

Table of contents

Brief contents/Overview of tools	5
Application areas of each tool	9
1 Introduction to the concept and application of this book	23
1.1 Structure of this book	23
1.2 How to use the book	23
1.3 The target audience of this book	24
1.4 The scope of this book	25
1.5 Skills and competencies for your personal development	25
1.6 Clarification on methodologies, models, tools and techniques	27
2 Problem solving approach and application	29
2.1 Problem solving	29
2.1.1 Different problem solving processes and approaches	30
2.1.2 The problem solving process used in this book	31
2.1.3 Mental thinking levels during problem solving	35
2.1.4 Problem solving process and consulting process	36
2.1.5 The author's assumptions	38
2.1.6 Macro logic project cycle – micro logic problem solving cycle	40
2.2 Categories of tools	44
2.3 How to select the right tool	48
2.3.1 Overview of tools	48
2.3.2 Where 'in' the problem solving process am I?	49
2.3.3 Checklist for problem solving processes to identify required tool ..	49
2.3.4 What is the right category?	50
2.3.5 How to compile the shopping list	50
2.3.6 Application sequence of tools	52
3 Diagnosis	54
3.1 Definition of a situation/problem	54
3.1.1 5W Problem questions	58
3.1.2 Problem definition	59
3.1.3 Boundary examination	65

3.1.4	Problem tree	68
3.1.5	From As-Is to To-Be	72
3.1.6	Problem goal twist	75
3.1.7	SPIN	77
3.1.8	Kepner/Tregoe problem diagnosis	79
3.1.9	Reverse the problem	81
3.1.10	Hypotheses	82
3.1.11	Hypothesis tree	83
3.1.12	Competing hypotheses	88
3.1.13	Issue tree	89
3.1.14	Influence matrix	92
3.1.15	Fishbone or Cause-effect tool	94
3.1.16	Black box	96
3.1.17	IS – IS NOT	99
3.1.18	Stakeholder expectation management	101
3.1.19	Stakeholder analysis	103
3.1.20	Stakeholder map	109
3.1.21	Stakeholder influence matrix	112
3.1.22	Stakeholder accordion	114
3.1.23	Stakeholder swapping	116
3.1.24	Context diagram	118
3.1.25	Silo view	122
3.1.26	Helicoptering	124
3.1.27	Mind map	125
3.1.28	Diagnosis plan	128
3.2	Information gathering	130
3.2.1	Desk research/database research	144
3.2.2	Interview (unstructured)	145
3.2.3	Socratic debate	146
3.2.4	Focus interview	150
3.2.5	Systemic questions	152
3.2.6	Six Pillars	156
3.2.7	Tripod (mixed)	160
3.2.8	Octagon	161
3.2.9	Focus groups (unstructured)	163
3.2.10	Survey/field study – dipstick	165
3.2.11	Direct observation (DILO = day in the life of)	167
3.2.12	Delphi or expert panel	168
3.2.13	Scenario analysis	169
3.2.14	Questionnaire (structured)	171
3.2.15	Climate assessment (structured)	173
3.2.16	Information gathering plan	177
3.2.17	5 Whys	178

3.3	Creativity	179
3.3.1	Brainstorming	182
3.3.2	Cardstorming	184
3.3.3	6-3-5	186
3.3.4	Questions circle	187
3.3.5	Lotus blossom	188
3.3.6	Irritating words	189
3.3.7	Mental provocation	191
3.3.8	Cross associations	192
3.3.9	Funny Man	194
3.3.10	Opponents advocate	195
3.3.11	Fishpond	197
3.3.12	Bionic	198
3.3.13	Synectics	198
3.3.14	Bisociations	202
3.3.15	Distraction	203
3.3.16	Provocative associations	204
3.3.17	RARA	205
3.3.18	Morphological matrix	207
3.3.19	Attribute listing	208
3.3.20	Nyaka (defect analysis)	209
3.3.21	Merlin technique/Osborn checklist	211
3.4	Information consolidation	214
3.4.1	Cornell notes	219
3.4.2	Pareto (80:20)	221
3.4.3	ABC	223
3.4.4	Information matrix	225
3.4.5	Card sorting	227
3.4.6	Affinity diagram	228
3.4.7	Venn diagram	230
3.4.8	Force field	232
4	Goals and objectives setting	235
4.1	Objectives tree	240
4.2	Goal hierarchy	243
4.3	Charter	246
4.4	Goal catalogue	247
4.5	X-matrix (Hoshin)	250
4.6	SMART goals	253
4.7	Goal grid	254
4.8	Well-defined outcomes	255
4.9	3 P statements	258
4.10	SNAP	259

5 Analysis	261
5.1 Strategic analysis	264
5.1.1 Value chain analysis	267
5.1.2 Critical success factor (CSF)	271
5.1.3 Hedgehog	274
5.1.4 SWOT and TOWS	277
5.1.5 Life cycle	284
5.1.6 5 Forces	289
5.1.7 Competitor analysis	293
5.1.8 Customer segmentation	297
5.1.9 Strategic market group	300
5.1.10 Environmental analysis (PEST)	304
5.1.11 Excursion: Introduction into strategic development	306
5.1.12 Business matrix	307
5.1.13 Product/market mix	312
5.1.14 Blue ocean	315
5.1.15 Strategic development options	319
5.1.16 Strategy matrix	324
5.2 Technical analysis (system, process, data, technology)	326
5.2.1 Architectural decomposition view	326
5.2.2 Functional decomposition	328
5.2.3 Process analysis	331
5.2.4 Interface analysis	334
5.2.5 Logical data relationship	338
5.2.6 Entity relationship diagram	340
5.2.7 Technology and systems landscape	342
5.2.8 Requirements catalogue	344
5.2.9 Logical and functional system modelling	346
5.3 Organisational analysis	348
5.3.1 Organisational structure	350
5.3.2 Diamond grading	355
5.3.3 Org structure versus process	356
5.3.4 Span of control	358
5.3.5 Organisational assessment	360
5.3.6 Powergram	361
5.3.7 Communication net	364
5.3.8 Communication matrix	366
5.3.9 Communication structures	370
 6 Decision making (incl. evaluation, prioritisation)	 372
6.1 Decision tree	377
6.2 Perspectives ³	379

6.3	Argument balance	380
6.4	Swap sorting	382
6.5	Pair ranking	382
6.6	Cross of beliefs	384
6.7	Polarities	385
6.8	Utility analysis	387
6.9	Nominal group	389
6.10	100 Points	391
6.11	Cartesian coordinates	392
6.12	Vroom Yetton	393
6.13	Risk analysis	396
6.14	Prioritisation matrices	401
6.15	Think 360	406
6.16	Distance mapping	408
6.17	Reflections	411
7	Project management tools	413
7.1	Project management activities, tools, terms and indicators of risk ...	414
7.1.1	Key project management activities and tools	414
7.1.2	Brief glossary of key project management terms	417
7.1.3	Warning signs of project risks	419
7.2	Project contract	421
7.3	LogFrame	424
7.4	Project roadmap/programme	430
7.5	Work breakdown structure	432
7.6	Gantt chart	436
7.7	Project work plan	437
7.8	Project environment analysis	438
7.9	Project structure	440
7.10	Project management roles and responsibilities	442
7.11	Project communication plan	445
7.12	Accountability matrix (CIDA)	449
7.13	Stakeholder communication	451
7.14	Workshop guideline	453
7.15	Expectation review	455
7.16	Booz ball evaluation	456
7.17	Six thinking hats	457
7.18	Action steps and reviews	458
7.19	Project management skills radar	459

8 Annex A – Check Questions	463
8.1 Check questions for a project start	463
8.2 Check questions to review ideas and qualitative information	464
8.3 Check questions to define the current situation – diagnostic	464
8.4 Check questions to define goals and objectives	465
8.5 Check questions during an analysis	466
8.6 Check questions during decision making	467
8.7 Check questions for the project initiation phase	468
 9 Annex B – Scenarios and tool lists	 469
9.1 Author’s top 10 tools	469
9.2 Scenario: Good practice for project and problem definition	469
9.3 Project planning and definition	471
9.4 Strategic analysis	472
9.5 Org analysis and org design	473
9.6 Organisational restructuring	474
9.7 Feasibility study	474
9.8 System development	475
9.9 Strategy workshop	476
9.10 Business process improvements	477
 Bibliography	 478
Application areas of each tool (in alphabetic order)	484
