The Use of Smart Mobile Equipment for the Innovation in Organizational Coordination	1
1 Introduction	1
2 Theoretical Background and Research Hypotheses	3
2.1 Mobile Office System	3
2.2 Technology and Coordination: Organizational Information Processing Theory View	8
2.3 Task Characteristics and Research Hypotheses	12
3 Research Method	17
3.1 Research Model	17
3.2 Operational Definition of Variables	17
3.3 Data Collection	18
4 Results of Data Analysis	20
4.1 General Characteristics of the Sample	20
4.2 Test of Research Instruments	20
4.3 Revision of Research Model and Hypotheses	22
4.4 Test of Hypotheses	23
5 Case Study of the Use of Mobile Office	25
5.1 Background of the Case Study	25
5.2 Adoption of Mobile Office System at SMRT	27
5.3 Characteristics of the Mobile Office System of SMRT	29
5.4 Effect of the Adoption of Mobile Office System at SMRT	31
6 Conclusion	32
