Preface	vii
Organizing Committee	ix
Table of Contents	xi
Vladimir A. ANTONOV	
<i>Lattices of centralizers in groups</i>	1
Boris APANASOV	
<i>Varieties of discrete representations of hyperbolic 3-lattices</i>	7
Serikzhan A. BADAEV and Sergei S. GONCHAROV	
<i>On computable minimal enumerations</i>	21
Vissarion V. BELYAEV	
<i>Locally finite simple groups from the standpoint of the classification of finite simple groups</i>	35
Andreï A. BULATOV	
<i>Some complex sublattices of clone lattices</i>	41
Vyacheslav P. DOBRITSA	
<i>An example of an unconstructivizable semilattice of computable numberings</i>	45
Georgii P. EGORYCHEV and Vladimir M. LEVCHUK	
<i>Enumeration of characteristic subgroups of unipotent Lie-type groups</i>	49
Yuriï L. ERSHOV	
<i>Projectivity of absolute Galois groups of RC^*-fields</i>	63
Aleksandr V. GRISHIN	
<i>On finite basedness of abstract T-spaces</i>	81

Peter HILTON and Christopher SCHUCK	
<i>Non-cancellation phenomena in a class of finitely generated nilpotent groups</i>	93
Hans-Jürgen HOEHNKE	
<i>On certain classes of categories and monoids constructed from abstract Mal'cev clones. IV</i>	103
Anatoliĭ S. KONDRAT'EV	
<i>Decomposition matrices of finite quasisimple groups</i>	133
Aleksēi A. KOROBov	
<i>Characterization of dilatations expressible as a product of independent simple transformations</i>	145
Andreĭ A. KROKHIN	
<i>Monoidal and distributive intervals in clone lattices</i>	153
E. K. LOGINOV and David I. MOLDAVANSKII	
<i>On a class of Moufang loops</i>	161
Aleksandr A. MAKHNEV	
<i>On extensions of partial geometries</i>	165
Yakov N. NUZHIN	
<i>Generators of simple groups and their applications</i>	171
Konstantin A. PAVLOV	
<i>On prime QF-extensions of rings</i>	189
Vitaliĭ A. ROMAN'KOV	
<i>Automorphism groups of free pro-p-groups of finite ranks ≥ 2 are infinitely generated</i>	195
Vladimir V. RYBAKOV	
<i>Elementary theories of free algebras for varieties corresponding to non-classical logics</i>	199
Iskhak I. SAKHAEV	
<i>The finite generation of projective modules</i>	209

Anatoliĭ M. SEBEL'DIN

Determination of abelian groups by their endomorphism rings 217

Yuriĭ V. SELIVANOV

Fréchet algebras of global dimension zero 225

Vladimir I. SENASHOV

Development of the theory of layer-finite groups 237

Sergeĭ I. SENASHOV

Lie groups and mechanics of deformable solid 243

Vladimir P. SHUNKOV

Recent investigations in group theory at the Krasnoyarsk State University .. 249

Ualbaĭ U. UMIRBAEV

Universal derivations and subalgebras of free algebras 255

Frank O. WAGNER

Stable groups (a survey) 273

John S. WILSON

*Finitely presented soluble groups, Hilbert—Serre dimension,
and integer polynomials* 287

Viktor I. ZENKOV

Solution of Mazurov's problem 297

List of Plenary and Sectional One-Hour Lectures 303

List of Contributors 305
