

Contents

Features and species	8	Intra- and interspecific relationships	51
Shared characteristics	8	• Social contacts	51
• Eye	9	• Pecking order	53
• Bill	9	Display and courtship	55
• Facial disc	10	• Displays	55
• Foot	11	• Female choice	57
• Plumage	12	• Nest-site selection	57
• Feather structure	14	• Nest preparation	59
• Juvenile plumage	16	• Prey transfer	59
Species diversity and evolution	17	• Pairing	60
• Original owls	17	Reproduction and brood care	60
• Species diversity	18	• Eggs and clutches	62
• Owls in bird systematics	19	• Incubation	64
• Owl relationships	22	• Incubation initiation and hatching sequence	64
Adaptations of owls	26	• Division of labour	65
Highly specialised sense organs	26	• Sexual size difference	66
• Residual light amplification	26	• Care of young	66
• Iris aperture	27	• Help with hatching	67
• Acoustic navigation in total darkness	28	• Feeding at the nest	67
• Hunting by sound	30	• Nest hygiene	67
• Silent flight	31	• Defence of the brood	68
Communication signals	32	• Diversion	69
• Contrasting markings	32	Nestling period and juvenile development	69
• Calls and songs	34	• Adaptive nestling plumage	70
• Frequency range	35	• Abilities of juvenile owls	71
• Shared features across families	37	• Dangers to fledglings	72
• Song rhythms	37	• Fledging	72
Owl behaviour	38	Life strategies of owls	74
Rest, body maintenance and movement	38	Activity pattern	74
• Feather maintenance	39	• North-south gradient	74
• Flight artistry	40	Choice of prey	76
Hunting	42	• Advantage of small size	76
• Sit-and-wait or active flight	42	• Power of large size	77
• Food storing	44	• Mice for the middle sized	77
• Skin and hair	47	• Famine years	78
• Pellets	48	Mating systems and reproductive strategies	78
Avoidance of predators and disturbance	49	• Endurance of resident species	79
• False ears for camouflage	49		
• Threat and attack	50		

• Sex-specific strategies	79	• Reducing accident risks	115
• Nomads on the search	81	• Recovery centres	116
• Forward planning	82	• Breeding programmes	116
• Life expectancy	84	• Reintroduction projects	117
• Dispersion and migration	86	• Problems with reintroduction	119
Habitat requirements	88	• Helpful measures	120
Important habitat parameters	88	Ensuring habitat quality	121
• Habitat assessment	88	• Supply of artificial nesting sites	122
• Prey availability	89	• Securing food supply	123
• Nest-site availability	91	• Protected areas	124
Site selection	92	• Uncertainties caused by climate change	124
• Optimal compromise	95		
• Key factors	95		
• Owl habitats	96		
Natural and cultivated landscapes as owl habitats	97	The species	127
• Ice age effects	97	Barn Owl <i>Tyto alba</i>	128
Primary habitats in central Europe	99	Eagle Owl <i>Bubo bubo</i>	149
• Owls in cultivated landscapes	99	Snowy Owl <i>Bubo scandiacus</i>	172
• Owls in built-up areas	100	Great Grey Owl <i>Strix nebulosa</i>	193
• Habitat enrichment through land use	101	Ural Owl <i>Strix uralensis</i>	215
Unnatural risk factors	102	Tawny Owl <i>Strix aluco</i>	236
• Indirect threats – mostly unnoticed and unintentional	103	Long-eared Owl <i>Asio otus</i>	258
		Short-eared Owl <i>Asio flammeus</i>	282
		Scops Owl <i>Otus scops</i>	301
Protection and conservation	106	Hawk Owl <i>Surnia ulula</i>	317
• Owls need our help	106	Pygmy Owl <i>Glaucidium passerinum</i>	335
Victims of superstition	106	Little Owl <i>Athene noctua</i>	358
• Birds of death	107	Tengmalm's Owl <i>Aegolius funereus</i>	382
• Black magic	108		
• Symbols of wisdom	109	Determining characteristics of European owls	406
Anthropocentric owl protection	110	Addresses	408
• Useful in pest control	110	Sources of population estimates	410
• Hunting competition	111	Further reading	411
• Indicator species	112	Picture credits	412
Species protection – a global obligation	112	About the authors	412
• Scientific survey methods	113	About the translator	412
• Assessing populations	114	Index	413
