle, N. Mensi, and R. Gaillard</i>	

Prognostic Implications from Measurement of Cytokines in Bronchoalveolar Lavage in Critically Ill Patients with Pneumonia	68
<i>S. M. Samir, S. A. El-Shafee, A. Hatem, and S. Mokhtar</i>	

Hypoxia – Ischaemia

National Winner

Changes in Serum and Cerebrospinal Fluid Superoxide Dismutase and Neurone-Specific Enolase Following Acute Cerebral Ischaemia	73
<i>A. Miller, B. Gross, H. Rawashdi, R. Almog, S. Honigman, M. Barak, and N. Gruener</i>	

Other Abstracts

Human Polymorphonuclear Leucocyte Metabolism and Lipoperoxidation During Adult Respiratory Distress Syndrome	75
<i>G. Lefevre, F. Brunet, M. Roch-Arveiller, J.-F. Dhainaut, and J. P. Giroud</i>	

Cardiology – Haemodynamics

Finalist

Left Ventricular Assist Device Powered by a Balloon Counterpulsation Console	79
<i>M. Calderon</i>	

National Winner

Alterations in Serum Haptoglobin Concentration During the Early Phase of Myocardial Infarction	86
<i>D.R. Bernard, M.R. Langlois, M.L. De Buyzere, and J.R. Delanghe</i>	

Other Abstracts

Association of Interleukin-2 Receptor with Acute Myocardial Infarction	88
<i>L. Xuguo, X. Yuzhong, Z. Shilin, and Y. Lijun</i>	

Changes in Expression of Interleukin-2 Receptor and Interleukin-2 Production on Peripheral Blood Mononuclear Cells in Cardiac Surgery Patients	90
<i>L. Ai-lin, T. Yu-ke, and J. Shi-ao</i>	

Interrelationship Between Serum and Cerebrospinal Fluid Enzymes in Comatose Patients	92
<i>P. Martens, A. Mullie, and M. Bourgeois</i>	

Role of Transoesophageal Echocardiography in Patients with Severe Blunt Chest Trauma for the Diagnosis and Management of Traumatic Disruption of the Aorta . . .	94
<i>P. Vignon and P. Lagrange</i>	

Haemodynamic Effects of Different Modes of Positive-Pressure Mechanical Ventilation	96
<i>T. Samir, A.A. El-Fattah, and S. Mokhtar</i>	

Coronary Reserve and Myocardial Metabolism in Patients with Angina and Normal Coronary Arteriogram	98
<i>A. El-Sherif, S.A. El-Shafee, A. Zaki, R. Bahgat, and M.S. Mokhtar</i>	

Early Detection of Successful Coronary Reperfusion Based on Serum Levels of Human Heart-Type Cytoplasmic Fatty Acid-Binding Protein	100
<i>J. Ishii, Y. Nagamura, N. Masanori, Y. Watanabe, H. Hishida, T. Tanaka, and K. Karamura</i>	

Cardiac Troponin I as a Marker for Perioperative Myocardial Ischaemia in Non-cardiac Surgery Patients	102
<i>B. W. Bottiger, J. Motsch, P. Teschendorf, G. Rehmert, R. Gust, M. Zorn, M. Schweizer, and E. Martin</i>	

Endogenous Nitric Oxide and the Low Systemic Vascular Resistance Syndrome Following Cardiac Surgery ..	104
<i>P.S. Myles, C. Leong, and J. Curry</i>	

Blood Gases – Electrolytes – Trace Elements

Finalists

Towards Clinically Useful Expert Systems in Critical Care: Locally Managed Interpretation of Arterial Blood Gas Data ..	109
<i>G. A. Edwards, P.J. Compton, P.J. Preston, and B. Ho Kang</i>	

Computer-Assisted Evaluation of Oxygen and Acid-Base Status of the Blood	124
<i>M. Siggaard-Andersen</i>	

National Winners

Pattern of Ionised Versus Total Magnesium Concentration in Peri-Operative Cardiac Surgery Patients: Influence of Preoperative Diuretic Therapy	136
<i>I. Leonard, J. Collier, S. Maguire, D. Phelan, J. Fitzgerald, and B. Harte</i>	

Role of Blood Gas Measurement in the Management of Acute Asthma	138
<i>D. Quoc Tuan</i>	

Relevance of End-Tidal Carbon Dioxide Monitoring in Ventilated Neonates	140
<i>S. Nangia, A. Saili, and A.K. Dutta</i>	

Other Abstracts

Trace Element Deficiency in Critically Ill Patients	142
<i>A. Kogan, P. Singer, J. Cohen, Y. Broza, and O. Zinder</i>	
Electrolyte and Acid-Base Balance in Respiratory and Metabolic Acidosis	144
<i>V. Cosic, M. Rancic, and B. V. Dordevic</i>	
Point-of-Care Testing of Haemoglobin Derivatives by Co-Oximetry with Simultaneous Blood Gas Measurements . .	147
<i>M. L. S. Fong and I. K. Tan</i>	
Changes in Body Water Compartments in Children with Meningitis	149
<i>V. Kumar, P. Singhi, and S. Singhi</i>	
Surfactant as a Marker of Disease Severity in Critically Ill Patients with Respiratory Failure	151
<i>I. Doyle and A. D. Bersten</i>	
Reliability of the Pulse Oximeter	153
<i>B. G. Lee, P. T. Morley, and J. F. Cade</i>	

Nephrology

Other Abstracts

Evidence of Oxidant Injury in Patients with Post-Diarrhoeal Acute Renal Failure	157
<i>S. Rao, K. V. Murty, K. S. Saibaba, S. Somaiah, and M. V. Bhaskar</i>	

Gastroenterology

National Winners

Sensitivity and Specificity of Different Plasma Enzyme Assays in the Diagnosis of Acute Pancreatitis	161
<i>S. Ignjatovic, M. Todorovic, M. Gvozdenovic, and D. Mirkovic</i>	
Urinary Trypsinogen-2 Test Strip – A New Rapid Test for Acute Pancreatitis	163
<i>J. Hedstrom, A. Korvuo, P. Kenkimaki, S. Tikanoja, R. Haapilaainen, E. Kivilaasko, and U. Stenman</i>	

Gastrointestinal Mucosal Permeability in Critically Ill Patients	165
<i>A.E. Rodriguez, R. Conejero, M. Planes, J. Acosta, A. Bonet, J. Lopez, R. Nunez, and A. Mesajo</i>	

Haematology – Haemostasis

Other Abstracts

Altered Coagulability in Ischaemic Heart Disease	169
<i>A. Rizk, S. Mokhtar, A.S. El-Deen, S. Nguib, and M. El-Ansary</i>	

Plasminogen Activator Inhibitor in Acute Myocardial Infarction: A Predictor of Spontaneous Lysis and Patency of Infarct-Related Artery	171
<i>A. El-Naggar, A. Rizk, S. El-Tobgy, and S. Mokhtar</i>	

Rapid Detection of Plasma Glycocalicin by a Latex Agglutination Test and Its Use in the Differential Diagnosis of Thrombocytopaenia	173
<i>S. Kunishima, S. Kobayashi, H. Saito, and T. Naoe</i>	

New Technology

Finalist

Monitoring of Multiple Pathophysiological Parameters in the Severely Head-Injured Patient	177
<i>P.J. Kirkpatrick</i>	

Miscellaneous

Finalists

An Epidemiological Study to Evaluate the Incidence of Activated Protein C Resistance in the General Population Using a Polymerase Chain Reaction-Mediated Restriction Fragment Length Polymorphism Assay: Implications for the Critical Care Patient	211
<i>G.J. Tsongalis, W.N. Rezukey, and A.H.B. Wu</i>	

National Winners

- Use of Thrombin Inhibitors Ex Vivo Allows
Critical Care Clinical Chemistry and Haematology Testing
on the Same Specimens 223
A. W. Lyon, S. R. Harding, D. Drobot, and M. E. Lyon

Other Abstracts

- A Clinical Case of Transitory Diabetes Mellitus
During Lyell Syndrome 225
*C. Sandrine, B. H. Limam, K. Limam, Y. Braham,
S. Bouchoucha, and A. Miled*

- Parenteral Nutrition in Pre-Term Infants:
Influence on the Development of Nephrocalcinosis 227
*B. Hoppe, O. Datwyler, C. Holm, I. Forster, S. Fanconi,
N. Blau, and E. Leumann*

- Arterial to Intramucosal pH Gradient Does Not Predict
Mortality in the Intensive Care Unit 229
*C. D. Gomersall, G. M. Joynt, T. A. Buckley, K. M. Ho,
R. J. Young, and T. E. Oh*

- Stapedial Reflex in Cephalic Tetanus 231
*C. de Souza, D. R. Karnad, R. A. de Souza, A. Raje,
K. Mansukhani, and G. H. Tilve*

- Subject Index** 233
