Acknowledgment — VII

Preface — IX

1 Introduction — 1

- 1.1 Fractional calculus via application and computation — 1
- 1.2 Motivation of fractional Hermite-Hadamard's inequality — 6
- 1.3 Main contents — 8

2 Preliminaries — 11

- 2.1 Definitions of special functions and fractional integrals — 11
- 2.2 Definitions of convex functions — 13
- 2.3 Singular integrals via series — 16
- 2.4 Elementary inequalities — 18
- 2.5 Special mean — 19

3 Fractional integral identities — 21

- 3.1 Identities involving Riemann-Liouville fractional integrals — 21
- 3.2 Identities involving Hadamard fractional integrals — 45

4 Hermite-Hadamard inequalities involving Riemann-Liouville fractional integrals — 65

- 4.1 Inequalities via convex functions — 65
 - 4.1.1 Main results — 65
 - 4.1.2 Applications to some special means — 79
- 4.2 Inequalities via r -convex functions — 80
 - 4.2.1 Main results — 80
 - 4.2.2 Applications — 114
- 4.3 Inequalities via s -convex functions — 119
 - 4.3.1 Main results — 119
 - 4.3.2 Applications to some special means — 135
- 4.4 Inequalities via m -convex functions — 138
- 4.5 Inequalities via (s, m) -convex functions — 154
 - 4.5.1 Main results — 154
 - 4.5.2 Applications to some special means (please disconnect) — 171
- 4.6 Inequalities via preinvex convex functions — 171
 - 4.6.1 Right-hand side inequalities via preinvex convex functions — 171
 - 4.6.2 Left-hand side inequalities via Preinvex convex functions — 177
- 4.7 Inequalities via (β, m) -geometrically convex functions — 181

4.8	Inequalities via geometrical-arithmetically s-convex functions — 185
4.8.1	Main results — 185
4.8.2	Applications to some special means — 213
4.9	Inequalities via (α, m)-logarithmically convex functions — 215
4.10	Inequalities via s-Godunova-Levin functions — 240
4.10.1	Main results — 240
4.10.2	Applications to some special means — 246
4.11	Inequalities via (s, m)-Godunova-Levin functions — 247
4.11.1	Main results — 247
4.11.2	Applications to some special means — 249
4.12	Inequalities via AG(log)-convex functions — 249

5 Hermite-Hadamard inequalities involving Hadamard fractional integrals — 253

5.1	Inequalities via convex functions — 253
5.1.1	Hermite-Hadamard's inequalities — 253
5.1.2	Applications to some special means — 272
5.1.3	Hadamard fractional Fejér inequalities — 280
5.1.4	Further results — 290
5.2	Inequalities via s-e-condition functions — 297
5.3	Inequalities via geometric-geometric coordinated convex function — 308
5.4	Inequalities via geometric-geometric-convex functions — 320
5.4.1	Main results — 320
5.4.2	Applications to special means — 349
5.5	Inequalities via geometric-arithmetic-convex functions — 355
5.5.1	Main results — 355
5.5.2	Applications to special means — 359

Bibliography — 361

About the authors — 373

Index — 375
