1	A Brief Introductory Story	1
	References	4
 Part I The Basics		
2	Hypnosis	7
2.1	History of Hypnosis	8
2.1.1	Historical Beginnings and Indigenous Peoples	9
2.1.2	From Enlightenment to Romanticism	9
2.1.3	Beginning of Modern Research	10
2.2	Natural Science—Hypnosis Research—Theories	11
2.3	Hypnosis in Clinical Practice	11
2.4	Research Results and Definitions	12
2.4.1	What is Hypnosis?	12
2.4.1.1	The Term “Hypnosis”	12
2.4.1.2	Terms Related to “Hypnosis”	12
2.4.2	Definition of Hypnosis	14
2.4.3	Delineations	14
2.4.3.1	Sleep	14
2.4.3.2	Relaxation	15
2.4.3.3	Everyday Behaviour	15
2.4.4	Forms of Hypnosis and Terminology	15
2.4.4.1	Autogenic Training	15
2.4.4.2	Self-hypnosis or Autohypnosis	15
2.4.4.3	Heterohypnosis or Allohypnosis	16
2.4.4.4	Spontaneous Hypnosis	16
2.4.4.5	Fractionated Hypnosis	16
2.4.5	The Evolution of Modern Hypnosis	16
2.4.5.1	Transition from Symptom Therapy to Causal Therapy	16
2.4.5.2	Transition from Authoritarian to Non-Directive Therapy	16
2.4.5.3	Is Hypnosis an Independent Therapy Method or an Adjunctive Method?	17

2.4.6	The Cognitive-Behavioural Hypnosis Model	17
2.5	The Basic Factors and Determinants of Hypnosis	18
2.5.1	Suggestion	18
2.5.1.1	Suggestions without Hypnosis	19
2.5.1.2	Negations as Suggestions	19
2.5.1.3	Operationalizing Clear, Positive, and Goal-Oriented Instructions	20
2.5.2	Hypnotizability.	20
2.5.2.1	Scientific Results.	21
2.5.2.2	Factors of Hypnotizability	21
2.5.2.3	Hypnotizability, Personality, and Therapy Success	22
2.5.2.4	Therapy Success Even Without Hypnotizability	23
2.5.3	Induction—The Initiation Procedure of Hypnosis. . .	24
2.5.3.1	Suggestions for Induction—Effective Factors.	24
2.5.3.2	Methods of Induction	24
2.5.4	Hypnosis as a Relaxation Technique	25
2.5.4.1	About the term <i>Relaxation Scene</i>	25
2.5.4.2	Function of the <i>Relaxation Scene</i>	25
2.5.5	Hypnosis as a Form of Experience—Behaviour in Hypnosis—The “Hypnosis Phenomena”	26
2.5.6	Depth of Hypnosis	26
2.5.7	The Hypnosis Therapist.	27
2.5.7.1	Generally Applicable Therapist Variables	27
2.5.7.2	Specifics of a Hypnosis Session and Requirements for the Hypnotherapist. . . .	28
2.5.8	Communication in Hypnosis	29
2.5.8.1	Essential aspects of hypnotic communication	30
2.5.8.2	Clear and Consistent Language Communication in Hypnosis.	32
2.5.8.3	Personal Close Language Communication.	32
2.5.8.4	Improving Communication with VAKOG.	33
2.5.9	Notes for Practice.	33
2.5.9.1	Vividness—Proximity to Experience . . .	33
2.5.9.2	Vividness, Credibility	34
2.5.10	Comparison of Hypnosis and Rational System	35

	References	96
 Part II The Combinations of Methods—Theory and Practice of Hypnosis and Behavior Therapy		
8	Behavior Therapy—Methods	99
8.1	Basic Requirements	100
8.1.1	Definition of Behavioural Therapy	100
8.1.2	Behavioural Analysis—Conditioning Models of Behaviour	101
8.1.3	The Diagnostic Interview—Functional Behaviour Analysis	102
8.1.4	Indication of a Therapy	102
8.1.5	Therapy Planning	103
8.1.6	Practice of Behaviour Therapy	103
8.2	Therapy Goals	103
8.2.1	General Therapy Goals	103
8.2.2	Therapy Goals for Anxiety	103
8.2.3	Individual Goal Agreements	104
8.2.4	Therapy Goal Self-Control Belief	104
8.2.5	Concrete Goals of Treatment	106
8.2.6	Self-efficacy Expectation	106
8.2.6.1	Hypnosis and Expectation of Self-efficacy	106
8.2.6.2	Explanation from the Perspective of Neuropsychology	106
8.3	Classic Therapy Methods—Psychotherapy for Anxiety	107
8.3.1	Classical Conditioning	107
8.3.1.1	Fear Confrontation, Exposure	107
8.3.1.2	Desensitization	107
8.3.1.3	Counterconditioning	108
8.3.1.4	Stimulus Change	109

8.3.2	Operant Learning—Unlearning—Extinction.	109
8.3.2.1	Behavior reduction: Discontinuation of operant reinforcement of anxiety	109
8.3.2.2	Shaping Behavior	109
8.3.2.3	Changes through contingency management	109
8.3.3	Learning by Observation—Learning from a Model—Imitation Learning.	110
8.3.4	Cognitive Methods for Change	110
8.3.4.1	Changing Dyscognitions.	110
8.3.4.2	Acquiring Self-Efficacy: the central goal of therapy	110
8.3.4.3	Reframing—Reinterpretation	110
8.3.4.4	Priming—Facilitation	111
8.3.4.5	Imagination	112
8.3.4.6	Metaphors	112
8.4	Cognitive-behavioural therapy in combination with hypnosis—or vice versa.	112
8.4.1	Commonalities of Hypnosis and Cognitive- behavioural Therapy.	112
8.4.2	A central goal of therapy: Conveying self- efficacy and self-control belief.	113
8.4.3	Required Skills for Self-Management and Self- Control Belief.	114
8.4.3.1	Self-Observation	114
8.4.3.2	Self-Evaluation and Self- Reinforcement.	114
8.4.3.3	Self-control—Coping—Decisions	115
8.4.3.4	Self-instruction	116
8.4.3.5	Goal clarification—Goal setting	116
8.4.3.6	Evaluation of Coping Strategies	116
8.4.3.7	Therapeutic Homework.	117
8.5	Tasks and Basic Settings of the Therapist in Cognitive Behavioural Therapy	117
8.5.1	Role of the Therapist	118
8.5.2	Relevant Basic Attitudes of the Therapist	118
8.5.3	Three Aspects of Patient Support.	118
