Methods of Obtaining and Preparing Cervical Tissue for Histological Examination	1
Operative Procedures	1
Preparation of the Cervical Specimen	2
 Normal Histology, Regeneration, and Repair	4
Normal Ectocervix	4
Ascending Repair	10
Normal Endocervix	14
Descending Repair	18
Transformation Zone	24
 Vestigial and Heterotopic Tissues	26
Mesonephric Duct Remnants and Hyperplasia	26
Müllerian Duct Remnants and Metaplasia	28
Heterotopic Ectodermal and Mesodermal Structures	33
 Hormonally Induced Changes	35
Effects of Estrogen	35
- Parakeratosis and Hyperkeratosis of the Ectocervix	35
Cystic Hyperplasia of the Endocervix	35
Effects of Endogenous Progesterone Under Hypersecretion	40
Glandular and Cystic Hyperplasia of the Endocervix	40
Effects of Exogenous Gestagens	42
Adenomatous Hyperplasia of the Endocervix	42
Microglandular Hyperplasia of the Endocervix	47
Glandular Papillary Ectropium	48
Polyps of the Ecto- and Endocervix	48
 Inflammatory Lesions	51
Nonspecific Ecto- and Endocervicitis	51
Specific Inflammations	56
Viral Infections	56
Bacterial Infections	61
Parasitic Infections	64

Fungal Infections	64
Infections of Unknown Etiology	66
Irradiation Changes	66
Benign Tumors	69
Epithelial Tumors	69
Mesenchymal Tumors	72
Mixed Tumors	74
Premalignant Lesions	76
Introduction	76
Etiology and Pathogenesis	76
Histology and Immunohistochemistry	78
Dysplasia and Carcinoma In Situ	78
Squamous Cell Type	80
Reserve Cell Type	88
Adenocarcinoma In Situ	103
Biological Behavior	108
Malignant Tumors	109
Epithelial Tumors	109
Squamous and Reserve Cell Types	109
Microinvasive Carcinoma	109
Invasive Carcinoma	116
Glandular Type	128
Mucinous Adenocarcinoma	131
Endometrioid Adenocarcinoma	139
Clear Cell Adenocarcinoma	141
Serous Papillary Carcinoma	142
Mesonephric Adenocarcinoma	144
Mixed Type	148
Adenosquamous Carcinoma	148
Mucoepidermoid Carcinoma	148
Adenoid Type	153
Adenoid Cystic Carcinoma	153
Adenoid Basal Carcinoma	154
Heterotopic Type	155
Neuroendocrine Carcinomas	155
Neurogenic Tumors	157
Malignant Melanoma	158
Mesenchymal Tumors	158
Mesodermal Mixed Tumors	162
Metastatic Tumors	169
