## Part I: Introduction

### **1 Introduction to the grammar — 3**

- 1.1 The name Eyak — 4
- 1.2 Typological overview — 5
  - 1.2.1 Sound system — 5
  - 1.2.2 Verbs — 7
  - 1.2.3 Nouns — 12
  - 1.2.4 Postpositions and preverbs — 14
  - 1.2.5 Adjectives — 15
  - 1.2.6 Person-marking and alignment — 16
  - 1.2.7 Valency-changing operations — 18
  - 1.2.8 Negation — 20
- 1.3 Orthography and writing system — 21
- 1.4 Conventions — 23
  - 1.4.1 Exemplification and listing — 25
  - 1.4.2 Identification of sources of examples — 26
  - 1.4.3 Example glossing — 28
- 1.5 Priorities — 29
- 1.6 Comparative-historical approach, philology — 31
- 1.7 Evaluation, critique — 34
- 1.8 Organization of the grammar — 38

### **2 The Eyak language — 39**

- 2.1 History of the Eyak language — 39
  - 2.1.1 Eyak language prehistory — 39
  - 2.1.2 Late prehistory — 44
  - 2.1.3 History of Eyak as a spoken language, 1800 to present — 45
- 2.2 Eyak dialectology — 53
- 2.3 Eyak in the Alaska Native Language Archive — 59

| 3.3      | The American period — <b>96</b>                              |
| 3.3.1    | Jacobsen 1883 — <b>97</b>                                    |
| 3.3.2    | Krause 1885 and Boas — <b>98</b>                             |
| 3.3.3    | Harriman 1899 — <b>100</b>                                   |
| 3.3.4    | Frederica de Laguna — <b>101</b>                             |
| 3.3.5    | Harrington 1940 — <b>110</b>                                 |
| 3.3.6    | Hoijer 1946 — <b>113</b>                                     |
| 3.3.7    | Li 1952 — <b>113</b>                                         |
| 3.3.8    | Austerlitz 1961 — <b>115</b>                                 |
| 3.3.9    | Krauss 1961–2019 — <b>117</b>                                |
| 3.4      | Speakers in Eyak documentation 1961–2007 — <b>127</b>        |
| 3.4.1    | Anna Nelson Harry — <b>128</b>                               |
| 3.4.2    | George Johnson — <b>129</b>                                  |
| 3.4.3    | Lena Saska Nacktan — <b>130</b>                              |
| 3.4.4    | Marie Smith Jones — <b>132</b>                               |
| 3.4.5    | Sophie Borodkin — <b>134</b>                                 |
| 3.4.6    | Mike Sewak — <b>135</b>                                      |
| 3.5      | Summary to 2006 — <b>135</b>                                 |

## Part II: Phonology

### 4 Phonemes — 141

- 4.1 Obstruents — 141
- 4.1.1 Obstruent system and practical orthography — 142
- 4.2 Sonorants — 144
- 4.2.1 Sonorant system and practical orthography — 147
- 4.3 Vowels — 147
- 4.3.1 Nasal vowels and nasal sonorants — 152
- 4.3.2 Reduced vowel contrasts in stems — 154
- 4.3.3 Reduced stem vowel contrasts and the status of labialization in velar obstruents — 158
- 4.3.4 Excursus: contrast between rounded and unrounded velars next to full vowels — 160
- 4.3.5 Reduced vowel contrasts in prefixes — 163
- 4.3.6 Vowel system and practical orthography — 169

### 5 Prosody — 171

- 5.1 Syllable definition and structure — 171
- 5.2 Stress — 173
- 5.3 Intonation — 177

### 6 Morphophonemics — 180

- 6.1 Umlauting nasalization — 180
- 6.2 *w* ~ *m* alternation — 182
- 6.3 *l* ~ *n* alternations — 183
- 6.3.1 *ʔAw* and *ʔAl* plus *-X* plus *-d* — 185
- 6.3.2 *l* ~ *n* alternations in verb prefixes — 185
- 6.3.3 Qualifier *l* ~ *n* with postpositions — 188
- 6.3.4 *l* ~ *n* qualifiers plus *l* ~ *n* (syllabic) stem-initials — 190
- 6.4 Denasalization adjacent to *n*; *-nʔA-* > *-ʔlA-*; *-ny-*; *-nl-* — 195
- 6.5 Denasalization across *ʔ* and *h*; *ny* and *nl* — 196
- 6.6 Combinations and expansion of reduced vowels in verb prefixes — 198
- 6.6.1 CV+*ʔi-* — 198
- 6.6.2 Delabialization of *\*CwA-* — 199
- 6.6.3 Expansion of qualifier vowel in pre-stem syllable in future and directive — 201
- 6.7 Verbal prefix *AN-* — 202
- 6.7.1 Possible relationship between *AN-* and *ʔi-* — 204
- 6.8 *ʔA-* ~ *Ø* — 204
- 6.9 CV+*yi-* — 205
- 6.10 Vowel harmony — 206

|          |                                                                                          |
|----------|------------------------------------------------------------------------------------------|
| 6.11     | Vowel fronting — <b>207</b>                                                              |
| 6.12     | Morphophonemics for <i>'i:lih-~</i> — <b>208</b>                                         |
| 6.13     | Morphophonemics of the qualifier combination <i>d+l</i> (> <i>dla:- ~</i> ) — <b>208</b> |
| 6.14     | Consonant morphophonemics — <b>210</b>                                                   |
| 6.14.1   | Anomalous <i>gu-k-a:</i> — <b>213</b>                                                    |
| 6.14.2   | Glottal stop sequences — <b>213</b>                                                      |
| 6.15     | “Sandhi” — <b>213</b>                                                                    |
| 6.16     | Structure and morphophonemics of prefixes and of preverbals — <b>215</b>                 |
| 6.17     | Epenthetic schwa — <b>217</b>                                                            |
| 6.17.1   | Epenthesis in noun plus adjective — <b>217</b>                                           |
| 6.17.2   | Epenthesis in compounds — <b>221</b>                                                     |
| 6.17.3   | Epenthesis in complex preverbals and phrasal nouns — <b>223</b>                          |
| 6.17.4   | ʼA in deverbalizations — <b>224</b>                                                      |
| 6.17.5   | Metathesis of <i>-q'-dA-</i> , and the possibility of double epenthesis — <b>225</b>     |
| 6.17.6   | Post-sonorant non-epenthetic schwa — <b>226</b>                                          |
| 6.17.7   | “Epenthetic” <i>i-</i> — <b>226</b>                                                      |
| 6.17.8   | Synopsis for epenthesis — <b>227</b>                                                     |
| <b>7</b> | <b>Stem Structure and Variation — 229</b>                                                |
| 7.1      | Stem structure — <b>229</b>                                                              |
| 7.2      | Statistical analysis of stem structure — <b>232</b>                                      |
| 7.2.1    | Number of stems altogether and for each onset and coda — <b>232</b>                      |
| 7.2.2    | Correlations in place and manner of articulation between onset and coda — <b>234</b>     |
| 7.2.3    | Full vowel nucleus timbre and correlations with onset — <b>236</b>                       |
| 7.2.4    | Nucleus timbre correlated with coda and onset obstruent series — <b>238</b>              |
| 7.2.5    | Stigma and coda manner of articulation — <b>240</b>                                      |
| 7.3      | Stem variation — <b>244</b>                                                              |
| 7.3.1    | Inflectional stigmatic verb stem variation — <b>245</b>                                  |
| 7.3.2    | Variable open stems — <b>245</b>                                                         |
| 7.3.3    | Invariable open stems — <b>249</b>                                                       |
| 7.3.4    | Variable closed stems — <b>250</b>                                                       |
| 7.3.5    | Expansion, status of stigma — <b>253</b>                                                 |
| 7.3.6    | Derivational stigmatic stem variation — <b>255</b>                                       |
| 7.3.7    | Other types of stem variation — <b>260</b>                                               |
| 7.4      | Disyllabic and sonorant-final stems — <b>263</b>                                         |
| 7.4.1    | Disyllabics — <b>263</b>                                                                 |
| 7.4.2    | “Sesquisyllabics” and sonorant codas in Russian sources — <b>271</b>                     |
| 7.4.3    | Variation involving coda sonorants and disyllables — <b>276</b>                          |
| 7.4.4    | Variation between disyllables and monosyllables — <b>278</b>                             |
| 7.5      | Stem-final CC clusters — <b>279</b>                                                      |

## Part III: Morphology

- 8 Introduction to the morphology — 289**
  - 8.1 Morphological categories — 289
  - 8.2 Order of presentation — 290
  - 8.3 Constraint against duplication of prefixes — 291
  
- 9 Pronouns — 293**
  - 9.1 Personal pronoun prefixes — 293
  - 9.2 Independent personal pronouns — 298
  - 9.3 Notes on reciprocal and reflexive — 300
  - 9.4 Demonstrative pronouns — 301
  
- 10 Verb morphology — 303**
  - 10.1 Introduction to verb morphology — 303
    - 10.1.1 Treatment of verb morphology in this grammar — 305
    - 10.1.2 Verb theme, verb word — 306
    - 10.1.3 The concept of verb base — 307
  - 10.2 Verb prefix zones — 307
    - 10.2.1 Zone A — 308
    - 10.2.2 Zone B — 309
    - 10.2.3 Zone C — 314
    - 10.2.4 Zone D — 315
  - 10.3 Verb suffix sequence — 317
  
- 11 Classifiers — 321**
  - 11.1 Classifier morphophonemics — 322
  - 11.2 Classifier system and order of presentation — 323
  - 11.3 Regular processes entailing use of the classifier *dA-* — 324
    - 11.3.1 *D-* with direct reflexives, direct reciprocals, and passives — 324
    - 11.3.2 *D-* with indirect reflexives and reciprocals — 326
    - 11.3.3 *D-* with perambulatives — 328
    - 11.3.4 *D-* with iterative *q'e'* — 328
    - 11.3.5 *D-* with covert reciprocals — 330
    - 11.3.6 *D-* with detransitivization with indeterminate direct object *'i-* — 331
    - 11.3.7 *D-* with detransitivization with indefinite object *k'u-* — 337
    - 11.3.8 *D-* with errative<sub>2</sub> and 'stagger' — 338
  - 11.4 Regular processes entailing the use of the classifier *L-* — 339
    - 11.4.1 Causative — 340
    - 11.4.2 *L-* with intensives — 344
    - 11.4.3 *L-* with postpositional phrase *o-X* — 345
    - 11.4.4 *L-* with acquisitionals — 348

|           |                                                                                              |
|-----------|----------------------------------------------------------------------------------------------|
| 11.4.5    | <i>L</i> - with comparative — <b>349</b>                                                     |
| 11.4.6    | <i>L</i> - with transitive classificatory verbs — <b>349</b>                                 |
| 11.5      | Regular derivational use of combined <i>L</i> - and <i>dA</i> - (> <i>LA</i> -) — <b>350</b> |
| 11.6      | Thematic or lexically determined classifiers — <b>352</b>                                    |
| 11.6.1    | Ø- classifier statives limited to Active perfective — <b>352</b>                             |
| 11.6.2    | Statistical survey — <b>353</b>                                                              |
| 11.6.3    | “Middle voice” — <b>355</b>                                                                  |
| 11.6.4    | Classifier in denominal verbs — <b>356</b>                                                   |

| 17.10.1   | <i>'i:lih-</i> ~ 'mental' — <b>679</b>                                   |
| 17.10.2   | <i>q-</i> 'plurality' — <b>680</b>                                       |
| 17.10.3   | <i>d-</i> qualifier — <b>684</b>                                         |
| 17.10.4   | <i>l-</i> qualifier — <b>705</b>                                         |
| 17.10.5   | <i>G-</i> qualifier — <b>735</b>                                         |
| 17.10.6   | <i>X-</i> qualifier — <b>747</b>                                         |
| 17.10.7   | <i>g-</i> qualifier — <b>757</b>                                         |
| 17.10.8   | <i>ti:-l-</i> qualifier (combination) — <b>776</b>                       |
| 17.10.9   | <i>qi:-</i> qualifier(s?) — <b>777</b>                                   |
| 17.10.10  | <i>/X-</i> qualifier — <b>783</b>                                        |
| 17.10.11  | <i>ku:l-</i> ~ <i>ku:n-</i> qualifier — <b>787</b>                       |
| 17.10.12  | <i>Xu:l-</i> qualifier — <b>788</b>                                      |
| 17.10.13  | <i>k'ush-</i> qualifier — <b>789</b>                                     |
| 17.10.14  | <i>ch'a:n-d-</i> qualifier (combination) — <b>790</b>                    |
| 17.10.15  | <i>djAXA-</i> qualifier — <b>791</b>                                     |
| 17.10.16  | <i>tsin'-</i> qualifier — <b>791</b>                                     |
| 17.10.17  | <i>qu:(l)-</i> qualifier — <b>793</b>                                    |
| 17.10.18  | <i>y-</i> qualifier — <b>793</b>                                         |

- 17.10.19 s- qualifier — **801**
- 17.10.20 w- as a possible qualifier — **803**

## **18 Nominals — 805**

- 18.1 Nominal stems vs. verbal stems — **805**
- 18.2 Statistics of nominal types — **807**
- 18.3 Noun-classification by qualifiers — **807**
- 18.4 Stem nouns — **809**
- 18.5 Possessed nouns — **810**
  - 18.5.1 Possessed nouns without qualifiers — **810**
  - 18.5.2 Possessed nouns with qualifiers — **812**
  - 18.5.3 *-:n-dAleh* ‘horn’ and *-Xu:nLAYah* ‘tooth’, possessed nouns from verbs — **815**
- 18.6 Part nouns and nouns of the form *-L-STEM-L* — **816**
- 18.7 *t’ahL* ~ *-L-t’ahL* ‘leaf, feather’ — **820**
- 18.8 Nouns attested both possessed and unpossessed — **820**
  - 18.8.1 *ts’Al* ~ *-ts’Alih* ‘bone’ — **821**
  - 18.8.2 *Xe:* ~ *-Xe* ‘grease’ — **822**
  - 18.8.3 *ya:* ~ *-ya* ‘thing’ — **823**
  - 18.8.4 Other stem nouns attested both possessed and unpossessed — **823**
- 18.9 Unpossessed nouns — **828**
  - 18.9.1 Unpossessed nouns with qualifiers — **829**
- 18.10 Phrasal nouns — **832**
  - 18.10.1 Compounds, with unpossessed nouns as head — **832**
  - 18.10.2 Compounds, with possessed nouns as head — **836**
  - 18.10.3 Phrasal nouns with unpossessed nouns as head with postpositional phrases — **837**
- 18.11 Nominalization of postpositions — **839**
- 18.12 Nominalizations of verbs: lexicalized relativizations — **840**
  - 18.12.1 Active imperfective lexicalized relativizations — **842**
  - 18.12.2 “Instrumental” relativizations — **846**
  - 18.12.3 Lexicalized relativizations of other than Active imperfective — **852**
  - 18.12.4 Status of relativizations and morphosyntactic definition of lexicalization — **862**
- 18.13 Nominalizations of verbs: deverbalizations — **865**
  - 18.13.1 Gerund — **868**
  - 18.13.2 Verbal nouns — **876**
  - 18.13.3 Instrumental and descriptive deverbalizations, *-L* suffixation — **883**
  - 18.13.4 Object prefixes in deverbalizations — **899**
  - 18.13.5 External syntax of deverbalizations — **906**
  - 18.13.6 Acquisitional — **909**
- 18.14 Loanwords — **913**
  - 18.14.1 Loans from Tlingit — **914**

- 18.14.2      Loans from Chinook Jargon — **922**
- 18.14.3      Loans from Chugach — **923**
- 18.14.4      Loans from Russian — **925**
- 18.14.5      Loans from Ahtna — **927**
- 18.14.6      Diffusions — **928**
- 18.14.7      Loans from English — **930**
- 18.15        Unanalyzable nouns — **931**

## **19      Adjectives — 934**

- 19.1        Dependent use — **936**
- 19.2        Independent use, syntax — **939**
- 19.3        Multiple adjectives — **942**
- 19.4        Adverbialization with *-dah* — **943**
- 19.5        Adjectives with thematic (*'i-*)*Gi-* — **943**
- 19.6        Adjectives with preverbals — **944**
- 19.7        Adjectives with anatomical and thematic qualifiers — **945**
- 19.8        Epithets and names — **946**
- 19.9        Lexicalizations — **947**
- 19.10      Diminutive *-kih* — **948**

## **20      Numerals — 950**

- 20.1        Morphology of abstract counting — **950**
- 20.2        Morphology of non-abstract counting — **953**
- 20.3        Syntax, ordinals — **955**
- 20.4        Measurement — **955**
- 20.4.1      Time measurement — **956**
- 20.4.2      Distance measurement — **956**
- 20.5        Arithmetic — **957**
- 20.6        Older sources on numerals — **957**

## **21      Adverbials — 961**

- 21.1        Adverbs — **961**
- 21.1.1      Adverbs with adverbializer *-dah* — **961**
- 21.1.2      Other adverbs, without *-dah* — **962**
- 21.2        Areals and demonstrative adverbials — **965**
- 21.2.1      Areal adverbials — **966**
- 21.2.2      Demonstrative adverbials — **968**
- 21.3        Interjections — **971**
- 21.4        Imitatives and poetics — **973**

## **22      Clitics — 975**

- 22.1        Proclitics — **975**

22.2            Enclitics — **979**

**Part IV: Syntax**

**23        Interrogatives — 991**

23.1            Content questions — **991**  
23.2            Prefixation, proclitics — **993**  
23.3            Affixation (or compounding) — **993**  
23.4            Syntax of interrogatives — **999**  
23.5            *de:ga'da:Xd* 'when?' — **1005**  
23.6            *k'e:'wAXd* 'why?' — **1006**  
23.7            *tla:* 'where?' — **1007**

**24        Negation — 1010**

24.1            Thematic negative — **1011**  
24.2            Cautionary prohibitive — **1012**  
24.3            Full Negation — **1014**  
24.3.1          *dik'* alone, in non-verbal constructions — **1014**  
24.3.2          The frame *dik'* \_\_\_\_-G in non-verbal constructions — **1015**  
24.3.3          The frame *dik'* \_\_\_\_-G in verbal constructions — **1018**  
24.3.4          Negative words *k'udu:*, *k'ude:*, *k'udAX*, *k'ude:dah* — **1023**  
24.3.5          Avoidance of double negatives — **1029**  
24.4            Negative Inceptive perfective, 'not yet' — **1030**  
24.4.1          Negative Inceptive perfective type one — **1032**  
24.4.2          Negative Inceptive perfective type two — **1034**  
24.4.3          Negative Inceptive perfective, mixed type — **1035**  
24.5            Other negative-like constructions — **1036**  
24.5.1          Prohibitive *ya'Xu:* — **1036**  
24.5.2          *k'a:di'da:* 'useless to' — **1037**  
24.5.3          *o-Xda:d* 'without' — **1038**  
24.5.4          *k'uda:d* 'nowhere' — **1038**

**25        Clause-level syntax — 1039**

25.1            Basic word order and syntactic structure — **1041**  
25.1.1          Notes on clauses with Complement — **1047**  
25.1.2          Pronouns in the preverbal constituent, especially demonstratives — **1049**  
25.1.3          Relativizer enclitic spread, ambiguities — **1051**  
25.1.4          Demonstratives as determiners and as pronouns, ambiguities — **1060**  
25.1.5          Third person differentiation with o/P — **1061**  
25.1.6          Further ambiguities — **1062**  
25.2            Syntactic structure of noun phrases with possessives — **1064**

## 25.3 Non-verbal clauses — 1069

**26 Complex clauses — 1072**

## 26.1 Relative clauses — 1072

## 26.2 Complex clauses with postpositional subordination — 1078

26.3 Complex clauses with *'ida: ~ 'idA-* — 108426.4 Complex clauses with verb stem *-le(')* — 1090

## 26.5 Complex clauses with subordinate clause in desiderative mode — 1091

26.6 Complex clauses with the preverb *qi'* — 1093

## 26.7 Other complex clauses, with zero subordinator — 1095

## 26.8 Mode-aspect in complex clauses — 1098

**27 Enclitic series — 1100**

## 27.1 Morphology of enclitic series — 1100

27.2 Syntax of *=q'* enclitics — 110227.2.1 Placement of *=q'* enclitics — 110227.2.2 Choice of reduced demonstrative with *=q'* — 111527.2.3 Reduced demonstratives with *=q'* and verbal enclitics *=inh* and *=inu:* — 1120

## 27.2.4 Text samples of particular interest — 1121

27.2.5 *q'unhAw, q'unhAl*, and other compound enclitic attachments — 112327.3 Enclitics with *=sh* (polar interrogative) — 112427.3.1 *=sh* — 112527.3.2 *=shuh* — 112827.3.3 *=shAw* — 113027.3.4 *=shunh* — 113227.3.5 *=shuhn:* — 113427.3.6 *=shunhAw* — 113427.3.7 *=inh* and *=inu:* plus *=sh* — 113527.4 Interrogative enclitic *=d* — 113627.5 Exclamatory *=duh ~* — 113727.6 Combinations of *=sh* and *=q'* enclitics — 114127.7 Combinations of *=sh* and *=d* enclitics — 114427.8 Possible combination *=d* and *=q'* enclitics — 1145

## 27.9 Historical summary for enclitic series — 1145

## 27.10 Copular uses of the enclitics — 1146
