

Contents

**The Biotechnological Potential of *Corynebacterium glutamicum*,
from *Umami* to *Chemurgy* 1**
Alain A. Vertès, Masayuki Inui, and Hideaki Yukawa

Promoters and Plasmid Vectors of *Corynebacterium glutamicum* 51
Miroslav Pátek and Jan Nešvera

Genome Engineering of *Corynebacterium glutamicum* 89
Nobuaki Suzuki and Masayuki Inui

Amino Acid Production by *Corynebacterium glutamicum* 107
Masato Ikeda and Seiki Takeno

Biorefinery Applications of *Corynebacterium glutamicum* 149
Toru Jojima, Masayuki Inui, and Hideaki Yukawa

Transcriptome/Proteome Analysis of *Corynebacterium glutamicum* 173
Volker F. Wendisch and Tino Polen

**Pathways at Work: Metabolic Flux Analysis of the Industrial Cell
Factory *Corynebacterium glutamicum* 217**
Judith Becker and Christoph Wittmann

**The Transcriptional Regulatory Network of *Corynebacterium
glutamicum* 239**
Jasmin Schröder and Andreas Tauch

**Regulation of Sugar Uptake, Glycolysis, and the Pentose Phosphate
Pathway in *Corynebacterium glutamicum* 263**
Haruhiko Teramoto and Masayuki Inui

TCA Cycle and Glyoxylate Shunt of *Corynebacterium glutamicum* 281
Michael Bott and Bernhard J. Eikmanns

Respiratory Chain and Energy Metabolism of *Corynebacterium glutamicum* 315
Kazunobu Matsushita

Amino Acid Exporters in *Corynebacterium glutamicum* 335
Masaaki Wachi

Protein Secretion Systems of *Corynebacterium glutamicum* 351
Alain A. Vertès

Cell Division Mechanism of *Corynebacterium glutamicum* 391
Michal Letek, María Fiuza, Almudena F. Villadangos,
Luís M. Mateos, and José A. Gil

Index 409
