

Foreword by the author	9
-------------------------------------	----------

Introduction

Terms and conditions	11
Meet our customers.....	12
Optimum training program.....	13
Risks of vibration training	15
Sport plates & plate settings.....	15
The tonic reflex.....	16
Familiarizing the customer with the vibration plate	17
Safety regulations.....	18

Warm-Up

Presentation of the major muscle groups.....	21
Muscle overview – download	21
Muscle Index (Front View).....	23
Muscle Index (Back View)	24
Warm-up exercises for the lower body	25
Warm-up exercises for the upper body	27
Warm-up exercises for the whole body	29

Training Implementation

Body-Toning works on a simple principle.....	31
Despite the success please never ignore	32
Tips for athletes and professional sportsperson: High Intensity Training (HIT) ...	33
For training	33

Training Sessions by Muscle Groups

Gastrocnemius Muscle.....	35
Tibialis Anterior Muscle	39
Quadriceps Femoris Muscle.....	40

Adductor Magnus Muscle	46
Adductor Femoris Muscle	55
Biceps Femoris Muscle	61
Gluteus Maximus Muscle	67
Straight and Oblique Abdominal Muscle	73
The Erector Spinae and the Small Deep Muscles	83
Latissimus Dorsi Muscle (part of the Autochthonous Muscles)	93
Pectoralis Major and Minor Muscle	100
Biceps Brachii Muscle	105
Triceps Brachii Muscle	112
Deltoid Muscle	119
Trapezius Muscle	122
Cervical Spine and Sternocleidomastoid Muscle	125
Extensor Carpi Ulnaris Muscle, Flexor Carpi Ulnaris Muscle	129
Extensor Digitorum Muscle and the Brachioradialis	129

Partner Training

Warm up (Partner Training)	131
Gastrocnemius Muscle (Partner Training)	133
Biceps Femoris Muscle (Partner Training)	134
Quadriceps Femoris Muscle (Partner Training)	136
Adductor Femoris Muscle (Partner Training)	138
Adductor Magnus Muscle (Partner Training)	138
Gluteus Maximus Muscle (Partner Training)	139
External Oblique Muscle of the Abdomen (Partner Training)	139
Rectus Abdominis Muscle (Partner Training)	140
Erector Spinae Muscles (Partner Training)	143
Pectoralis Major Muscle (Partner Training)	145
Triceps Brachii Muscle (Partner Training)	146
Biceps Brachii Muscle (Partner Training)	147
Deltoid Muscle and Latissimus Spinae Muscle (Partner Training)	149
Trapezius Muscle (Partner Training)	150

Disability Training

Disability training	151
How to train a customer with a “disability”	152
Paralysis	152

Endurance Training

Endurance training on the vibration plate	154
---	-----

Massage Exercises

Slow down	162
Massage as a slow down	162
Reduction of cellulite and fat burning	164
Back massage	165

Theoretical Part

Vibration training / acceleration plates – what is it?	167
What is whole body vibration training?	167
What exactly is a vibration?	168
Short overview of the different vibration plates	168
What effect does vibration training have on your body?	169
Nerves	169
Blood vessels	169
Hormones	170
Neurotransmitter	170
Cartilage	170
Tendons, Fascia, Connective Tissues, Capsules and Joints	170
Muscle tissue	170
Metabolism	171
Skin	171
Blood vessels	172
Bone	172
Hormones	172
Flexibility	172
Coordination	172

CONTENTS

Pain relief	173
Risks of vibration training	173
Pacemaker	173
Artificial joints and implants made of metal	173
Pregnancy	174
Thrombosis	174
Diabetes	174
Overview	174
Liability release	175
The Contraindication	175
Preparation for training	177
Location of the vibration plate	177
Training control	177
What does the customer expect from vibration training?	178
Fitness training	178
Flexibility training	178
Strength training	179
Massage	179
The correct position during vibration training	180
The correct position of the upper body	180
The correct joint angle	181
Stop training	181
Increase the levels and difficulty of the training	181
Question about vibration training	182
 Readers Notice	 189
Author Biography	190
A few images from 5 years of studio time	192
