
Table of Contents

1 General Fundamentals

1.1	A Historical Overview of the Development of Contrast Media for Diagnostic Imaging Procedures in Radiology H. J. MAURER and W. CLAUSS	1
1.2	Chemistry of Positive X-Ray Contrast Media P. BLASZKIEWICZ	6
1.3	Structure – Toxicity Relationships and Molecule Design P. DAWSON	15
1.4	Relevant Results of Toxicity Studies of Non-Ionic X-Ray Contrast Media for Estimating the Risk to Man C. STARK	16
1.5	Physicochemical Properties of Contrast Media: Osmotic Pressure, Viscosity, Solubility, Lipophilicity, Hydrophylicity, Electrical Charge U. SPECK	24
1.6	Pharmacokinetics of Contrast Media W. KRAUSE and G. SCHUHMANN-GAMPIERI	31
1.7	Clinical Documentation of the Tolerance, Safety and Efficacy of X-Ray Contrast Media E. ANDREW, W. CLAUSS, A. ALHASSAN and H. P. BOHN	40
1.8	Statistical Considerations in the Design and Analysis of Clinical Trials J. KAUFMANN	43

2 Pharmaceutical Quality and Stability of Iodinated X-Ray Contrast Media

2.1	What are the Steps in the Production of X-Ray Contrast Media? D. HERRMANN	58
2.2	Which Chemical Degradation Products are Formed? D. HERRMANN	59
2.3	What Additives do X-Ray Contrast Media Solutions Contain? D. HERRMANN	60
2.4	What is the Importance of Additives in Contrast Medium Formulations? P. DAWSON	61
2.5	How is the Sterility of X-Ray Contrast Media Assured? D. HERRMANN	62
2.6	How is the Chemical Stability of Contrast Media Checked? D. HERRMANN	63
2.7	How are X-Ray Contrast Media Checked for Freedom from Pyrogens? D. HERRMANN	65
2.8	To What are Colour Changes of Contrast Media Attributable? D. HERRMANN	65
2.9	Does Particulate Contamination Occur in X-Ray Contrast Media, and How Important Is It? D. HERRMANN	66
2.10	Which Factors Reduce the Stability of X-Ray Contrast Media, and What Are the Implications of Storage Recommendations? D. HERRMANN	67
2.11	What Precautions Are Necessary in Drawing Up X-Ray Contrast Media into Syringes and in Administering Them Using Infusion Devices and Motorised Pumps? D. HERRMANN	70
2.12	How Long Do X-Ray Contrast Media Remain Usable After the Original Container Has Been Opened? D. HERRMANN	71
2.13	May X-Ray Contrast Media be Resterilised, Diluted or Mixed with Other Drugs? D. HERRMANN	71

2.14	Can the Re-Use of Disposable Catheters for Angiography be Justified?	
	M. THELEN	73
3	Influence of Contrast Media on Organs and Vessels	
3.1	What are the Mechanisms of Toxicity Associated with Contrast Media?	
	P. DAWSON	75
3.2	Do Contrast Media Affect the Viscosity of Blood?	
	N.H. STRICKLAND	76
3.3	Are there any Differences Between Ionic and Nonionic Contrast Media in Their Effect on Coagulation?	
	P. DAWSON	79
3.4	Do Contrast Media Affect Cardiovascular Function?	
	P. DAWSON	80
3.5	Do Contrast Media Affect Pulmonary Function?	
	P. DAWSON	81
3.6	Do Contrast Media Affect Hepatic Function?	
	V. TAENZER	83
3.7	Do Contrast Media Lead to Impaired Kidney Function?	
	J.E. SCHERBERICH	84
3.8	Do Iodinated X-Ray Contrast Media Affect Thyroid Function?	
	B. GLÖBEL	86
3.9	What Is the Relationship Between Iodinated Contrast Media and the Blood-Brain Barrier?	
	M. R. SAGE	87
3.10	Do Contrast Media Affect the Central Nervous System?	
	M. R. SAGE	89
3.11	Do Contrast Media Affect Blood Vessel Walls?	
	F. LAERUM	92
3.12	Can X-Ray Contrast Media Affect the Results of Laboratory Tests?	
	W. JUNGE	94

4	Determination of Risk Factors Regarding the Administration of Contrast Media	
4.1	In Which Patients is the Administration of X-Ray Contrast Media Associated with an Increased Risk?	
	W. CLAUSS	96
4.2	How Big is the Risk of an Examination with X-Ray Contrast Media of Patients with Known Hypersensitivity to CM and for Allergic Patients?	
	W. CLAUSS	98
4.3	Does an Existing Allergy to Iodine Mean an Increased Risk for an X-Ray Contrast Medium Examination?	
	W. CLAUSS	99
4.4	Why does the Administration of Iodinated Contrast Media to Patients with Manifest or Latent Hyperthyroidism Represent a Risk?	
	B. GLOEBEL	100
4.5	Why does the Administration of Iodinated Contrast Media Represent a Risk to Patients with Non-Toxic Nodular Goitre?	
	B. GLOEBEL	101
4.6	How Do I Recognise Hyperthyroidism or the Presence of Non-Toxic Nodular Goitre?	
	B. GLOEBEL	102
4.7	Does Underlying Cardiovascular Disease Constitute an Increased Risk in Contrast Media Administration?	
	P. DAWSON	103
4.8	Why is Pre-Existing Lung Disease a Risk for the Administration of Contrast Media?	
	P. DAWSON	104
4.9	Why Does Previous Renal Failure Represent a Risk?	
	J. E. SCHERBERICH	104
4.10	Why Does Previous Diabetes Mellitus Represent a Risk?	
	J. E. SCHERBERICH	106
4.11	Why Does Previous Paraproteinaemia Represent a Risk?	
	J. E. SCHERBERICH	107
4.12	How Can the Risk of Provoking a Hypertensive Crisis in Patients with Phaeochromocytoma be Reduced?	
	P. DAWSON	108

4.13	Does the Examination of Dehydrated Patients Represent an Increased Risk? J. E. SCHERBERICH	109
4.14	Are Patients with Autoimmune Disorders at Any Particular Risk on Contrast Media Administration? P. DAWSON	110
4.15	Does the Administration of Iodinated Contrast Media to Patients with Sick Cell Anaemia Result in Further Change in Erythrocytic Shape? R. DICKERHOFF	111
4.16	Are Contrast Media-Induced Side Effects Dependent on Age? H. KATAYAMA	112
4.17	Can Contrast Media Procedures Be Carried Out Despite Defined Risks? P. DAWSON	113
4.18	What Interactions are Known Between Contrast Media and Other Medications? P. DAWSON	114
4.19	What Effects Do Iodinated Contrast Media Have When Administered During Pregnancy or Lactation? K. A. WANDL-VERGESSLICH and H. IMHOF	116
5	Prophylactic Measures	
5.1	What Is the Place of Fasting and Dehydration Before Contrast Media Administration? W. CLAUSS	118
5.2	Can Hypersensitivity Reactions to Contrast Media be Predicted Through Preliminary Testing? W. CLAUSS and V. TAENZER	120
5.3	Is Sedation Indicated Before Administering Contrast Media? G. WISSER	121
5.4	Does General Anaesthesia Prevent the Occurrence of Contrast Media-Induced Side Effects? G. WISSER	122
5.5	Can the Rate of Contrast Media-Induced Side Effects be Lowered by Premedication with Antihistamines? R. TAUBER	123

5.6	Can the Adverse Reaction Rate Be Reduced by Administration of Corticosteroids?	
	W. CLAUSS	124
5.7	How Important is Pharmacoprophylaxis of Hyperthyroidism and How Can it Be Performed?	
	B. GLOEBEL	126
6	Informing the Patient Prior to Contrast Media Administration	
6.1	What is the Patient's "Right to Know" Prior to an X-Ray Examination Using Contrast Media?	
	H. J. MAURER and W. SPANN	127
6.2	What Special Information Should a Healthy Volunteer/Patient Receive Who is Participating in a Clinical Study of a New Drug?	
	W. CLAUSS and E. ANDREW	129
7	Administration of Contrast Media	
7.1	Are Contrast Media Heated to Body Temperature Better Tolerated?	
	P. DAWSON	131
7.2	Are There Any Guidelines for Maximum Doses in Angiography?	
	P. DAWSON	132
7.3	Are There Any Guidelines for Maximum Doses in Myelography?	
	I. O. SKALPE	133
7.4	Are There Any Guidelines for Maximum Doses in Cholegraphy?	
	V. TAENZER	133
7.5	Can "Maximum" Doses be Exceeded?	
	P. DAWSON	134
7.6	Does the Injection Rate Affect the Tolerance?	
	P. DAWSON	135
7.7	What Fluids Can Be Recommended for Flushing Catheters?	
	P. DAWSON	136
7.8	Are Contrast Media Dialysable?	
	J. E. SCHERBERICH	137
7.9	What are the Sequelae of Inadvertent Paravascular Administration of Iodinated Contrast Media?	
	W. CLAUSS	138

8 Adverse Reactions and Their Pathophysiology and Management

8.1	What Adverse Reactions Can Be Expected After Intravascular Administration of Iodial Containing Contrast Media?	
	R. G. GRAINGER	141
8.2	Do Late-Occurring Adverse Reaction to Contrast Media Necessitate Longer Supervision of the Patient?	
	P. DAVIES	144
8.3	What Adverse Reactions to Contrast Media are Dose Independent or Dependent?	
	H. KATAYAMA	146
8.4	What Are the Mediators of Anaphylactoid Reactions to Iodinated Contrast Media?	
	P. DAWSON	148
8.5	How Often Can Late Reactions be Expected After Administration of Radiographic Contrast Media	
	K. BROCKOW and J. RING	149
8.6	Which Are the Clinical Manifestations of Late Reactions to Radiographic Contrast Media?	
	K. BROCKOW and J. RING	150
8.7	What Is the Pathophysiology of Late Reactions to Radiographic Contrast Media?	
	K. BROCKOW and J. RING	151
8.8	Are Antibodies to Radiographic Contrast Media Known?	
	R. C. BRASCH	151
8.9	Are There Allergies to Contrast Media?	
	R. C. BRASCH	152
8.10	Can Sensitization Due to Frequent Contrast Media Administration be Observed?	
	R. C. BRASCH	153
8.11	Can Epileptogenicity and Arachnoiditis be Observed After Myelography with Nonionic Contrast Media?	
	I. O. SKALPE	154

9	Clinical Use of Iodinated Contrast Media for the Visualization of Vessels, Organs and Organ Systems	
9.1	Cerebral Angiography I. O. SKALPE	155
9.2	Spinal Angiography and Phlebography A. THRON	158
9.3	Angiography of the Extremities H. J. MAURER	163
9.4	Phlebography B. HAGEN	169
9.5	Direct Lymphography and Indirect Lymphangiography H. WEISSLEDER	174
9.6	Angiocardiography M. J. THORNTON and P. WILDE	180
9.7	Angiographic Procedures for the Liver, Spleen, Pancreas and Portal Venous System W. RÖDL	189
9.8	Computed Tomography in the Liver, Pancreas and Spleen A. ADAM and P. DAWSON	197
9.9	Visualization of the Gastrointestinal Tract C. I. BARTRAM, B. LAERMANN and P. O'BRIEN	203
9.10	Cholecystography and Cholangiography V. TAENZER	218
9.11	Intravenous Urography P. DAWSON	220
9.12	Urethrography and Micturating Cystrography, Cavernosography, and Seminal Vesiculography and Vasography D. RICKARDS	224
9.13	Visualization of the Kidneys and the Adrenal Glands G. P. KRESTIN	229
9.14	Contrast Media in Gynaecology H. J. MAURER AND J. G. HEEP	235
9.15	Arthrography V. PAPASSOTIRIOU	239

9.16 Contrast Media for Paediatric Patients	
J. TRÖGER	249
9.17 What is the Role of Newer Contrast Media in Interventional Radiology?	
P. DAWSON	253
9.18 Computer Tomography Angiography (CTA)	
S. C. RANKIN	255
9.19 Magnetic Resonance Angiography (MRA)	
J. F. M. MEANEY	265
9.20 Carbon Dioxide Angiography	
S. HASHIMOTO and K. HIRAMATSU	273
10 Contrast Media for Magnetic Resonance Imaging and Ultrasound	
10.1 Contrast Media for Clinical Magnetic Resonance Imaging	
H. P. NIENDORF, T. WELS and V. GEENS	276
10.2 Ultrasonographic Contrast Media	
A. BAUER, R. SCHLIEF and H. P. NIENDORF	290
Subject Index	299
