Preface.....	ix
--------------	----

Part I Pattern Matching and Classification

1 Estimation in Feedback Loops by Stochastic Learning <i>Geir Horn, B. John Oomen.....</i>	3
2 Combining Exhaustive and Approximate Methods for Improved Sub-Graph Matching <i>Thomas Bärecke, Marcin Detyniecki.....</i>	17
3 Information Fusion Techniques for Reliably Training Intrusion Detection Systems <i>Francesco Gargiulo, Claudio Mazzariello, Carlo Sansone</i>	27
4 Use of Artificial Neural Networks and Effects of Amino Acid Encodings in the Membrane Protein Prediction Problem <i>Subrata K Bose, Antony Browne, Hassan Kazemian, Kenneth White</i>	37
5 Computationally Efficient Graph Matching via Energy Vector Extraction <i>Ariel Amato, Murad Al Haj, Josep Llados, Jordi González.....</i>	47
6 A Validity Index Based on Cluster Symmetry <i>Sriparna Saha, Sanghamitra Bandyopadhyay.....</i>	54
7 Introduction of New Expert and Old Expert Retirement in Ensemble Learning under Drifting Concept <i>Indrè Žliobaitė.....</i>	64
8 Comparison of Three Feature Extraction Techniques to Distinguish Between Different Infrasound Signals <i>José Chilo, Thomas Lindblad, Roland Olsson, Stig-Erland Hansen.....</i>	75
9 Developing Trading Strategies based on Risk-analysis of Stocks <i>Martin Sykora, Sameer Singh.....</i>	83

Part II Biometrics

10	Facial Image Processing with Convolutional Neural Networks <i>Christophe Garcia, Stefan Duffner</i>	97
11	Time-dependent Interactive Graphical Models for Human Activity Analysis <i>Marco Cristani, Vittorio Murino</i>	109
12	A New Lexicon-based Method for Automated Detection of Terrorist Web Documents <i>Menahem Friedman, Doron Havazelet, Dima Alberg, Abraham Kandel, Mark Last</i>	119
13	A Neural Network Approach for Multifont Size-Independent Recognition of Ethiopic Characters <i>Yaregal Assabie, Josef Bigun</i>	129
14	Automated Classification of Affective States using Facial Thermal Features <i>Masood Mehmood Khan, Robert D. Ward, Michael Ingleby</i>	138
15	On-line One Stroke Character Recognition Using Directional Features <i>Murad Al Haj, Ariel Amato, Gemma Sánchez, Jordi González</i>	145
16	Comparison of SVMs in Number Plate Recognition <i>Lihong Zheng, Xiangjian He, Tom Hintz</i>	152
17	Three Different Models for Named Entity Recognition in Bengali <i>Asif Ekbal, Sivaji Bandyopadhyay, Amitava Das</i>	161
18	Comparison of Local and Global Thresholding for Binarization of Cheque Images <i>Narges Marashi, Jamshid Shanbezadeh</i>	171
19	Reading out 2D barcode PDF4717 <i>Michael Trummer, Joachim Denzler</i>	179
20	Off-Line Hand-Written Farsi/Arabic Word Segmentation into Subword under Overlapped or Connected Conditions <i>Maryam Rastegarpour, Jamshid Shanbezadeh</i>	186
21	Iris Biometrics Algorithm for Low Cost Devices <i>Judith Liu-Jimenez, Ana Ramirez-Asperilla, Almudena Lindoso, Raul Sanchez-Reillo</i>	195

22 Optimization of PCA Based Face Recognition Models <i>D S Guru, R Divya, T N Vikram</i>	203
23 Discriminating Unknown Faces using Eigen-face Approach and a Novelty Filter <i>Ke Shanjing, Sameer Singh, Maneesha Singh</i>	214
24 Using Timing to Detect Horror Shots in Horror Movies <i>Min Xu, Jesse S. Jin, Suhuai Luo, Qingming Huang</i>	225
25 Indoor/Outdoor Scene Classification using Audio and Video Features <i>José Lopes, Sameer Singh</i>	232
Author Index	243
