Preface — V

Contributors — IX

Subhabrata Saha, Komal Chawla, Vipin Kumar

1 Introduction — 1

Sanjita Wasti, Katie Copenhaver, Xianhui Zhao, Umesh Marathe,
Abdallah Ragab Barakat, Surbhi Kore, Soydan Ozcan, Uday Vaidya

2 Hybrid composite materials and their properties — 27

Sangita Tripathy, S. R. Dhakate, Bhanu Pratap Singh

**3 Carbon nanomaterials for advanced hybrid composites: properties
and applications — 49**

Umesh Marathe, Georges Chahine, Sanjita Wasti, Chase Mccullar, Pritesh Yeole,
Sana Elyas, Soydan Ozcan, Uday Vaidya

**4 Bridging conventional manufacturing through hybrid manufacturing
processes — 71**

Kazi Md Masum Billah

5 Hybrid additive manufacturing for composites — 89

Steve Bullock, Tony Beard, David Nuttall, Akash Phadatare, Uday Vaidya

6 Advanced integrated AM filament winding — 103

Ahmed Arabi Hassen, Segun Isaac Talabi, Vipin Kumar

**7 Innovations in high-rate composite manufacturing: integrating additive
manufacturing with compression molding process — 115**

Index — 139
